HIGH COURT NOTICES.

Circular Orders issued by Authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 11, *dated the 7th June* 1877.

IN continuation of Circular Order No. 21, dated 18th August 1873, the Court is pleased to prescribe, for general adoption in all civil courts subject to its control, the accompanying form of Sale Account. This form will be filled up by the Nazir or other officer holding the sale in all cases, and will be presented by him at the close of the day to the presiding officer of the court in which the sale has been held.

2. The provisions of the Civil Procedure Code make it necessary that cash should sometimes be received by the Nazir, even where sales are held at head-quarters where there is a treasury. It is therefore very important that the courts should see that the cash so received is duly forwarded to the treasury and credited in account, and it is the object of the list now prescribed to bring to the notice of the courts all such cash transactions, with a view to their satisfying themselves as to the regular and immediate disposal of the sale proceeds.

SALE ACCOUNT.

No. of lot.	Amount of last bid or at which the lot is knocked down.	Name of purchaser.	Amount of earnest money.	Date of remittance to Treasury, as per Pass Book or Advice.	Amount of purchase money.	Date of payment into Treasury, as per Advice or Pass Book.	REMARKS.

GENERAL LETTER No. 12.

TO ALL DISTRICT JUDGES.

Dated Calcutta, the 11*th June* 1877.

SIR,

HIGH COURT.
ENGLISH DEPARTMENT.
Civil.

A SUGGESTION has been made to the High Court that custody fees for guarding articles under attachment, leviable under the rules framed by the Court under the Court Fees Act, should be realised in cash and not in stamps, and that they should be adjusted through the subsidiary cash-book for diet-money, &c., prescribed in the new account rules, thus obviating the necessity for any special rules for refunds of stamp value.

2. The proposed arrangement would be convenient; but a difficulty arises from the wording of section 25, Act VII of 1870,—"all fees referred to in section 3, or chargeable under this Act, shall be collected by stamps."

3. The course which the court, after consulting the Accountant-General, Bengal, is pleased to prescribe for adoption is that the Moonsiff or other Judge shall in such cases give to the person entitled to a refund a certificate payable out of the cash in the hands of the Court and debitable in the treasury accounts to Stamp Revenue. This plan will, it is true, render the returns of income from court fees inaccurate to a certain extent; but as under any adjustment the refunds would introduce a disturbing element into the accounts, the Court considers that the proposed plan may be adopted with advantage.

I have the honor to be,

SIR,

Your most obedient servant,

J. CRAWFURD,
Offg. Registrar.

Sheriff's Office, the 6th June 1877.

OFFICIAL NOTIFICATION.

In consideration of the state of war, the Imperial Government has decreed the following measures which will be strictly observed from the 29th of April 1877, until the re-establishment of peace :—

1. The passage of the Straits of the Dardanelles and of the Bosphorus is forbidden during the night to all steam-ships of sailing vessels either entering or leaving, without distinction or exception, that is to say, before sunrise and after sunset.

2. The lights in the Straits will be extinguished with the exception of those of the two great light-houses placed at the entrance of the Bosphorus at the Black Sea (Roumeli and Anatoli Fénéri) and of the two light-houses of Sedal Bahr and of Koumkalé, in the Straits of the Dardanelles.

These four lights may also be extinguished by order of the Military Commanders.

3. The custom of firing cannon during foggy weather as an alarm signal is absolutely forbidden.

Decision of the Sublime Porte respecting Russian ships in the Ottoman Empire and the commerce of Neutrals.

Russia having declared war, the Ottoman Government has come to the following decisions :—

ART. 1. A period of five clear days, to date from the notification, on the spot, of the present decision, is accorded to the Russian ships which happened to be in the ports of the Empire on the 14th April 1877, in order to leave the Ottoman waters. With this view a safe conduct shall be given to them, on application, by the Customs authorities to enable them to proceed to the nearest Russian or neutral port, without however authorizing them to pass through the straits from the Mediterranean into the Black Sea, or *vice versâ*.

ART. 2. The Ottoman Government declares its intention of observing the rules of maritime law laid down in the declaration signed in Paris on the 16th of April 1856, and according to which—

1. Privateering is and remains abolished.
2. The neutral flag covers enemy's goods, with the exception of contraband of war.
3. Neutral goods, with the exception of contraband of war, are not liable to capture under enemy's flag.
4. Blockades in order to be binding must be effective, that is to say, maintained by a force sufficient really to prevent access to the coast of the enemy.

ART. 3. In order to stop contraband of war the Ottoman Government will exercise the right of visit on the high seas as well as in Ottoman waters, and during the passage through the straits of neutral ships bound for a Russian port or for a part of the coast occupied by the enemy, or even, in case of suspicion, for an Ottoman or neutral port.

ART. 4. The measures consequent on this decision shall immediately come into effect. It shall be notified to all persons interested by an official communication, addressed to the foreign representatives resident at Constantinople, by publication in the official journal of the Empire by telegram sent to the capitals of the vilayets.

Sublime Porte, $\frac{\text{April 19}}{\text{May 1}}$, 1877.

Sublime Porte.

Instructions given to His Excellency the Serdar Ekrem.

17th *April* 1877.

The Danube being considered a line of defence, the rules relating to the commerce of neutrals at sea cannot be applied to it. Consequently, the commander of the forces is at liberty to take such measures as he may think expedient for military operations. He has especially the right of stopping navigation, of detaining and requisitioning ships, subject to an idemnity, of obliging them to leave the ports, of assigning to them ports of refuge, all under the severest penalties, such as the confiscation of the ship and cargo, and, if necessary, by the application to them of the regulations relating to spies. He is, in short, authorized to issue on this point such proclamations as he may deem necessary, provided that the measures which he may take are really dictated by the necessities of war, and also provided that, in case of confiscation, he shall refer the matter to a Special Council, which shall be appointed beforehand, and whose duty it will be to give sentence as far as possible in due form.

As regards ships which shall have been detained before the formal proclamation of these measures, and which consequently cannot be considered to have infringed the orders of the Ottoman commander, their cargoes cannot be confiscated, for if they belong to Ottoman or neutral subjects they have incurred no penalty. If they belong to Russian subjects, since the Government has not admitted the right of embargo or the confiscation of the goods of Russian subjects in general, this measure should not be exceptionally applied to those which happen to be on the Danube.

The Government is under no circumstances responsible for the losses which the shippers, the proprietors of cargoes or other interested parties may incur, from the fact that the ship has been prevented from continuing its voyage, this being the result of the necessities of war, and of the dangers to which the ship and crew would be exposed by an infringement of these rules.

In every case contraband of war is liable to seizure, and involves the confiscation of the ship and all the cargo.

The Tribunal charged to pronounce judgment will decide whether or not there is contraband of war.

Appeals against the judgments of the Tribunal in question will not have the effect of suspending proceedings; they should be brought immediately, and in the last resort, before the Court of Cassation at Constantinople.

The Commandant will be careful to inform the Foreign Consulates of the measures which he has taken with the above view, to publish them and notify them on the spot, and to telegraph them immediately to Constantinople.

Macalister to be a Marriage Registrar in respect of all places within the territory of His Highness the Maharajah of Jeypore, and to grant him a license under Section 9 of the said Act, authorizing him to grant certificates of marriage between Native Christians.

NOTICE TO MARINERS.

Ceylon—South Coast.

BUOY MARKING GINDURAH ROCK.

NOTICE is hereby given that an Iron Buoy, painted red, is laid in 11 fathoms water about two cables length south of the Gindurah Rock. It is laid at this distance from the rock on account of the foul ground in its more immediate vicinity.

As the light-house at Point-de-Galle can be seen before the buoy which marks this rock, and its position can always be depended on, commanders of vessels should take it as the best mark to determine their position in making this port.

Vessels making the port from the westward or northward will, by keeping the light-house on the bearing of E. by N. ½ N., pass about two miles south of the Gindurah Rock, and clear the whales. All is clear and open to the southward of this bearing, which will also give vessels a good fair-way to the pilot grounds.

Vessels wanting a pilot should heave-to with the light-house about N. E. to N. N. E. distant about one mile, which will keep them well clear of the Cadda Rocks, off the entrance to the port.

By direction of the Government of Ceylon,

DAN. BLYTH,
Master Attendant, Galle.

The following translation of a notification issued on the 24th of April by the Governor of Odessa has been received from Her Majesty's Consul-General at Odessa :—

NOTICE.

In consequence of the laying of mines from noon on the $\frac{13}{25}$th April, the entering and the leaving the port of Odessa will only be allowed on the following conditions :

1. A ship arriving must stop opposite Middle Fountain, where she will be met by Russian officers with crews, who will take command of the ship, having previously ascertained that the ship's papers are in order.

2. The master gives an undertaking for himself personally, and likewise for the crew and passengers, stating that until they enter the port none of them will be on deck, nor follow the course of the ship through the ports or port-holes.

3. A similar undertaking will be taken from the masters of vessels leaving the port.

4. In case of men-of-war cruisers appearing in points of the Bay of Odessa whence they could observe the piloting out of ships, the Russian authorities will require them to withdraw for a certain time to a sufficient distance, in order that the vessels may be piloted out; and until they fulfil this request, unforeseen by international marine law, but indispensably called for by the newest conditions of war with mines, no foreign ship will be allowed to leave the port.

The following orders, issued by the Government of India, in the Financial Department, are republished for general information :—

No. 1150—*Simla, the 9th June* 1877.—*Notifications.—Separate Revenue.—Stamps.*—In exercise of the powers conferred by Section 16 of the General Stamp Act, 1869, the Governor-General in Council is pleased to remit the duties chargeable under the said Act on tenders for any portion of the loan advertised in the *Gazette of India* Extraordinary of the 7th June 1877.

No. 1609.—*The 29th June* 1877.—*Pensions, Gratuities, &c.*—The Governor-General in Council directs the publication of the following Addenda and Corrigenda to the Codes of the Financial Department :—

CIVIL PENSION CODE.

SUPPLEMENT C.

SECTION 3, RULE 3 (PAGE 106).

Add the following :—

"A Chaplain of the Church of Scotland serving in the Bengal Presidency who wishes to obtain pension from the authorities in India must submit his application to the Government of India in the Home Department, if he is not Senior Chaplain, through the Senior Chaplain of the Church of Scotland. A Chaplain of the Church of Scotland serving in Madras or Bombay must submit his application to the Government of Madras or Bombay, as the case may be, if he is not Senior Chaplain, through the Senior Chaplain of his Presidency."

RULE 7 (PAGE 55).

Substitute the following for this Rule :—

7. Except as provided in Rules 1, 2, and 3, an officer who, having been discharged with a pension or gratuity, is subsequently re-employed, may not count his new service for a separate pension or gratuity. Pension or gratuity is in any case admissible only for the new service combined with the old, the whole being counted as one service. Provided, however, that if a gratuity received for the earlier service has not been refunded, gratuity or pension (as the case may be) may be allowed for the subsequent service on condition that the amount of such gratuity, or the present value of such pension calculated according to Table A in Appendix E, plus the amount of the previous gratuity, shall not exceed the amount of gratuity, or the present value of the pension calculated

according to Table A in Appendix E, that would have been admissible had the gratuity received for the earlier service been refunded. If the amount of such gratuity, or the present value of such pension, plus the amount of the previous gratuity, exceeds the amount of gratuity, or the present value of the pension that would have been admissible if the gratuity received for the earlier service had been refunded, the excess must be disallowed.

Examples to the Proviso :—

1. A. B., after a service of 8 years, received a gratuity of Rs. 4,800. A. B. was re-employed, but did not refund the gratuity. After serving for 5 years, A. B. becomes eligible for an invalid gratuity of Rs. 3,000. If A. B. had refunded the gratuity for the earlier service, he would have been entitled to a gratuity of Rs. 7,200. As the gratuity admissible for the new service, plus the gratuity received for the earlier service, exceeds the gratuity which would have been admissible to A. B. if the gratuity for the earlier service had been refunded, A. B. is entitled to receive a gratuity of Rs. 3,000 minus Rs. 600, which is the excess.
2. C. D. obtained a gratuity of Rs. 4,000 after a service of 8 years. C. D. was re-employed, but did not refund the gratuity. After serving for 16 years, C. D., at the age of 48 years, becomes eligible for an invalid pension of Rs. 150 a month. If C. D. had refunded the gratuity for the earlier service, he would have been entitled to a pension of Rs. 150 a month. The present value of the pension of Rs. 150 (Rs. 18,971-14-0), plus the gratuity received for the earlier service, is equal to Rs. 22,971-14-0, and as this is in excess of the present value of the pension by Rs. 4,000, the excess should be disallowed. C. D. will therefore be entitled to a pension of which the present value is Rs. 14,971-14-0, or a pension of Rs. 118-5-11 a month.
3. E. F. is removed after a service of 10 years with a gratuity of Rs. 3,000. E. F. was re-employed, but did not refund the gratuity. After serving for 20 years, E. F., at the age of 56 years, becomes eligible for a superannuation pension of Rs. 150 a month. If E. F. had refunded the gratuity for the earlier service, he would have been entitled to a superannuation pension of Rs. 225 a month. The present values of the pension of Rs. 150 and Rs. 225 are respectively Rs. 16,092-3-0 and Rs. 24,138-4-6. The present value of the pension of Rs. 150, plus the amount of the gratuity received for the earlier service, does not exceed the present value of the pension that would have been admissible if the gratuity for the earlier service had been refunded. E. F. is therefore entitled to the pension of Rs. 150 a month.

CIVIL LEAVE CODE.

SECTION 4 (PAGE 118).

Insert the following as case (k) :—

(*k*). When the leave allowances of an officer are said to be chargeable to several accounts according to the "rule of proportions," the meaning is that the charge should be debited to such several accounts in the proportions in which the aggregate salary drawn by the officer in the course of the three years immediately preceding the beginning of his leave, was charged to such several accounts.

SECTION 36A.

Substitute the following for this Section :—

Section 36*A*.—The leave allowances of an officer who in the course of the three years immediately preceding the beginning of his leave has served in any appointment the pay or salary of which has been derived either wholly or in part otherwise than from Indian revenues shall be charged according to the "rule of proportions." This rule does not, however, apply to an officer who has made a contribution under Section 38 of the Civil Pension Code for the cost of his leave, or who is specially exempted from the operation of that section; nor does this rule apply to a military officer who vacates his appointment in the Civil Department when going on leave and reverts to the Military Department: in this case the leave allowance is charged to the Military Department.

ACTING ALLOWANCE CODE.

CHAPTER IX (PAGE 236).

Add the following Section to this Chapter :—

Section 28*A*.—Section 28 does not apply to the case of an officer the pay of whose appointment is changed during his tenure of office. In such case, if the new pay is progressive, the officer is not entitled to the first increment on his old pay till a year after the date of the order sanctioning the increase.

Examples.—(1). The pay of A. B.'s appointment is Rs. 300: on the 1st July 1876 it is changed to Rs. 250 rising by five annual increments of Rs. 20 a month to Rs. 350. A. B. is entitled to Rs. 320 from the 1st July 1877.

(2). The pay of C. D.'s appointment is Rs. 200 rising by five equal annual instalments to Rs. 300. C. D.'s pay has been Rs. 300 for five years. The pay of the appointment is changed by an order dated 1st July 1876 to Rs. 250 rising by five equal annual instalments to Rs. 350. C. D. is entitled to Rs. 320 from the 1st July 1877.

Baboo Poolin Chunder Roy

The advertisement calling the meeting having been read, and the report of the Directors, with statement of accounts for the half-year ending 30th April 1877, having been submitted and taken as read, it was

Proposed by George Yule, Esq.—

Seconded by Baney Madhub Sen—

That the Directors' report and accounts for the half-year ending 30th April 1877, which have been printed and circulated amongst the shareholders, be adopted and approved as correct.

An amendment was

Proposed by G. M. Goodricke, Esq.—

Seconded by A Strand, Esq., by his attorney H. J. Place, Esq.—

"That the sums standing at the credit of 'Reserve Fund' and 'Wear and Tear Accounts,' aggregating Rs. 22,480-5-7, be transferred to credit of profit and loss account for the past half-year."

Mr. Goodricke desired that his reasons for making this proposition be recorded in the minutes of this meeting, they are.—

1st.—That in his opinion it is unnecessary for the Company to have a Reserve Fund at all, and especially one with such an insignificant sum standing at credit.

2nd.—That in his opinion an undue amount has been deducted from the profits of the past half-year on account of stores, and having regard to the heavy charges under this heading, as well as to the fact that from the printed accounts for the past year, the sum of Rs. 5,571-14-5 appears to have been deducted from profits for the "repairs and renewals of plant" in addition to the sum of Rs. 9,501-5-6, spent under the heading of Engineer's accounts, signifying that "Wear and tear had been actually paid for from current profits," Mr. Goodricke sees no necessity for carrying forward any longer the sum at credit of "Wear and Tear Account."

The Chairman having explained the necessity for the accounts being made up in their present form, the amendment was put to the Meeting and lost.

The original proposition was then put and carried.

It was proposed by G. M. Goodricke, Esq., seconded by A. Strand, Esq., by his attorney H. J. Place, Esq.—

That the appointment of Mr B. D. Colvin, as a Director of the Company, be confirmed.

It was proposed by George Yule, Esq., seconded by Baboo Poolin Chunder Roy—

That Mr. G. M Goodricke be elected a Director of the Company.

It was proposed by Baboo Poolin Chunder Roy, seconded by G. M. Goodricke, Esq.—

That Baboo Baney Madhub Sen be elected a Director of the Company.

It was proposed by J. H. Twigg, Esq, by his attorney John McIntosh, Esq., seconded by Baboo Poolin Chunder Roy—

That Mr. Blechynden and Mr Stanley be re-elected as auditors of the Company for the ensuing year.

With a vote of thanks to the Chair the Meeting separated. (1391—1) GEORGE YULE, *Chairman.*

PART VI.

Bill of the Legislative Council of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 14th June 1877 :—

No. 12 of 1877.

A Bill to amend the Chutia Nágpur Encumbered Estates' Act, 1876.

Preamble.

For the purpose of amending the Chutia Nágpur Encumbered Estates' Act No. VI of 1876 ; It is hereby enacted as follows :—

Amendment of Act VI of 1876, section 12, clause 2.

1. For the word "six" shall be substituted the word "twelve" in the second clause of the twelfth section of the said Act.

STATEMENT OF OBJECTS AND REASONS.

THE Government of Bengal being of opinion that the period of six months provided by section 12 of the Chutia Nágpur Encumbered Estates' Act, 1876, is too short for deciding whether an estate should be retained under management or relinquished under that section, the period of six months is, by the amending Bill, increased to twelve months, which period it is believed will be sufficient for the purpose.

The 10th July 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF CEYLON.

NOTICE TO MARINERS.

Ceylon—South Coast.

BUOY MARKING GINDURAH ROCK.

NOTICE is hereby given that an Iron Buoy, painted red, is laid in 11 fathoms water about two cables length south of the Gindurah Rock. It is laid at this distance from the rock on account of the foul ground in its more immediate vicinity.

As the light-house at Point-de-Galle can be seen before the buoy which marks this rock, and its position can always be depended on, commanders of vessels should take it as the best mark to determine their position in making this port.

Vessels making the port from the westward or northward will, by keeping the light-house on the bearing of E. by N. ½ N., pass about two miles south of the Gindurah Rock, and clear the whales. All is clear and open to the southward of this bearing, which will also give vessels a good fair-way to the pilot grounds.

Vessels wanting a pilot should heave-to with the light-house about N. E to N. N. E. distant about one mile, which will keep them well clear of the Cadda Rocks, off the entrance to the port.

By direction of the Government of Ceylon,

MASTER ATTENDANT'S OFFICE,
GALLE,
The 13th June 1877.

DAN. BLYTH,
Master Attendant, Galle.

DISTRICT ROAD FUND.

NOTIFICATION.

No. 203.

The 10th July 1877.

UNDER Section 89 of Act X (B. C.) of 1871, the following annual accounts and reports of the Road Cess Committees of Dacca, Furreedpore, Backergunge, Mymensingh, and Tipperah, of works done and in progress during the past cess year 1875-76, together with the remarks thereon of the Commissioner of the Dacca Division, are published for general information.

G. A. D. ANLEY, C. E.,
Asst. Secy. to the Govt. of Bengal
in the Public Works Dept.

No. 570, dated Dacca, the 15th December 1876.

From—D. R. LYALL, Esq., Chairman, Road Cess Committee, Dacca,
To—The Commissioner of the Dacca Division.

I HAVE the honor to forward herewith in duplicate a detailed account of receipts and expenditure of the District Road Fund for the cess year ending 30th September 1876, and also to submit the following report on the works done by the District Road Committee during that year and those proposed to be undertaken during the current year 1876-77, in conformity with the instructions contained in Government circular No. 50, of the 23rd July 1873.

2. The year opened with a large balance of Rs. 49,464-11-2, in consequence of the cost of the dredger not being finally adjusted in the Executive Engineer's accounts during the preceding year, and the receipts of the year come to Rs. 89,927-1-10, the details of which are given in Part II of the annual account, making a total of Rs. 1,39,391-13-0 as the available funds of this district for the year. The total expenditure on works, establishment, tools and plant, &c., including also the moiety cost of the dredger, amounted to Rs. 83,354-2-8, leaving a balance of Rs. 56,037-10-4 at the close of the year. Of the total outlay more than two-thirds, viz. Rs. 57,729-13-7, were spent through the Department Public Works.

3. The main feature of the year under review is the absence of large original works, owing, in the first place, to the delay in the submission of the very detailed plans of the Goalundo road, the original works determined on which were required by Government; and in the next, to delay in any order being passed on these plans when sent up. The work is still not begun in consequence of sanction not having yet arrived, though reminders have been sent on the subject and the working season is half over.

4. The item of Rs. 7,681-4-10 entered against original works in the expenditure side of Part II of the annual account was expended in petty works executed by the Central and Branch Committees out of the allotment of Rs. 2,000, given to each of these Committees for petty village works within their respective jurisdictions, in survey operations, and in paying for works done last year.

5. Works done in 1875-76:—

(1) The extension of the Goalundo line of road from Dacca to Manickgunge, a distance of 25½ miles, has been fully surveyed at a cost of Rs. 1,237-1-9, including the outlay of the preceding year, and complete estimates and plans have been prepared and submitted to Government for sanction.

(2) The Taltolah khall has also been surveyed at an expenditure of Rs. 1,169-6-0. This work will probably be undertaken when the Goalundo road is finished and the plans have been got ready in anticipation.

(3) A grant of Rs. 1,000 was made out of the Sudder sub-divisional allotment for village roads to the inhabitants of Nasimpore for the construction of a road from their village to Nobabgunge, and a further sum of Rs. 100 was subsequently sent to the Sub-Inspector of Police, Nobabgunge, for a bit of that road leading to a kalibari. The former work was done by the villagers under the supervision of Baboo Obhoy Churn Bose, Roi Bahadoor, Honorary Magistrate of Joykrishtopore and a member of this Committee, and the latter by the Sub-Inspector. I have seen the work, and there is no doubt that good work for the money has been done.

(4) The item of Rs. 266-12-3, entered under original works against the Toonghy iron bridge, calls for special notice. This bridge was presented to the district by Rajah Kali Narain Roi Chowdhuri Bahadoor, of Bhowal, on the occasion of the Viceroy's visit, and it was expected it would cost about Rs. 20,000 landed in Dacca. The Road Cess Committee have provided the cost of putting it up in this year's budget. Owing, however, to the bad rate of exchange, and to the difficulty in getting it from Calcutta here, it has cost Rs. 26,205-3-9

laid in Dacca, exclusive of Rs. 266-12-3 above mentioned, and the excess was advanced by the Committee pending recovery. The amount in question, Rs. 266-12-3, being the expenditure incurred by the Department Public Works in unloading the iron works of the bridge from the India General Steam Navigation Company's flat and storing them in the godown, was charged to works in the accounts rendered to this office by the Executive Engineer, and that officer was requested to expunge the item from his accounts, holding it also under advance pending recovery. In reply he stated that all charges connected with district works, whether they be expenditure on the execution of works or advances made on account of them, are debited to the District Road Fund and to the deposits of his office, and that the form of schedule prescribed for district work expenditure for submission to the Chairman provides no head for advances, and consequently he did not consider it necessary to alter the head under which the expenditure was shewn by him. The amount in question, though charged in the account, will be recovered along with the other advances outstanding. The bridge will be put up during the present cold weather.

(5) The section of the Goalundo road between Shealo and Manickgunge, a distance of 15¼ miles, has been repaired at an outlay of Rs. 3,738-6-9, including cost of planting young trees and pay of chowkeydars for nursing them and preventing cattle trespass on the road. The road was open to traffic all the year round.

(6) The metal in the Naraingunge road, which is the only metalled road in the district, has been repaired in places where it was found necessary, and the bamboo piling on the fifth mile has also been put into fair order. The total expenditure incurred on it is Rs. 947-15-3, including the cost of measuring the road from the sudder ghât with a view to removing and reposting the mile-posts. During the last flood a portion of the south parapet wall, together with the south-west wing of the bridge at Pagla, have fallen down, and also the arch of the bridge on the sixth mile has very badly cracked, in consequence of which a portion of the parapet wall has been dismantled. These bridges will have to be repaired during this year.

(7) The road from Dacca to Toke, commonly called the Mymensingh road (52 miles), has been cleared of jungles and repaired, five wooden bridges on the line have been put into working order, and the arch of a pucca bridge, which was found in an unsafe condition, has also been dismantled and rebuilt. The total expenditure incurred is Rs. 1,997-6-6. The original contractor failed to do the work, and it was put in the hands of a second man, who has finished the work. After the annual repairs were done, the part between Toonghy and the turn leading to Joydebpore was found in bad order, chiefly owing to holes caused by white-ant hills falling in, which appeared during the rains, and the sub-overseer was directed to put it into order, which has since been done. The whole has been done within the estimate.

(8) A sum of Rs. 2,726-11-0 was expended for the repairs of the Moonshigunge-Sreenugger road as far as Singpara. Out of this Rs. 1,870-3-0 was spent in earthwork, Rs. 150 in jungle-clearing, Rs. 626-11-0 in wooden bridges, and Rs. 577-15-0 in bamboo bridges, the remaining Rs. 1-14-0 being on account of cooly hire for collecting posts, planks, &c., lying on this road in secure places. The road is in a fair state of repairs, and passable throughout the year up to Singpara. A bridge on the Jonshar branch road has also been repaired at a cost of Rs. 340.

(9) Ordinary annual repairs were effected to the Kolatya road (nine miles), and temporary bamboo bridges erected thereon at a total cost of Rs. 307-6-9.

(10) Petty village works have also been executed by the Central Committee and the Branch Committees of Moonshigunge and Manickgunge out of the allotment for village roads, the details of which are given in the annual accounts.

(11) The road from Rampal to Toongibaree, shewn under works done by the Moonshigunge Branch Committee, calls for special remark. Baboos Deenobundhoo and Kali Kishore Chuckerbutty, of Toongibaree, paid a donation of Rs. 1,000 for this road, out of which Rs. 894-5-6 have been expended during the year, leaving a balance of Rs. 105-10-6. The Chairman of the Moonshigunge Branch Committee, under whose supervision the work was carried out, reports that earth has been thrown on nearly three-fourths of the road, half of which may be held as completed. The work has been done by the donors, who have also applied for a grant from Road Cess Fund to finish the remainder of the road.

6. The Moonshigunge Branch Committee again deserve credit for the way they have done their work. They have spent their money economically and judiciously.

7. The expenditure by the Manickgunge Committee has not been so well looked after, and one road (Gurpara) has been damaged by the rains owing to bad work. The present Chairman is likely to see things done better.

8. The main expense of the Committee this year has again been the dredger, on which a sum of Rs. 53,177-0-6 has been expended, of which Rs. 3,567-14-6 is for salary, Rs. 8,836-11-5 for stores, repairs, &c., and Rs. 40,772-6-7 for moiety cost of the vessel. This last named item is explained fully below.

9. From the accounts formerly received from the Examiner of Public Works Accounts the Committee were under the impression that the total cost of the dredger will not exceed Rs. 70,000, and they therefore paid to the credit of the Department of Public Works during the preceding year 1874-75 Rs. 35,000 as their half share of the expense of the vessel, but this amount was not finally charged in the Executive Engineer's accounts during that year. In the accounts received from the Examiner of Public Works Accounts the total cost of the dredger, including the two mud barges, has been shown to be Rs. 81,544-13-2, and consequently a further sum of Rs. 5,772-6-7, in addition to Rs. 35,000 already paid by the Committee, has been charged by the Executive Engineer in his accounts for this year. Government, however, refused to pay half the cost of the dredger, and a further sum of Rs. 1,404-8-0 is therefore due by the Committee, and will be paid.

10. The dredger has arrived here, but it has not as yet been worked, as the buckets drop the mud inside the well instead of throwing it out through the shoot. This will be put into order as soon as possible. The earth dredged here is either clay or sand, and both these adhere much more to the bucket than the ooze, which is usually dredged at home. I understand that the dredgers in the Hooghly experience exactly the same difficulty, and had this been provided for in the specification, this working season would not have been lost. If any other Committee gets out a dredger, this point should be insisted on.

11. During the whole year the repair works have been managed by the Committee themselves through a sub-overseer acting under their immediate orders, with the exception of the Goalundo and Naraingunge roads, which two, being very important, were left in the charge of the Department of Public Works. The repairs on them as well as the rest of the works have been managed by the Committee's own establishment, consisting of two overseers and temporary surveyors under the supervision of the Executive Engineer.

12. The particulars required in paragraph 10 of the Government Resolution, No. 1286, dated 13th March 1876, in regard to the meetings of the Central and the Branch Committees for the first cess year 1875-76, are exhibited in the statement appended herewith.

13. Works proposed to be undertaken during the current year 1876-77:—

(1) Repairs to the road from Manickgunge to Shealo. The repairs to consist of surface repairs to the whole distance, earthwork in slope, repairs in places in the first three miles, dressing and turfing the above, and petty repairs to bunds, and bamboo piling at the end of the road at Shealo, and to bridges. Outlay sanctioned as per budget estimate is Rs. 1,800.

(2) Repairs to Naraingunge road, including metalling parts of the 3rd and 6th and the whole of the 7th mile, and also to bridges and bamboo spurs at Pagla, for which Rs. 3,000 have been sanctioned.

(3) Surface repairs to the road from Dacca to Toke, and to bridges situated on the line, including jungle-cutting to a breadth of 15 feet on each side from the centre of the road. Outlay passed for this is Rs. 2,872.

(4) Petty repairs to be done to the Bydebazar road, and a bridge on the line to be heightened, for which Rs. 2,500 have been sanctioned.

(5) Annual repairs to be effected to the Moonshigunge-Sreenugger road as far as Singpara, and bamboo bridges constructed thereon. The amount sanctioned is Rs. 2,355.

(6) The Kolatya road to be repaired, and wooden bridges in place of the present bamboo bridges erected thereon. Amount sanctioned, Rs. 1,200.

(7) The road from Palamgunge to Mohiat, as well as from Palamgunge to Nolgunge, to be put into order, for which Rs. 666 have been passed.

(8) The Toonghy iron bridge, which is paid for by Rajah Kali Narain Roi Chowdhuri Bahadoor, is to be put up, for which Rs. 4,000 have been set apart.

(9) The Goalundo line of road from Dacca to Manickgunge will be extended and bridged as far as possible. Amount sanctioned as per budget estimate is Rs. 82,097. This amount, however, will be decreased by Rs. 2,406 for alteration to the dredger, which has been passed by you.

(10) Petty village works will also be undertaken by the Central Committee and the Branch Committees of Moonshigunge and Manickgunge, for which Rs. 6,000 have been allotted.

(11) Dredging operations to be done in the Dallessury, Burigunga, and Gajghata rivers, and also in the Hilsamari and Panya khalls. Two large mud barges suitable for river work have been applied for, for which Rs. 5,000 have been provided for in the budget.

14. All the works proposed will be met from the proceeds of the District Road Fund of the year, which is to be derived from the following sources:—

(1) Cess on lands,	(4) Ferry tolls,
(2) ,, on houses,	(5) One per cent. road cess,
(3) Fines,	(6) Other miscellaneous,

and which is expected to amount to Rs. 1,40,005, including balance of previous year.

RADHASYAM SEN, *Vice-Chairman.*

No. 63C., dated Furreedpore, the 14th November 1876.

From—The Chairman, District Road Cess Committee, Furreedpore,

To—The Commissioner of the Dacca Division.

I HAVE the honor to submit herewith the annual report and accounts of the Furreedpore Road Fund for the year ending 30th September 1876—

		Rs.	A.	P.
1.	The balance of the previous year was	39,224	5	8
	The receipt of the year under review	51,527	12	0
	Total ...	90 752	1	8

2. The expenditure during the year was as follows:—	Rs.	A.	P.
Collection establishment	3,291	4	6
Working ditto	5,398	5	1
Contingencies	2,412	6	6
Repairs	6,718	2	0
Original works	7,184	0	7
Tools and plant.	1,080	11	9
Refunds	282	3	8
Total ...	26,367	2	1

The balance, therefore, at the close of the year was Rs. 64,384-15-7.

3. The regular working establishment has been maintained from January last, since which time they have been busy in levelling, surveying, and making estimates for works. Of these, the estimate and plan of the Ramnuggur khall have been submitted for sanction; those of the Hobra khall are ready. The plan and estimate of the Rajbari road (14 miles), re-excavation of the Marra Pudda (eight miles), and cutting of the Kristopore khall (one mile), are almost ready.

4. *Original works.*—The earth-work of the Huttoria road, a distance of four miles, has been completed; only a few bridges remaining to be done. Another road from Goalundo thana to the railway station, and several minor roads at Baniboho, Hamdampore, feeder roads, &c., have been made.

The Bakhunda khall, joining the Dhole with the Seetal Lakhya, has been deepened in certain places. The expenditure against Rajbari road and Hobra khall refer to the levelling and surveying charges, and for the preliminary steps to acquire lands for the former.

5. *Repairs.*—The Jessore road, a distance of 20 miles, was repaired. The Committee have not determined to renew the large bridges on this road that have gone to ruin, since it ceased to be a Grand Trunk road.

The Pungsa road, starting from Kanyapore to Pungsa, 34 miles, the entire length from Kanyapore to Baliakundi, have been thoroughly repaired, excepting one gap at Hatghat, where a bridge is contemplated. Earth-works on the other portions and repairs of the culverts will be done this year.

The new Tulma road has been thoroughly repaired to Tulma; distance ten miles. It will be extended to Ainpore this year.

Several village roads, of which the Sagaldi and Roopapat roads are important, have been done. The village road from Roopapat to Muxidpore, four miles, was in good order during the rains. The Sagaldi village road has been a failure, as I found that the earth-work was too low for the ordinary level of water in the height of the rains. The earth has in many places been washed away.

6. "Contingencies" include office furniture and boat allowance; hence a large expenditure, as the office was established during the year. Under "Tools and Plant" come instruments obtained for the use of the working establishment.

7. There has been much less work at Madaripore for one reason, because the country is very low and people do not care for roads, and because there was no working staff which could be deputed there; and no plans have yet been drawn up for roads or khalls. This will now be compensated for.

8. The Committee held nine meetings during the year, which were generally well attended. Owing to the District Engineer having been appointed in January, nearly at the end of the working season, and there being no plan or estimate ready, comparatively little could be accomplished during the year under report. The office have been diligently preparing estimates and making surveys, and it is hoped that, if the estimates obtain the necessary sanction soon, a good outturn of work may be accomplished this working season. The plan and estimates of the Ramnuggur khall—a canal which, it is hoped, will connect the Gorai and the Pudma—have received the sanction of the Executive Engineer of the Backergunge division.

No. 102, dated Goalundo, the 31st July 1876.

From—J. POSFORD, Esq., Chairman, Road Committee, Goalundo,
To—The Chairman, District Road Committee, Fureedpore.

IN reply to your memorandum No. 521C., I have the honor to submit the following report concerning what has been done in the way of roads since the last regular report. A few general remarks are given about village roads. They are small works, and it is not easy to describe them intelligibly otherwise. In Goalundo thanadaree two works have been done, viz. (1) chur Pallunda village road, which gives a short cut from the Kata-khal to the new station road. It is about 900 feet long, and its repair was done for Rs. 75. (2) Fooltollah lane, which cost Rs. 100. It is about half a mile long, and gives access to Fooltollah bazar and to people living in the villages north of that place. In Belgachi thanadaree the Rupsa bunds have been repaired at a cost of Rs. 100, and two khalls (Furreed-pore and Senghia khalls) have been dammed up to afford communication among villages on the left bank of the Chandna. They should also be of use in preventing the sudden flooding of those extensive rice lands to the east of the Chandna river. A village road costing Rs. 100 has also been made through Eliskol and other villages opposite Baliakundi.

In Pungsa thanadaree some portion of Jashae village road has been done, the roads leading into Pangsha bazar have been repaired at a cost of Rs. 25, and a road repaired through Baliakundi village at a cost of Rs. 50. The above have all been marked on the map recently returned to you. For several months a road sircar has been employed; his pay is Rs. 30 a month, and is met from the allotment for village roads.

2. Of district roads, I may venture to say good work has been done. Close to Goalundo are the new station road, rather more than a mile in length and 20 feet wide; also the Panchas Hazari road, running from the thana road to the new railway embankment, about 4,600 feet long and 16 feet wide. Both are now found very useful. The one cost Rs. 2,100, the other about Rs. 1,300; but there are some extras in the way of compensation for crops and acquisition of land.

3. The Hamdampore road, from Belgachi thana to the Pattani road, was finally completed and paid for. The Pattani road was partially repaired from the Marra Pudda to Fool-tollah bazar at a cost of Rs. 125.

4. It has been decided to make roads through Baniboho and other villages to fall into the Rajbari feeder road at Sarjankanda. About two miles of road in separate parts have been executed, viz, from Sarjankanda to the Marra Pudda, at a cost of Rs. 450, about three-quarters of a mile long and 16 feet wide, and from Kajibadhar to Faizghattakhal about a mile long and 16 feet wide, at a cost of Rs. 548. On these and the roads near Goalundo the District Engineer's completion certificate is alone wanted to allow of the accounts of the contractors being finally settled.

5. In Pungsa thanadaree I believe the Pungsa-Furreedpore road has been to some extent repaired; but this work has been managed from head-quarters, and I know nothing about it.

6. As to village roads to be done during next year, there is a fine opening for works of this sort in setting to rights the numerous tracks that run from the Pungsa-Furreed-pore road to the Chandna. In Belgachi thanadaree probably the only urgent work is a village road from Ramkanthapore to meet the Kajibadhar road. In Goalundo it will be advisable to continue the chur Pallunda village road to the Telegraph Office and Furreed-pore road. The repair and improvement of Boalia village road, on the bank of the Chandna, is another work that might be done with advantage to numerous villages on the right bank of the Chandna.

7. Of new works, the following appear desirable and likely to be taken up:—A short extension of the Panchas-Hazari road southwards; the heightening of the Furreedpore road southwards for about a mile south of the new railway line; the completion of the roads through Kajibadhar, Mallibhara plain, and Baniboho; the extension of the Hamdampore road northwards to Sripore and southwards to Bagheea; the thorough repair of the Pattani road from the Marra Pudda to Fooltollah; a new road from Rajbari railway station to Godhar bazar; a new road from Belgachi railway station to Khangang, and repairs of the Pattani road in that quarter for about two miles; a road from Pungsa to Bheelchuttra, and a road from Pungsa bazar to Jasha. The first of the above-named works will benefit the chur village south of Goalundo, and all the others will be not only valuable feeders for the railway, but a great convenience to all people throughout the sub-division.

No. 161, dated Madaripore, the 13th October 1876.

From—A. J. FRASER, Esq., Chairman, Branch Road Cess Committee, Madaripore,
To—The Chairman, District Road Cess Committee, Furreedpore.

AGREEABLY to the instruction contained in Government circular No. 50, dated 23rd July 1873, forwarded with your No. 522C., dated 26th July last, I have the honor to submit a report on works of local improvements for the cess year ending 30th September 1876.

2. *Meeting of the Committee.*—The Committee sat four times during the year for the transaction of businesses, and copies of the proceedings were duly forwarded to the District Road Cess Committee.

3. *Attendance of Members*—The number of meetings attended by each member is shown below:—

The Sub-Divisional Officer	Twice
Baboo Ram Gopal Chake	4 times.
„ Anonda Chandra Bose	3 „
„ Mohesh Chundra Sen	Twice.
„ Juggut Chandra Bose	Ditto.
„ Kali Chandra Bose	3 times.
„ Denonath Sen	Once.
„ Kaliprosunno Chowdry	Twice.
Moonshee Baseerudeen Ahmed	Ditto.
Baboo Luchmi Narain Bhuttacharji	Once.

4. The works done by the Road Cess Committee during the year have been already described in detail in the preliminary report submitted with this office No. 129, dated 24th August. Since that date only one application has been received for the repairs of a village road in thana Palony. The application has not been disposed of, pending inquiry as to the necessity of the work and its probable cost.

5. The allotment made to the sub-division for the year 1876-77 have been communicated in the Chairman's memorandum, No. 586C., dated 2nd September last.

6. Of the original works sanctioned, the execution of the Andha beel khall was as nearly completed during the past year; the remaining portion will be completed also on as the water subsides. As requested in your No. 607C., of the 18th ultimo, the canoongoe has been directed to make an estimate and plan

7. For the village roads only one application, as stated above, has come to hand; but there will be several applications made, I believe, during the cold weather.

8. The usual accounts are herewith submitted.

JADUB CHANDRA GOSWAMI,
Vice-Chairman.

No. 36, dated Burrisal, the 9th February 1877.

From—E. J. BARTON, Esq., Chairman, District Road Committee, Backergunge,
To—The Commissioner of the Dacca Division.

WITH reference to letter No. 4952, dated the 24th September 1872, from the Secretary to the Government of Bengal, Public Works Department, I have the honor to submit herewith the annual account of receipts and expenditure of the Road Fund of this district for the cess year ending with the 30th September 1876. I beg also to submit the following report on the administration of the Fund, as required in circular No. 50, of the 23rd July 1873, from the Government of Bengal in the Public Works Department.

2. By orders of the Government of Bengal, published in the *Calcutta Gazette* of the 7th October 1874, the Road Cess Act came into operation in this district in November of that year; but owing to the vast numbers of tenures and under-tenures which prevail here, the valuation of the district has not yet been completed. As a consequence, no cess was, or could be, levied during the year under review.

3. At the end of the year 1874-75 there was a balance in favour of the Fund of Rs. 5,253-13-8, and the receipts of the year amounted to Rs. 27,639-8-5. Thus the available fund for the year amounted to Rs. 32,893-6-1. This amount included the grant-in-aid of Rs. 10,000 received from Government. Under orders of the Government of Bengal a grant of Rs. 20,000 was originally assigned to this district for local improvements, (*vide* notification, Government of Bengal, Public Works Department, No. 364, dated 20th July 1875,) but by a subsequent order Rs. 10,000 was withdrawn (*vide* Government Proceedings No. 1725, dated 8th April 1876, Public Works Department). Of this available amount Rs. 21,355-10-8, or three-fifths, was expended on the heavy establishment of the Road Cess office, as detailed in Part II of the accompanying account, and Rs. 1,827 in the payment of the working establishment under the Committee: of the remaining Rs. 9,710 11-5, Rs. 7,107-1-1 was utilized by the Committee for necessary repairs of the most important existing roads, and for the original works that were taken in hand last year, viz. Rs. 3,248-13-3 for original works, and Rs. 3,858-3-10 for repairs. Of this sum Rs. 2,830-13-8 was spent by the Public Works Department.

4. The original work of first importance in the district is the construction of the Gournadi (*alias* Madaripore) road. This road extends from Burrisal to Gournadi, a distance of 21 miles. The first four miles of its length, *i.e.* from Burrisal to Lakhutiya (commonly called the Lakhutiya road), were completed many years ago by the enterprise of a private gentleman, the late Baboo Raj Chundra Roy, zemindar of Lakhutiya. The Madaripore road is an extension of this road. It was originally proposed to construct this road from Lakhutiya to Madaripore, but since the transfer of that sub-division to the district of Furreedpore, the idea of completing the whole length from the funds of the district has been given up, and the construction of so much of it as lies in the jurisdiction of this district is the aim of this Committee. This road, as it now stands, extends from Lakhutiya to Gournadi, a distance of 17 miles. Up to last year, 12 miles of its length, *i.e.* up to Batajar bazar, were completed, at a cost of Rs 11,869-9-1, and in the year under review, a distance of two miles, extending from Batajar to Harisena, was partially completed. The remaining two miles, extending from Harisena to Gournadi, are untouched. From Burrisal to Batajar (17 miles) there are six masonry bridges of about 12 feet span, and 14 wooden rustic bridges averaging 30 feet span. The road is 15 feet wide and unmetalled.

WORKS DONE DURING THE YEAR.—ORIGINAL WORKS.

1.—*Sudder sub-division.*—Madaripore road. Earth-work on the portion from Batajar to Harisena, a distance of two miles, was partially done, and five wooden rustic bridges constructed at a cost of Rs. 820-7-3

2.—*Perozepore sub-division.*—Construction of a jetty on the Damoodar river. Rs 175 was spent upon this work this year. It will be completed during 1876-77.

3.—Metalling of the roads in the head-quarters of the sub-division. This has been completed at a cost of Rs. 1,314, a little more than the amount estimated for.

4.—*Dukhin Shahbazpore sub-division.*—Road from outpost Tazumuddin to station Barhanuddin. Earth-work only was done on this road at a cost of Rs. 708.

5.—*Patuakhali sub-division.*—Kalikapore road: cost, Rs. 231-6.

REPAIRS.

6.—*Sudder sub-division.*—Jhalokati road. Four bunds protecting the road were repaired; earth-work to the approaches of the Pratap bridge and of culvert No. 10 was done. Bridge No. 1 and culvert No. 2 were repaired, and the culvert at the end of the road was finished. Expenditure, Rs. 701-12-8.

7.—Amanatgunge road. The whole length of this road (two and a half miles) was repaired. One large wooden rustic bridge, of 80 feet in length, was repaired and culvert No. 4 was completed. The total cost on these works amounted to Rs. 926-2-1.

8.—Madaripore road. The first eight miles of this road were repaired at a cost of Rs 517-7-6. The repairs on these roads consisted in surface dressing, petty repairs to earth-work, and jungle-cutting.

9.—*Perozepore sub-division.*—Road and bridges at the head-quarters of the sub-division: cost, Rs. 208-14.

10.—Rayerkati road: cost, Rs. 250.

11.—*Dukhin Shahbazpore sub-division.*—Repairing and metalling the town roads: cost, Rs 222-5.

12.—Dowlutkhan to Bhola road: cost, Rs. 208-5-9.

13.—*Patuakhali sub-division.*—Town roads: cost, Rs. 373-5-9.

14.—Mirzagunge road: cost, Rs 275-7.

5. The works executed under the supervision of the sub-divisional officers are of very small extent. It is not therefore necessary to give a description of them here, but I may add that the sub-divisional officers exercised due care and attention in expending the money entrusted to their care.

6. As will be seen, the fund at the disposal of the Committee, after deduction of the expenditure in the heavy Road Cess office, was very limited. As a consequence, the progress and extent of local works were small. Many of the works which it was originally proposed to finish this year have been left unfinished. The Government order alluded to before, curtailing the assignment of this district from Rs. 20,000 to Rs. 10,000, placed the Committee under a great difficulty. They had pledged themselves to expenses which were irrevocable, and works were undertaken which could not be stopped without heavy loss to the District Fund. To remove this difficulty, the Committee, in their letter No. 17, dated 30th November 1875, applied to Government for a loan of Rs. 35,000, to be paid from the first year's collection of the cess; but the Government, much to their regret, refused to grant it (*vide* Government letter No. 19, dated 4th January 1876).

7. Under the provisions of section 68 of the Road Cess Act, a supplementary list of works was forwarded to you with this office No. 145, of the 7th September last. As many of these works have not as yet been surveyed, and their measurements made, some of the descriptive columns are left blank.

8. The Road Cess Committee of this district consist of 23 members, of whom four are official and 19 non-official. As the Committee during the year had very small funds at their disposal, and as there were no matters of importance to deliberate upon, they met only once. The object of this meeting was to consider the budget estimate for 1876-77 and the supplementary list of works prepared under the provisions of section 68 of the Act. There were no Branch Committees in the district during the year. The formation of these Committees is under consideration, and a list of the members will be submitted to you this month for your approval and sanction.

8. There is no separate establishment for the Committee to carry on correspondence and keep the accounts prescribed by Government. The duty is performed by the Road Cess head clerk under my direction.

10. The following works are proposed in the budget estimates for the year 1876-77:—

ORIGINAL WORKS.—ROADS AND BRIDGES.

1.—*Gournadi road.*—Four and a half miles of this road to be completed.

2.—*Backergunge road.*—From Rupatali to Backergunge, a distance of ten miles. Project is under preparation.

3.—*Basanda road.*—It was taken in hand, and an expenditure of Rs. 1,000 was incurred; but it was stopped for want of funds.

4.—Two bridges on the Jhalokati road to be renewed. Project is under preparation.

5.—Sixteen wooden rustic bridges on the Dowlutkhan road, of an average span of 35 feet, with a roadway of five feet. The estimate is ready, and the work will be taken in hand when our funds are sufficient.

RIVERS AND CANALS

6.—*Kumarkhali khall.*—It extends from Nulchitti river to Biskhali Don. Length, six miles. This khall to be deepened. Project is under preparation.

7.—*Taltali khall.*—It extends from Burrisal river at Amanathgunge to Burrisal river at Taltali. Length, three miles. To be deepened. Project is under preparation.

8.—*Ponabaliya khall.*—Project is under preparation.

9.—*Nulchitti Bharani khall.*—Extending from Nulchitti river at Nulchitti to Biskhali Don, six miles. To be deepened. Project is under preparation.

REPAIRS.—ROADS AND BRIDGES.

10.—*Gournadi road.*—Seventeen miles to be repaired. Repairs consisting of petty repairs to the earth-work, jungle-cutting, and renewing 14 wooden rustic bridges.

11.—*Jhalokati road.*—Extending from Sagardi to Jhalokati, a distance of 10·75 miles. It has 16 masonry bridges and culverts. Repairs to earth-work, jungle-cutting, surface dressing, and repairs to bridges and culverts, are to be made.

12.—*Madhabpasa road.*—Extending from Burrisal to Madhabpasa. Length, seven miles. It has six masonry bridges and culverts and seven wooden bridges.

13.—*Nulchitti road.*—Extends from Rupatali to Nulchitti. Distance, four and a half miles. It has two masonry bridges and culverts and five wooden bridges.

14.—*Dabdabya road.*—From Rupatali to Dabdabya, a distance of three miles. It has four wooden bridges.

15.—*Mukherji's road.*—Extending from Lakhutya to Madhabpasa. Distance, one and a half miles. It has two wooden bridges.

16.—*Amanathgunge road.*—Extending from Burrisal to Taltali or Saistabad ferry ghât. Distance, two and a half miles; having five masonry bridges and culverts and one wooden rustic bridge.

17.—*Dowlutkhan road.*—Nine and a half miles in length.

18.—Petty works in the sub-division of Perozepore.

19.— Ditto ditto of Dowlutkhan.

20.— Ditto ditto of Patuakhali.

11. As these works cannot be taken in hand until after a professional survey is made and measurements taken, and regular plans and estimates are framed and sanctioned by Government, it will be some months before we can begin actual work. As, however, the working season has far advanced, I do not think the Committee will be in a position to begin any work except repairs during the year. This is a large and a wealthy district, and we estimate that the road cess will yield a yearly income of about Rs. 1,50,000. It is, therefore, in my opinion, much to be desired that, in order to secure the proper execution and supervision of all our local works, the status of the district should be raised from class II to class I. To this matter I solicit your special attention.

E. J. BARTON,
Chairman.

No. 161R., dated Mymensingh, the 31st January 1877.

From—R. H. PAWSEY, Esq., Chairman of the Road Cess Committee, Mymensingh,
To—The Commissioner of the Dacca Division.

I HAVE the honor to forward herewith statement No. III as described in the orders of Government, No. 4952, dated 24th September 1872, and as provided for in section 89, Act X, 1871. The period embraced by the accounts is the year terminating with 30th September 1876, and the delay beyond due date in the submission of the statement is owing to the meeting of the Committee, called for 13th instant for passing the accounts, having to be adjourned until this day in default of a quorum. The year under review was the first during which the cess has been collected in this district.

2. Four meetings only of the Committee were held during the year, but these meetings represent but a very small portion of the time that is devoted to road cess work by the Chairman, Vice-Chairman, and many of the members.

3. The accounts (see form No. 6, Part II) sent herewith give details of receipt and of expenditure on each item of work, and I have to add to the accounts the following report.

4. The actual receipts from the cess and other sources amounted to Rs. 1,45,721, the anticipated receipts as per budget submitted to you on 13th September 1875 having been put at Rs. 1,55,517.

5. The cess for the year was collected at full rates, but these were not resolved on without some discussion, the members generally being of opinion that no collection in excess of what could be expended advantageously during the year should be made. On this point, however, the estimates which had been drawn up proved satisfactory to the Committee.

6. The balance-sheet is prepared according to the form prescribed by the Public Works Department, and before remarking on the items of expenditure on works, I would point out that Rs. 32,000 were devoted to the repayment in part to Government of the loan adverted to in paragraph 2 of my report, No. 589, dated 5th January 1876. Rs. 10,000 were also paid towards the expenses of Government on the staff of the Department of Public Works employed on road works during the year 1874-75; beyond these the establishment for the collection of the cess cost Rs. 9,500 odd. The working establishment (including the salary of the District Engineer for a portion of the year only) draw Rs. 5,250. Taking off the amount of unadjusted advances at the close of the cess year, the amount expended actually upon works amounted to Rs. 65,818 odd.

7. In the expenditure of these funds, the Committee have steadily pursued the system they have adopted from the time of their formation. The old roads are kept in repair and metalled, where there is a press of traffic, as funds admit. Bridges of timber on these roads are gradually being exchanged for masonry bridges. The new lines of road provided for in statement I, submitted in December 1872, are being undertaken by degrees, and temporary structures of timber are supplied to keep the roads passable for wheeled traffic until they can be bridged. Village roads are repaired and extended in the neighbourhood of the main lines and of rivers.

8. From the number of works included in statement I of December 1872, and the supplementary statement I submitted on 7th May last, it will be seen that the more obvious and crying wants in the way of communication by land have been looked to, and that the simple works of raised roads will be sufficient to employ the funds of the Committee for some years to come. In spite of occasional agitation on the subject, the Committee have determined to attempt no great work of excavation demanding an uncertain expenditure, and uncertain in its fruits, until the results of the work of dredging in the rivers of Dacca are known.

9. The original works in progress during the year were those briefly detailed in the list submitted with this office letter No. 589, dated 5th January 1876, and on which the estimated expenditure had been proposed on 13th September previously. The works were the same as those noticed by you as being in progress during the year 1874-75, with the addition of the road from Modhupore to Tangail, for which the sum of Rs. 25,000 was provided in the estimates, but on which Rs. 17,350 only was expended during the year under review (*see* paragraphs 17 and 18 of your report, No. 635R., dated 8th February last).

10. The next greatest expenditure has been in the way of repairs. The roads on which money was expended have been placed in repair for the dry season; but as none of them have up to date been metalled, some expenditure is required annually, at the close of the rains, on each. I should add that there are still remaining roads (which in some places have dwindled to mere tracks) which, though not encroached on by cultivators, require repairs, amounting to almost entire renewal, before they are brought to the condition they were, or were intended to be placed in when originally constructed.

11. The applications from local residents for village roads have been so numerous that it has been impossible to comply with all; the funds available for these works being limited in consequence of other more pressing wants. More of these small cost roads are, however, being taken in hand during the present year.

12. The expenditure on the working establishment during the year was considerably below what was provided in the estimate; but since the close of the year a demand has been made on the part of Government for payment for the services of the staff of the Department of Public Works employed until the District Engineer took charge of his duties in March last. The District Engineer took charge of his duties from the Executive Engineer, Public Works Department, but the latter official did not make over plans and estimates of original works then under preparation.

13. I take this opportunity of bringing to your notice the apparent necessity for revising the rules laid down by Government in circular No. 173, dated 7th May 1872, and on subsequent occasions. This district (as are also perhaps others) has hitherto been totally unprovided with made roads, not because the nature of the country forbids their existence, but from its being distant in situation and with a purely agricultural population, blessed some four months of the year with natural water highways. The grant of funds by Government for road-making was always most moderate. The cess has now provided a fund not more than sufficient, but still considerably greater than in many districts where the communications by land are in a very different state.

14. In utilizing these funds some of the standing rules have been violated, and it would seem that, unless some alteration in them is made, they are likely to be violated in future also by all the officials concerned. If no work is done until every preliminary rule has been observed, there will be a total stoppage of work.

15. For instance, rule 5 of circular No. 173, quoted above, points out the duty of the Superintending Engineer in regularly visiting at least once in the year all works. In this district the Superintending Engineer has not yet seen any work, either original or repair, undertaken since 1873, or since then either in progress or contemplation. It seems absolutely necessary that the official who has to give his professional opinion on projects before they are undertaken should have some acquaintance with the surface of the country. The effect of this want of knowledge is that when plans and estimates for a road with a petty temporary wooden bridge over a khall are submitted they are returned with the direction to employ a staff during the rainy season in ascertaining the height of floods for miles round, and the velocity of current in a khall which is actually stagnant or nearly so. These inquiries occupy much time, and if the Engineer spent a single half hour in riding over the road, he would himself be satisfied, from the conformation of the country, that the inquiries are in such cases unnecessary.

16. The difficulty in the way of carrying on pressing works has been recently still further enhanced. It has been ordered that no road is to be widened without plans and estimates being prepared and submitted as in the case of a new work. To carry out such an arrangement, the entire income of the Committee will have to be spent in establishment of surveyors. To prepare the information required for two new lines of road only, an Executive Engineer, Assistant Engineer, overseer, and draughtsman, have been employed for some two years. How much more labour is necessary if every existing road that requires widening and raising must be submitted with every detail to the central authority in Calcutta.

17. If you also are of opinion that the rules referred to require revision to become practicable in working, I would venture to ask that you will propose some alterations. Hitherto original works known to be of pressing need have been commenced without being submitted to Government, and, as in paragraphs 17 and 18 of your No 653R., dated 8th February last, approval has been given to the carrying on of such works in an informal manner, and to the expenditure of these funds by the Committee in accordance with estimates previously submitted.

R. H. PAWSEY,
Chairman, Road Cess Committee, Mymensingh District.

No. 293 R., dated Camp Chandpur, the 9th December 1876.

From—N. S. ALEXANDER, Esq., Chairman of the District Road Cess Committee, Tipperah,

To—The Commissioner of the Dacca Division.

I HAVE the honor to submit the annual report on the administration of the Road Cess Department for the year 1875-76, as also the accounts which have been scrutinized and audited by a Sub-Committee of three members, as required by section 88 of the Road Cess Act.

2. The Act came into actual operation in this district on 1st October 1874. This report is therefore for the second year the Act has been in force.

3. The Committee consists of six official and 12 non-official members. During the year under report the following gentlemen were members:—

Members.

1. The Magistrate and Collector of Tipperah, *Chairman* ...
2. The Senior Covenanted Assistant to the Magistrate and Collector. } *ex officio.*
3. Mr. Robert Carstairs.
4. The Executive Engineer of Dacca ... ...
5. The Deputy Collector in charge of Road Cess .. ... } *Ditto.*
6. The District Superintendent of Police ... ...
7. Mr. E. DeLauney.
8. „ H. L. Weathrall.
9. Baboo Shib Churn Aich.
10. „ Ramdolal Roy.
11. „ Nilmony Doss.
12. „ Umalochun Mozumdar.
13. „ Harish Chundra Bose.
14. „ Nobeen Chundra Sein.
15. „ Krishna Lall Nag
16. „ Kali Krishna Chowdhury.
17. Mahomed Gazi Chowdury.
18. Munshee Ali Karim.

The changes in the Committee during the year were—

Mr. Robert Carstairs, who was appointed in place of Mr. Thomas Smith, left the district

Baboo Nobeen Chundra Sein, in place of Mr. J. P. DeLauney. who left the district.

Moonshee Ali Karim, *vice* Mr. Hume Smith, who left the district.

Baboo Kali Krishna Roy Chowdhury, *vice* Aftabuddin Mahomed.

„ Krishna Lall Nag, *vice* Eshan Chundra Roy.

Amiruddin Mahomed, *alias* Moonshee Lall Meah (deceased).

4. Seven meetings of the District Committee were held during the year, six members being required to form a quorum. Once a quorum was not obtained, and no meeting could be held. Most of the members showed a fair interest in the proceedings. Among the most active members were Messrs. H. Smith, H. L. Weathrall, George Ridsdale, E. DeLauney, and Baboos Nilmoney Doss and Ramdolal Roy. The non-official members who attended most meetings were Messrs. E. DeLauney and Baboo Ramdolal Roy, who attended at five and six meetings respectively. Only two members attended no meetings at all; these were Baboos Krishna Lall Nag and Umalochun Mozumdar. The former left the

district during the year under report, and the latter prefers to attend the meetings of the Muradnagar Branch Committee, of which he is also a member. The Chairman, Vice-Chairman, and Road Cess Deputy Collector, attended the whole of the seven meetings.

5. The total income for the year 1875-76 from the assessment on lands and houses amounted to Rs. 1,35,651-10. This included the balance of Rs. 38,012-6, carried over from 1874-75. The total outlay during the year amounted to Rs. 1,02,014-5-1, leaving a balance in hand of Rs. 33,637-4-11.

6. *Original works.*—One of the chief was the *Brahmunberiah road.* Unfortunately, during the two past years we have had unprecedentedly high floods: each year, in 1875 and in 1876, great damage has been done to the earth-work of this road by the floods; the new earth is of course not sufficiently firm to stand the effects of such floods as we have had in August 1876. The flood water topped the newly-constructed road, doing a good deal of damage. This has much delayed the finishing of this road during the past year. There was an expenditure of Rs. 7,000 on earth-work from Nayanpore to Brahmunberiah, 22 miles, and Rs. 1,376-13-3 on the part between Nayanpore and Comillah, 16 miles; for construction of bridges on the same road, Rs. 10,561-0 9 In my last year's report, paragraph 8, I pointed out how this road is intersected at every half mile or so by hill-streams, and the necessity therefore of frequent bridges, which renders the work on the road so much more costly than ordinary. This road will be completed this year, and will establish easy communication between the sudder station of Comillah and the sub-division of Brahmunberiah, if we can only get one year's immunity from floods to allow the earth-work time to consolidate a *little.*

The *Kali bazar hill road,* also an original work, on which was expended the sum of Rs. 2,818-14-9 This road is cut through the Lalmye Range of hills, and when completed will open up communication with the centre and south-west of the district; this road will be continued on to Dollye on the west and Kudbah on the south, and thus open up communication in a part of the district hitherto roadless. The work was of a somewhat difficult nature, the gradients of ascent and descent requiring some engineering skill in construction. The total sum expended by the Sudder Committee on original works was Rs. 60,436-15-5. This includes the building of some inspection bungalows and construction of village roads (for which see paragraph 9).

7. The amount expended on maintenance and repairs was Rs. 9,129. The chief repairs were to the various district roads, a small sum only being expended on repair to the Comillah Road Cess office bungalow.

8. Rs. 1,439-2-3 were expended on the Chandpore canal noticed in paragraph 8 (E) of last year's report. This canal connects the Megna with the Dacaitea, and saves boats a weary long round and the dangers of the big river north of Dukhin Shahbazpore and Hatya. In the rains boats get to Noakhally in safety. If this channel were closed, the voyage would have to be made down the Big Megna and *vid* the wide channel between Noakhally and the islands of Shahbazpore, Hatya, and Sundeep. It is a great object, therefore, to keep the channel open and navigable for the largest boats.

9. *Village roads.*—A large amount, viz. Rs. 30,333, was expended on these roads and khalls, 120 in number, in the following proportions:—

				Rs.	A.	P.	
Sudder or the District Committee			...	16,108	11	0	36 roads. 4 water-courses.
Brahmunberiah Branch		ditto	...	5,087	7	6	10 ditto. 29 roads.
Chowdagram	ditto	ditto	...	3,580	0	0	18 „
Muradnagar	ditto	ditto	...	3,376	13	6	8 „ 9 water-channels and some temporary bridges.
Nursingpore	ditto	ditto	...	2,180	0	0	3 water-channels. 8 roads.
		Total	...	30,333	0	0	120 roads and water-channels.

It is found that members of the various Committees and the people of the district generally take more interest in this class of works than in any other. It renders more tangible to them that the money raised in the district is being expended for their benefit and on local objects. The amount expended by Branch Committees was double what it was in 1874-75, and I believe this shows the increasing popularity and demand for such works. In a district like this, which was almost devoid of roads between one village and another, these small roads are of great importance as aiding to establish more general intercommunication, connecting remote villages with main roads and the larger marts, and with also the various waterways and village hâts or markets. These works include the bridging of khalls, opening water-channels, and other petty works under Rs. 500 cost each.

10. The establishment consists of an Engineer, Baboo Khettra Nath Bhuttacharjia, formerly in the Public Works Department, and a staff of overseers and sub-overseers. The Engineer is well paid, his salary and allowances amounting to Rs. 7,800. The amount of work to be done and the income of the department warrant our having a well-paid officer, as our Engineer.

11. The Vice-Chairman's office was held first by Mr. Manson, and afterwards by Mr. Carstairs, both of whom performed the duties of the office to the entire satisfaction of the Committee.

12. The Branch Committees of Brahmunberiah, Muradnagur, Chowdagram, and Nursingpore, all worked well, and credit is due to their Chairmen, especially to the moonsifs of Chowdagram, Muradnagur, and Nursingpore, who perform their duties as Chairmen so satisfactorily, in addition to the heavy work they are called upon to do as moonsifs; and the office of a moonsif in this district is by no means a sinecure.

13. I submit a copy of the statement of progress on the various works submitted to me by the District Engineer.

14. The estimates for the various works to be undertaken in the ensuing cess year 1876-77, and for the various establishments, have already been submitted to you and obtained your approval,* but I give them appended in a concise form.

* In letter No. 367R., dated 5th September 1876.

SHAM LALL HALDAR,
Chairman of the Branch Road Cess Committee, Chowdagram.

No. 757R., dated Dacca, the 23rd March 1877.

From—F. B. PEACOCK, ESQ., Offg. Commissioner of the Dacca Division,
To—The Secretary to the Government of Bengal, Public Works Department.

WITH reference to your circular No. 51, dated 8th August 1874, I have the honor to submit herewith the annual accounts and reports of the several District Road Cess Committees* of this division for the cess year (1875-76) ending with 30th September last.

* ( ) Dacca. (3) Backergunge.
(2) Furreedpore. (4) Mymensingh.
(5) Tipperah.

2. In all the districts of this division, except Backergunge, road cess on lands and houses is being levied, and hence the funds available for expenditure on the roads and canals of those districts were mainly derived from the proceeds of this cess and of ferry tolls. In Backergunge, where the valuations of lands and houses under the Road Cess Act have not as yet been completed, tolls on ferries, fines under Road Cess Act, and the grant from Provincial Fund, made up the amount for expenditure during the year of report.

3. Subjoined is a brief statement which shews the financial condition of each district during the past cess year.

† Deficit balance.

4 Every district had ample funds for its requirements during the year, and I will now notice in the following paragraphs how these have been expended, and with what advantage to the people from whom the road cess has been levied.

5. *Dacca.*—In Dacca the total amount available for expenditure amounted, as per details given on the margin, to Rs. 1,39,391-13 Of this sum

	Rs. A. P.
Collections under the Road Cess Act	89,169 5 6

,,	94 9 6	ditto	ditto	refunds;
Total ...	83,354 2 8			

leaving a balance of Rs. 56,037-10-4 at the close of the year.

6. Under the head of "Original Works," for which a sum of Rs. 7,681-4-10 is shewn to have been expended, are comprised the construction of some bridges on the Goalundo road between Manickgunge and Shealo, the making of village roads, and the execution of some other petty works; while the heading "Repairs," in which Rs. 13,318 12-9 are shewn to have been expended, includes all works done on existing roads, canals, or bridges. In fact, all works not involving the use of steam-dredger, that were proposed to be undertaken‡ during the past year, have been executed, except that portion of the Goalundo road which lies between Dacca and Manickgunge, the plans and estimates of which are awaiting Government orders since July last, notwithstanding repeated reminders§ and telegrams sent on the subject. This accounts for the large cash balance of Rs. 56,037-10-4, which sum was kept unexpended in order that this work might be taken up as soon as Government sanction was received. Unfortunately no sanction has as yet been received, and another working season has slipped away without this most important work being at all advanced. The Committee have also been unable to carry out the dredging work proposed in the last report, as the steam-dredger, which arrived in August last, was found to be defective in construction to an extent which rendered her unworkable.

‡ *Vide* paragraph 8 of this office No. 653R., dated 8th February 1876.

§ No. 333R., dated 23rd August 1876.
,, 504R., ,, 6th November ,,
,, 609R., ,, 22nd December ,,

7. The large amount of Rs. 53,200-4-6 shown under the head of tools and plant represents the moiety of the total cost of the steam-dredger, price of stores, and charges for establishment, &c.

8. The following are the works proposed to be undertaken during the current year 1876-77:—

(1) Construction of that part of the Goalundo road which lies between Dacca and Manickgunge, No. 12;

(2) Ditto of Tonghy iron bridge on the road to Mymensingh, No. 2;

(3) Repairs of the road from Manickgunge to Shealo, No. 5;
(4) Ditto Narraingunge road, No. 1;
(5) Ditto Mymensingh road, No. 2;
(6) Ditto Bydebazar road, No. 1;
(7) Ditto Sreenuggur road, No. 4;
(8) Ditto Kolatya road, No. 7;
(9) Repairs of several village roads, &c.;
(10) Dredging operations in the rivers Dallessery, Borigunga, Gajghata, and also in the Hilsamari and Punya khalls,

at an aggregate cost of Rs. 1,06,090.

9. *Furreedpore.*—In Furreedpore the receipts, including the cash balance of the preceding year, amounted to Rs. 90,752-1-8, and the expenditure therefrom has been as follows:—

	Rs.	A.	P.
Collections under Road Cess Act ...	48,804	12	10
Other cesses ...	1,505	9	6
Ferry tolls ...	826	15	6
Miscellaneous ...	390	6	2
Cash balance of 1874-75	39,224	5	8
Total ...	90,752	1	8

	Rs.	A.	P.
Office establishments and contingencies for collections, &c. ...	4,749	5	0
District engineering establishment and contingencies	6,352	11	1
Original works	7,184	0	7
Repairs	6,718	2	0
Refunds	282	3	8
Tools and plant	1,080	11	9
Total ...	26,367	2	1

leaving a large cash balance of Rs. 64,584-15-7 unexpended at the close of the year. This the Chairman of the District Road Cess Committee explains was due to the fact that there was no District Engineer until the middle* of the working season, and consequently but little could be done. The non-completion of the plan and estimate of the Rajbari road and of the Hobra khall, proposed to be undertaken within the year, may also be urged as some excuse for this; but at the same time I do not feel satisfied that some portion at least of the balance could not, had more energy been displayed, have been spent in village roads and canals, which afford ample scope for a useful expenditure of money all over the district.

* District Engineer was appointed under Government order No. 591, dated 17th December 1875, and he joined his appointment in January 1876.

10. None of the original works, except two or three petty ones, proposed in the last report to be undertaken during the year, have been executed or even commenced. The sum of Rs. 7,184-0-7, shewn to have been spent in "Original Works," has been principally expended in the Goalundo sub-division in making some railway feeder roads.† The principal roads of the district have been put in proper repair, and Rs. 6,718-2 have been well spent on them.

† Entered in the revised budget estimate submitted with this office No. 29R., dated 19th April 1876.

11. Besides the District Road Cess Committee at Furreedpore, which met nine times, there are two Branch Committees—one at Madaripore and another at Goalundo: the former had four and the latter six sittings during the year. Considering the means at its disposal, the Committee at Goalundo has worked most energetically and successfully, the one at Madaripore having done the least. During the last two years it has been unable to spend even a thousand rupees in the entire sub-division of Madaripore, although its ordinary requirements demanded an outlay of many times that amount. The Chairman's remarks in paragraph 7 of his report, dated the 14th November 1874, hereto appended, to the effect that the people of the sub-division of Madaripore do not care for roads, is not borne out by the real state of things, for on a visit which I recently paid to one of the five thanas of the sub-division, I received several petitions from the inhabitants for roads. To show, too, that they were quite willing to contribute towards the cost of what they so much desired, I may mention that one native gentleman offered Rs. 5,000 for a road from his village to the police station, while another, in begging for a road to connect his village with a daily market, offered to contribute largely towards its cost if the Committee would only undertake it. This, I am glad to say, has since been taken in hand.

12. In February 1876 the small outturn of work in the sub-division of Madaripore was particularly noticed and pointed out to the Chairman of the District Road Cess Committee, his attention being called to the Government circular No. 32, of the 27th September 1873, and the Government proclamation notifying the rates of road cess for 1873-74, which enjoined that every effort should be made to see that "all local claims are freely met, and that every tax-payer derives a fair benefit from the tax which he pays." He will be again shortly addressed on the subject, and I trust that the current year will show a much more satisfactory outturn of work than the past.

13. The following works are proposed to be undertaken during the current year in addition to the repairs of the existing roads and petty village works:—

	No.

at an aggregate cost of Rs. 1,04,000.

14. Some of these works are large and will not be completed, even if undertaken, during the year, as the plans and estimate of none of the works, except those of Rajbari road and of Ramnugger and Kistopore khalls, have as yet been received. The Chairman's attention has been called to this, and he has been desired to push on this work as much as possible, and to see at all events that there is no avoidable delay in his office.

15. *Backergunge.*—In Backergunge the total receipts amounted to Rs. 32,893-6-1, as per details given on the margin; nearly two-thirds of which were spent on office establishment and contingencies to complete the valuations of the numerous estates and under-tenures of the district. The remainder was spent on original works and repairs, leaving a balance of Rs. 2,603-10-4 at the close of the year.

* In Government notification No. 364, dated 20th July 1875, an allotment of Rs. 20,000 was made from the Provincial Reserve Fund, but subsequently half of the amount was withdrawn under order No. 1725, dated 8th April 1876.

16. With the means at the disposal of the District Road Cess Committee nothing more could be expected. They had to meet only once during the year to consider the budget estimate of works to be undertaken in the current year, there having been no other matters for deliberation.

17. Under the orders of Government No. 2230, dated 29th August last, to the address of the Board of Revenue, road cess commenced to be levied from 1st October. The receipts are estimated to amount to nearly one and a half lakhs.

The following original works, in addition to repairs of existing roads and bridges, have been proposed for the current year:—

(1)	Gournadi road	No. 6.
(2)	Backergunge road	„ 7.
(3)	Basunda road	„ 8.
(4)	Two bridges on the Jhallokati road	„ 1.
(5)	Kumarkhali khall	Not numbered yet. The list is under revision.
(6)	Taltollah „	
(7)	Punabalya „	
(8)	Nulchitti Bharani khall ...	

18. Beyond repairs to existing roads and bridges, and the execution of some petty original works, nothing more can be expected within the present year, as the working season is now so far advanced and a proper working establishment has still to be organized. A separate application will be made on the subject mooted in paragraph 11 of the Chairman's report of the 9th February 1877, hereto appended.

19. *Mymensingh.*—In Mymensingh the receipts amounted to Rs. 1,45,721-3-3, from which the deficit balance of last year, amounting to Rs. 48,243-0-3, being deducted, there remained Rs. 97,478-3-0 available for expenditure during the year.

The subjoined memorandum shews how this sum was laid out:—

Rs.	A.	P.	
9,503	3	7	on account of office establishment and contingencies;
15,253	12	6	on account of engineering establishment, and payment to Government on account of services rendered by Public Works Department officers;

2,651	7	9	ditto of tools and plant;
90,575	8	8	Total ...

leaving a balance of Rs. 6,902-10-4 at the close of the year.

20. A large amount of work has been done both under the head of "Original Works" and "Repairs," but none of the works executed or undertaken had been formally sanctioned, nor have plans and estimates of any of the original works as yet been received in my office. The Chairman of the Road Cess Committee having been called upon to explain this disregard of standing rules, refers to paragraphs 13 to 17 of his report herewith submitted, and adds that the inclusion of the works in the budgets of the last year submitted by this office to Government was considered as conveying sanction to their execution. In this he is certainly wrong; and however strong may be the arguments advanced in the paragraphs of his report above referred to, it is clear that existing rules, until can-

celled or modified, must be strictly adhered to. To this subject I shall revert at the close of this report. I would merely add here, with reference to what the Chairman says in the 17th paragraph of his report, that he appears to be altogether under a misapprehension. There is nothing in paragraphs 17 and 18 of my predecessor's report, No. 653R., dated 8th February last, which approves of works being carried on in an informal manner.

21. The expenditure on village roads in the sudder sub-division has been very small, being only Rs. 55-14 against Rs. 1,000 budgeted; while in the sub-division of Atia and Jamalpore the expenditure has been nearly double the amount allotted, and in Kishengunge sub-division the allotment has been exceeded by Rs. 120. The Chairman has been requested to explain these.

22. The works proposed to be undertaken during the current year are as follow :—

		No.
(1)	Road from Ramgopalpore to Eshwargunge	12
(2)	Ditto Shambhoogunge to Doorgapore	10
(3)	Ditto Mudhoopore to Tangail	11
(4)	Timber bridges on the Subankhally road	1
(5)	Repairs to existing roads	

at an aggregate cost of Rs. 55,230.

23. *Tipperah.*—In Tipperah the amount available for expenditure during the year was Rs. 1,35,651-10-0, of which—

,,	2,061	5	6	ditto refunds.
Total ...	1,02,015	5	1	have been expended, leaving a balance of Rs. 33,687-4-11 at the close of the year.

24. The Chairman's report, with enclosures herewith submitted, give full details of the works executed, and I have nothing to add to it beyond expressing my approbation of the energy, zeal, and discretion with which the works have been carried out. I notice prominently that out of the sum of Rs. 60,436-15-5, shown under the head of "Original Works," upwards of Rs. 30,000 have been spent in village roads, which must have gone far towards convincing the rural population that the road cess levied from them was meant to be expended for their benefit.

25. The engineering establishment, it seems to me, is rather larger and more costly than it need be, and is possibly susceptible of some reduction. The Chairman will be addressed on the subject. Petty works may frequently be carried on without much professional supervision, as the villagers for whose benefit they are intended would gladly undertake to execute them properly if they are allowed the sums estimated for them.

26. The works proposed to be undertaken during the current year are as follow :—

(1)	Brahmunberiah road	Nos.	3 and 4.
(2)	Kalibazar ,, ...	No.	10.
(3)	Augurtollah ,, ...	,,	16.
(4)	Comillah embanked road	,,	56.
(5)	Kuddumtullee road	,,	7.
(6)	Repairs to existing roads and canals.		

27. In addition to the above, the Laksham road between Tipperah and Noakhally, which was proposed to be undertaken in the last year, may be undertaken this year. Its plans and estimate are now under preparation. The Mukram khall, proposed last year, has been for the present disapproved in consequence of some engineering difficulties.

28. *General remarks.*—The working establishment of each district, except Backergunge, where the cess had not begun to be levied, was sufficient for its requirements. Under the classification laid down in the Government resolution No. 1209, dated 8th March 1875, Mymensingh and Tipperah are each districts of the 1st class, and each have a District Engineer of its own, with several overseers. Dacca and Backergunge are in the 2nd class, all their works having been carried out by overseers of the District Committees, under the professional supervision of the Divisional Executive Engineer. Furreedpore is in the 3rd class, with a Resident Engineer of its own, and some overseers under him.

29. The largest amount of work was done in Tipperah, and its several Road Committees appear to have worked with great energy and zeal, while the outturn of work in Furreedpore, compared with its income, has been the least.

30. In conclusion, I would take this opportunity of adverting to one or two of the rules for the guidance of District Committees and Engineers in carrying out works from Road Cess Funds, as contained in Government orders No. 173, dated 7th May 1872, and

No. 1209, dated 8th March 1875, and first with regard to rule 5 of the first orders, which requires the Superintending Engineer to make regular tours of inspection at least once a year. It will be seen from the report of the Chairman of the Mymensingh Committee that the Superintending Engineer has not seen a single work, either original or of repair, since 1873. Mr. Pawsey's remarks as to the necessity or, at all events, the advisability of this officer having some acquaintance with the district appear to me to have much truth in them; and the result of this want of knowledge appears to be not unfrequently waste of time and an expenditure of money that would not be necessary had this officer any acquaintance with the general features of the country. I think, therefore, that for the future these tours should be insisted on.

31. I think it would facilitate the operations of the Committee if the money limit on their power of sanctioning original works were extended.

In cases where the District Engineer has the qualifications of an Executive Engineer, and where the proposed work could not injure the country by obstructing the drainage, or in any other way, I think this limit might with advantage be raised from Rs. 2,500 to Rs. 5,000, and in cases where he has those of an Assistant Engineer, from Rs. 1,500 to Rs. 2,500, or perhaps Rs. 3,000. Similarly I would extend Commissioner's powers of sanction to Rs. 15,000, subject, as now, in the case of works costing above Rs. 10,000, to the professional approval of the Superintending Engineer. Repairs may continue to be dealt with as at present. There is seldom any delay in these being taken in hand, as the Commissioner's powers of sanction are unlimited, and his approval can at all times be speedily obtained.

32. It has been recently ruled that the widening of an existing road must be treated as a new work. I venture to think this is not necessary. The mere widening of a road is usually hardly a matter for professional consideration; indeed such works have generally to be undertaken in consequence of some purely local circumstances with which the Local Committee may, I think, be safely left to deal, provided the cost of such work does not exceed the limit up to which they can carry out repairs. When this is exceeded the Commissioner's sanction should be obtained.

Vide letter No. 40, dated 16th January last, from Secretary to Government, Public Works Department.

33. In Mymensingh and Backergunge particularly there will soon be a very large annual income available for expenditure on district works. The requirements of both are almost illimitable, and I am very strongly of opinion that some increased facilities for carrying on works are much required. The District Committees are composed of men of intelligence and local knowledge; they have the means of obtaining proper professional advice, and as the money under their controlis raised from their own district, I think they may safely be trusted to spend it to the best advantage, and to work subject to fewer restrictions than they are at present.

DISTRICT ROAD FUND.

NOTIFICATION.

No. 204.

The 13th July 1877.

UNDER Section 89 of Act X (B.C.) of 1871, the following annual accounts and reports of the Road Cess Committees of Chittagong, Noakholly, and Chittagong Hill Tracts, of works done and in progress during the past cess year 1875-76, together with the remarks thereon of the Commissioner of the Chittagong Division, are published for general information.

G. A. D. ANLEY, C.E.,

Asst. Secy. to the Govt. of Bengal in the Public Works Dept.

No. 36L., dated Chittagong, the 8th December 1876.

From—BABOO NOBIN CHUNDER SEN, Vice-Chairman, District Road Committee,
To—The Chairman of the District Road Committee, Chittagong.

I HAVE the honor to submit a report of the Road Cess Committee's operations in the district during the cess year 1875-76, together with the detailed account current of the receipts and expenditure of the District Road Fund for the same year.

2. The Committee during the year consisted of 5 official and 10 non-official members, and they had 7 meetings, the average attendance being 6·14. The names of the members, together with the number of meetings attended by them, are given below :—

Official.

Meah Mobaruk Ali Chowdry	Ditto	0
Shaik Abdullah Khan ...	Ditto	0
„ Assanullah Chowdry ...	Ditto	0

An abstract of attendance is also submitted with the appendix in the regular form.

The following members were conspicuous by their non-attendance; and as they neither take any interest in any other way in matters connected with the district road, their names ought to be removed from the list, and their places usefully filled up:—

Baboo Gopee Mohun Ghose.
„ Rames Churun Roy.
Moulvi Mobaruk Ali Chowdry.
„ Abdullah Khan.
Moulvi Assanullah Chowdry.

The rest of the members have, I think, evinced fair activity and interest in discussing matters that were laid before them, though, owing to the paucity of funds, there was nothing of any exceptionable importance done during the year.

3. The estimated receipts of the year, as contrasted with the actuals, are shown below:—

	Estimated receipts.			Actual receipts.		
	Rs.	A.	P.	Rs.	A.	P.
1. Miscellaneous cesses	1,450	0	0	2,656	9	2
2. Canal tolls	7,410	0	0	6,558	0	0

GRAND TOTAL ...	38,807	4	10	30,306	10	0

It will be thus seen that the actual has fallen short of the estimates by Rs. 8,500-10-10, the reason being as follows.

Canal tolls.—The canals were sold for Rs. 7,410, out of which Rs. 741 were realized in 1874-75 and Rs. 5,844 have been realized during the year, the balance being Rs. 825, of which Rs. 318 have been remitted, as one of the canals was closed during a part of the year for silt clearance, and Rs. 507 have yet to be realized from the farmers. Besides Rs. 5,844 realized as stated above, Rs. 714 have also been credited to the last year's account, being the advance for the current year.

Khas mehal.—The Collector has declined to pay this grant that was estimated from Government khas mehal, as Government sanction has not yet been received by him. It is difficult to account for this extraordinary delay; the amount has, however, been credited to the current year's estimate.

Out of Rs. 2,200, estimated as receipts from private sources, Rs. 1,600, which was expected from the Conservator of the Port, has been withheld, as there was no sufficient surplus at credit of the Port Fund—*vide* Commissioner's letter No. 82C.C., dated the 5th May 1876.

Miscellaneous receipts.—Under the heading of Miscellaneous receipts, Rs. 6,958 was expected to be refunded by Government, as this amount was advanced by the District Road Fund to the road cess assessment establishment; but as the Accountant-General, Bengal, latterly, by his letter No. 697T.M., dated the 28th September 1875, has simply authorized us to overdraw our fund by Rs. 1,250 every month for the said establishment, the estimated amount could not be recovered. Rs. 99 shown above as receipts are proceeds from other sources.

Increase is observable only in cases of miscellaneous cesses and ferry tolls. The former is attributable to the realization of Rs. 1,196 over and above the amount estimated as fines for non-submission of returns under the Road Cess Act, and the latter is chiefly due to the increased sales and the consequent increase in the advance of the current year. This year they sold for Rs. 8,632, against Rs. 6,663 of the previous year.

4. The subjoined table shows the estimated as well as the actual expenditure of the year under report:—

Deficit at close of 1875-76	.....			15,417	8	0

The above figures will show that the Committee's finance is not at all in a flourishing state. The actual expenditure exceeds the estimate by about Rs. 17,000, Rs. 22,138-12-5 having alone been advanced to the road cess collection establishment, for which no provision was made in our estimate, under the impression that the necessary funds will be supplied by the Government, subject to repayment from the proceeds of the road cess when it begins to be collected. But, as explained above, Government has subsequently decided otherwise. The actual expenditure, both on original works and repairs—noticeably on the former—shows a considerable falling off from the estimate, owing to the sanction of the Superintending Engineer to the estimate of the former having been received too late in the year—*vide* Commissioner's letter No. 109G.M., dated the 16th March 1876. This, however, looking to the drain that was put on our fund by the road cess valuation establishment, must, I think, be considered fortunate, otherwise we would have been landed in a greater bankruptcy than what is shown above. As it is, we have begun the year with a deficit of about Rs. 15,000.

All road and canal works, original and repair, were undertaken during the year under report by the Committee's own establishment, the original works alone being under the supervision of the Executive Engineer. The total cost of establishment, together with the percentage (4½ on the value of the original works) paid to the Executive Engineer, was Rs. 4,209, or about 25 per cent. of the total outlay, viz. Rs. 14,475. This high percentage is attributable solely to the paucity of outlay. The work done was little, but nevertheless it was scattered all over the year, and the establishment had to be retained in full.

5. The details of the work done during the year will be found in the Appendix B. It may, however, be briefly stated here that over 57½ miles of road repairs have been executed, while 3½ miles have been constructed during the year; and with this slight addition indicated above, the length of the unmetalled roads in this district may be stated at 307 miles. This slight addition was made to the Hill Tracts and Ramghur roads. The importance of these two roads was strongly pointed out in the last annual report; but the Committee regret that, owing to the lowness of their fund, there is little prospect of these two lines of roadways being completed even in another two years.

Besides the above, one mile of Bauskhali canal was also cleared of its silt.

6. The prospect of the current year is also by no means cheering. Considering the want of the district, little has been done during the year under review: that during the current year promises to be still less. The receipt of the current year has been estimated at Rs. 25,000, while the cost of the road cess collection establishment alone is expected

* Sanctioned by the Board of Revenue as per No. 2058, of 17th August 1875.

to be about Rs. 20,000. Our budget was framed with an estimated deficit of Rs. 35,000 at the end of the year, it being understood that Government will allow us to overdraw our fund for the cost of the said establishment; but while our budget, on the one hand, has been returned for submission of a revised one equalizing the receipts and disbursements of the year, the treasury officer has, on the other hand, already deducted Rs. 10,000 from our current year's receipts on account of the deficit at the end of the last year, which amounted to Rs. 15,000. So we have virtually only Rs. 15,000 as our receipts, a portion of which only we will, I think, be able to lay out on roads, as, until we have run completely through our funds, we will have to bear the cost of the collection establishment.

7. This is not all. The cyclone, which passed over the district just after the close of year, viz. on the night of the 31st October last, has caused considerable damage to several roads and bridges, some of the latter having been completely swept away. It was only last year that the Committee sustained serious loss by an unprecedented inundation, the effects of which on their roads and bridges have not as yet been wholly removed; and the late cyclone will, therefore, probably make it necessary for them to apply for a loan from Government to be repaid from the proceeds of the road cess. Details of the damages caused by the late cyclone are given below.

Arracan Road.—A portion of the western side of the road and the wooden bridge No. 1 have been washed away. A temporary bamboo bridge has lately been put on in the place of the latter.

Chandpore Road.—This road has sustained great damage in several places. Two piles of the bridge No. 1, and the platform of the bridge No. 21, have been carried away; also the approaches of all the bridges have been severely injured, and the bridges are now made passable by putting up bamboo platforms on either ends.

Anwara Road.—The slope of the road has been partly washed away by the inundation, but no damage done to the existing bridges.

Moiskhal Strand Road.—The road has severely been damaged in two places, and the stone ballasts which were put alongside on the slope of the road, for protection of the embankment from the river Kurnafoolee, have partly been swept away by the inundation. A masonry pillar of the bridge No. 5 has fallen down, and the abutments and wings of the bridges Nos. 4 and 5 have slightly been injured.

Moiskhal towing path.—This road and its bridges have sustained great damage by the flood Four wooden bridges from the line of this road have been swept away; temporary bamboo bridges have been put up in order to make the road passable for foot traffic.

Khaloo Ghât Road.—This road has been injured in several places and the existing bridges, with the exception of one which has suffered rather badly, have all been damaged by the inundation.

8. In conclusion, I have to notice with satisfaction the conduct of the officers who were borne during the year on the Committee's establishment. The District Overseer has shown his usual activity and energy throughout the year, and was prompt in carrying out the orders of his superiors. The Committee's clerk also deserves favourable notice. He has discharged his responsible, and somewhat intricate duty with great punctuality and attention. I regret that, compared with other districts, his pay is rather small; but I hope the Committee will gladly take his case into their special consideration when the collection of the road cess will enable them to give him an increase.

No. 49L., dated Chittagong, the 15th December 1876.

Memo. by—H. J. NEWBERY, ESQ., Chairman of the District Road Committee.

COPY forwarded to the Commissioner of the Chittagong Division. The finances are of course in a very depressed state, and I see no way out of the difficulty but to incur a debt to Government, to be repaid by instalments from the time the assessments are completed. At present establishment swallows up so much that the fund, as a road fund, is altogether paralysed.

APPENDIX B.

Memorandum of Chittagong District Works executed during the year 1875-76.

ORIGINAL WORKS.

Roads and Bridges.

Widening and straightening the Ramghur road.—This road has been widened and straightened two miles between the 13th and 19th miles, and made passable for carts.

Widening and straightening the Hill Tracts road.—One and a half mile of embankment has been completed on this road between the 3rd and 6th miles.

River and canal works.—Banskhali canal.—The canal has been cleared out one mile in length from the mouth of Kodala Nallah to Kookorree Surrah, and it is in fair condition; no repair will be executed during the current year.

REPAIRS.

Roads and Bridges.

Repairs to the Arracan road.—This road has received surface repair between the east bank of the river Kurnafoolee to the north bank of the old Hanger Nallah, on the 4th, 6th, 7th, 15th, 16th, 22nd, 23rd, 25th, 26th, 27th and 28th miles; wooden bridges Nos. 1, 2, 3, 9, 12, and 15, have been repaired, and partly the level of the road on the 8th and 9th miles has been raised. The road is in fair condition, and passable for carts. The floating jetty has been re-fixed, and a new road has been branched off from the Arracan road leading to the jetty (200 feet in length and 12 feet wide) on the east bank of the Kurnafoolee and on the mouth of the Boalkhali canal, and it is perfectly in good order: 81,867 bricks have been made for construction of abutments and wing walls to the ends of bridges Nos. 22½, 23, and 25 on the 16th mile.

The construction and repair to the bamboo bridges on the Southern Arracan, Gurjoneeah, Ukheah, Nheela, Juldee, Parkee, Eastern Hill Tracts, and Raujan roads, have been completed, and the jungles from the sides of the hilly road have also been cleared out.

The masonry abutments and wings to the north ends of the bridges Nos. 23 and 25, and the wings walls to the culvert No. 22½, will be constructed during the current year in place of the old wings, which have been damaged by the floods of August 1875. Necessary surface repair to the road will be executed from east bank of the river Kurnafoolee to the Choonate hills, and the bridges will receive necessary repairs.

Wooden revetment and wings will be put on to the east approach of the bridge No. 9 over the Nallah Chandkhali.

Repairs to the Ramghur road.—Surface repair has been made to the road between 3rd and 26th miles, and 20 wooden bridges have been repaired. The road and bridges are in fair condition, and are passable for vehicles. During the year 1876-77 necessary repairs to the road as well as to the bridges will be done from the northern boundary of the Municipality to Jogeeny Ghât. The road will be widened and straightened between Coterpur and 15th mile, as this was not completed in 1875-76.

Repairs to the Hill Tracts road.—Necessary repairs on the surface of the road from Hâthazari to the third mile have been done, and the wooden bridge No. 4 has been repaired. It is in good condition, and passable for carts up to one and a quarter mile; the remaining part being unfit for cart traffic, owing to the absence of bridges and narrowness of the old bridge No. 4. In 1876-77 surface repair will be executed to the road, and the bridges Nos. 1, 2, and 4, will be repaired. It is proposed to extend the road from Sultanpore to the western boundary of the hill tracts by the old Raujan road.

Surface repairs to the following minor roads have been executed:—Tipperah pass road, Nasirabad road, Kalurghat road, Bakolia road, Hallieshahar road, Moheskhali towing path, Moishkhali strand road, Chandpur road, Unwara road, Poroykora road, Shakirapole road, Dhulghat road.

Bridge No. 4 has thoroughly been repaired on the Shakirapole road; seven old wooden bridges have received repairs on the Chandpur road, and eighteen bamboo revetments have been placed to the approaches of nine bridges on the same; one wooden bridge on the Dhalghat road has also been repaired.

Repairs to the Ramoo road.—40,893 cubic feet of earth-work were done in filling up gaps of this road, at a cost of Rs. 92-11-1; ninety-two thick jarool planks were purchased at a cost of Rs. 276 for bridge work, and Rs. 3-1 were incurred in conveyance and removal of the same to proper places.

Petty repairs were done to the extension of this road to the beach, at a cost of Re. 0-12-9.

No. 1R.C.C., dated Noakholly, the 28th February 1877.

From—R. PORCH, Esq., Offg. Magistrate and Chairman, District Road Cess Committee, Noakholly,

To—The Commissioner of the Chittagong Division.

I HAVE the honor to submit the following report in connection with the local works undertaken during the past cess year ending with the 30th of September 1876.

2. During the year under report there have been three sittings of the District Road Cess Committee, attended by the following members:—

Meeting held on the 3rd November 1875.

A. Manson, Esq., *Chairman.*
Babu Bogula Prosono Mojumdar, *Vice-Chairman.*
A. Blair, Esq., *Official Member.*
Moulvi Abdul Aziz Khan, *Non-official Member.*

3. This meeting was called to consider the annual accounts, but as a quorum was not formed nothing could be done; but, with the concurrence of the members present, the accounts were passed and submitted under the Chairman's countersignature.

4. *Meeting held on 10th May* 1876.

PRESENT:

R. Porch, Esq., *Chairman.*
Babu Bogula Prosono Mojumdar, *Vice-Chairman.*
Moulvi Abdul Aziz Khan, *Non-official Member.*

5. The business proposed to be transacted in this meeting had to be deferred to another meeting owing to no quorum having been got together; but, in consideration of the urgency, the revision of the budget, which formed one of the subjects of business proposed to be considered by the Committee, was passed under the sanction of the Chairman.

6. *Meeting held on 15th August* 1876.

PRESENT:

R. Porch, Esq., *Chairman.*
Babu Bogula Prosono Mojumdar, *Vice-Chairman.*
Moulvi Abdul Aziz Khan, *Non-official Member.*
Hasan Ali Chowdhry, ditto.
Babu Chandra Nath Chowdhry, ditto.
Munshi Munwar Meah, ditto.
Babu Kali Nath Bose, *ex-officio Road Cess Deputy Collector.*

7. This was the only meeting during the year in which a quorum was got together, and the very important business, viz. the consideration of the budget estimate for the cess year 1876-77, was transacted and submitted to your office, viz. to the Commissioner of the Division.

8. As hitherto, the District Road Cess Committee of Noakholly has been found to be nominal in character. The members living in the interior take little interest and no part in the Committee's business, and render no assistance whatever in the execution of projects for local improvements.

9. The management of the works carried out in the district falls upon the Chairman, along with the direction of the Committee's business. The Chairman has to suggest the works and put forward projects for the working establishment. During the last three years not a single suggestion from any member in the interior connected with local improvements has been received. No one among them notices the way in which any road work in their immediate vicinity has been carried out.

10. The business of the Committee is for the most part delayed, and otherwise inconvenienced, owing to the difficulty of getting a quorum together.

11. The members of the Committee out in the district are generally very apathetic, and can hardly be got to apply themselves to any object not immediately and visibly productive of individual lucrative advantage.

12. Nothing but the promotion of their own interests ever brings them willingly to the head-quarters. They only leave home when their absence for a time is likely to be of personal benefit.

13. Their ways, habits, and idiosyncrasies, do not as yet fit them for being active practical members of a working committee at head-quarters; they are all of them, nevertheless, useful, as associated with the head of the district for district improvements; and communicating personally with these local representatives on road cess matters when on tour near their homes I consider to be an important part of the duties of the cold-weather tour, and do not object to such persons continuing members of the Committee, though, consulting their own convenience, they may seldom or never attend the meetings of the Committee. There is much to be said in excuse for these well-meaning men, whose homes are a long way from the station.

14. I have recently submitted certain nominations of neighbouring residents as members of the District Road Cess Committee, and hope that when those nominations are sanctioned, the inconvenience now felt in the transaction of the Committee's business will be obviated to a certain extent by exalting the requirements of the law to be at once fulfilled.

15. During the year under report, the district roads sustained considerable damage from the flood of August 1875, and they could not be restored to fair order even owing to paucity of funds and to the sudden and unexpected curtailment of the Government grant. Every possible effort was made to move the Government to reconsider its order in respect to the withdrawal of the allotment made to this district, but without success. An attempt was made also to procure a loan, which was disallowed; the Committee then had no alternative but to carry out urgent and necessary repairs as far as means at their disposal admitted.

16. During the year the following works have been executed.

17. Four miles of the Lucksham road were raised and widened at a cost of Rs. 2,350-1-3. The earthwork done to this portion of the road amounted to 779,620 cubic feet.

18. The masonry work of the six timber-topped bridges on the Lucksham road was completed at a cost of Rs. 207-4-11. The necessary materials were procured in the preceding year, but the planking of the bridges was deferred for want of funds.

19. Bamboo spurs and palisades were fixed at Mohindaghona to prevent an encroachment on the road by the Noakholly khall. This work is carried out every year for the protection of the road. The Committee proposed to alter the line of the road, and laid down Rs. 800 for the purpose in the original estimate for the year under notice as a measure of economy, wishing thereby to avoid annual waste of money by temporary construction of bamboo spurs; but the project was temporarily abandoned, owing to the curtailment of the budget grant.

20. A section of the Shahebghatta road was altered owing to the original line of road having been cut away by the current of the Noakholly khall.

21. *Rivers and canals.*—The only work undertaken during the year under notice under this head is the cutting of a short canal at Shahebghatta, to save the Taktakhali road and the adjacent country from the constant encroachment of the Noakholly khal. This was a cutting of a bend of the khal to straighten the passage and to divert the stream. This work was finished, at a cost of Rs. 1,179-5-3, to a distance of 2,000 feet.

22. Parts of the district main roads passing through the sudder station have been metalled to the extent of 1,190 cubic feet.

23. Considerable repairs were done to the main roads of the district, viz. Devangunge, Begumgunge, Old Lakhipur, Taktakhally, Chittagong, and Luksham roads: Rs. 6,309-7 were thus expended on these roads.

24. Surface and slope repairs, jungle clearing, and filling up rat-holes, have been attended to on the other petty roads of the district, so as to render them passable.

25. The station roads were dressed to a length of 268,750 feet, and levelled to the extent of 207,000 cubic feet earth-work.

26. The Ramgunge road has been repaired to the extent of 226,900 cubic feet. Much earth-work was done to it in order to make it passable by travellers and convenient for the conveyance of the dâk. This road, though not open to much cart-traffic, is much frequented by people of that part of the district when coming to and from between head-quarters and the interior.

27. The flood of August 1875, and the incessant rains that fell during the year, caused considerable damage to the district bridges. Also they were made passable by repairing the masonry portions, and by re-planking the superstructure where necessary, so as to prevent any interruption of traffic, so far as the limited means at the disposal of the Committee would admit of.

28. Besides the amount disbursed from the District Road Cess Fund, Rs. 262 were spent during the year from the Circuit-house Fund in improving the roads leading to the circuit-house, by repairs to the existing roads and by the construction of two culverts.

29. The Dhumchur bridge, where a toll-bar is established, had undergone considerable repairs. Part of the bridge had been reconstructed by building masonry buttresses and

renewing the wooden platform. Rs. 1,472-14-4 had to be spent on this bridge owing to the damage it had sustained from the flood of August 1875.

30. The same work has to be renewed this year, as all that was done last year was swept away by the cyclone and inundation of the 31st of October last. Immediate steps were taken to restore it as before.

31. I may remark here that the cyclone and inundation of the 31st October 1876 have caused very great injury to the district roads and bridges, and a considerable amount will have to be expended to restore them to their former condition.

32. I have the honor to state that the submission of this report has been delayed owing to the non-receipt of certain information called for from the Executive Engineer of the division, which has not yet been supplied.

33. As it does not seem expedient to wait for the above information, I beg to submit the report as it is, without further delay.

This might be attributed owing to these residents being distantly situated from the head-quarters, and also for their not taking any interest in the matter of local improvement.

BOGULA PROSONO MOJUMDAR,
Vice-Chairman,

Explanation.

AN increase of Rs 9-6 will be observed under the head of "Miscellaneous," and a decrease of the same amount under the head of "Tolls," when compared with the quarterly returns. This was owing to the amount having been shown in the third quarterly return under the head of "Tolls" instead of "Miscellaneous."

A decrease of the sum of Rs. 466-14-8 will also be seen under the head of "Repairs" when compared with the quarterly returns. As the amount of Rs. 350 advanced from this office direct to Mr Andrews, local Overseer, was included in the fourth quarterly return, and now omitted owing to the Executive Engineer having proposed to show the amount in his account in the present cess year, the amount was shown in the annual account as outstanding balance. A further sum of Rs. 116-14-8 has been deducted from the outlay on repairs of roads and bridges, under the instructions of the Examiner of Public Works Accounts, Bengal.

R. PORCH,
Chairman.

No. 1063, dated Camp Ruma, the 29th November 1876.

From—J. ANDERSON, ESQ., Deputy Commissioner,
To—The Commissioner of the Chittagong Division.

I HAVE the honor to forward the annual report of the Chittagong Hill Tract District Road Fund for the year 1875-76, commencing, from 1st October 1875 and closing with 30th September 1876.

3. At the commencement of the year there were Rs. 8,071-4-6 outstanding on account of advances made to Tipras in 1872 for immigrating into Myoni Valley, and for advances made to sufferers during the heavy floods of July and August 1875, as per Bengal Government letters, Nos. 3071 and 2137, of 18th May 1872 and 25th August 1875, received with Commissioner's Nos. 257 and 291H, of 23rd May 1872, and 4th September 1875, respectively. From the amount in question Rs. 6,001-4-7 were recovered during the year, leaving a small balance of Rs. 2,069-15-11 recoverable during 1876-77; but to that amount a sum of Rs. 4,829 was added, owing to the scarcity which prevailed in the Chingree Valley and in other places within the Hill Tracts during the last rainy season, which scarcity was warded off by advances to hill chiefs and other headmen. Both the above items of advances make up a sum total of Rs 6,898-15-11 shown under the head of advances outstanding at the close of the year under review. The greater portion of these will undoubtedly be reimbursed to Government in cash or labour during the next four or five months.

4. The sum of Rs. 3,600, shown as balance at credit of deposits, was added to the funds of this district in May 1874 by the Accountant-General of Bengal, which amount is in excess of this District Road Fund grant. The Treasury Officer and the Accountant-General were repeatedly requested to adjust the accounts, but they have not done so up to date.

5. The District Road Cess Act, X of 1871, cannot be introduced into this district, as there are no landed interests on which the tax may be levied; hence a Road Cess Committee has not hitherto been needed in this district. The works are executed under the immediate supervision and control of the Deputy Commissioner, and the expenditure is incurred under the authority of the Commissioner of Chittagong.

6. The following works were executed on the main road from the Rangamattee towards Chittagong.

7. *Communication, original works, Roads and Bridges, South-Eastern Trunk Road, Looshai Branch, Rangamattee, towards Chittagong, 24 miles. Class IV, No.* 5.—The sides of the hills near Rangamattee for a distance extending over a mile were levelled, giving a breadth to the road varying from ten to eighteen feet at the top; and about 97,000 cubic feet of earth were excavated and removed: cost, Rs. 972-6-4.

8. About two miles of road running through marshy land was made into a permanent road by excavating and throwing on that road about 350,000 cubic feet of earth, at a cost of Rs. 2,938-5-8. A large quantity of the earth was brought from a distance of 150 to 200 yards. This part of the road opens out a large piece of flat land watered by small hill streams to plough cultivation. A part of the land was taken up for that purpose by some hillmen and a dam constructed to collect water for the purpose of destroying the jungle

which grows luxuriantly on both sides of the road; but unfortunately the embankment gave way in August last, and the large collection of water covering an immense area of rice land escaped. The men will reconstruct the dam next dry season.

9. The top of the hill near Rangamattee was cut, and 191,000 cubic feet of earth removed: cost, Rs. 1,494-8-6. The height of the hill has now been reduced by about 50 feet, rendering it easy to climb, and has been nearly fitted for wheeled carts.

10. About 70,000 cubic feet of earth were cut and removed from Manickcherry hill at a cost of Rs. 615-4. The Executive Engineer has requested a large portion of that hill to be cut down, without which a road practicable for wheeled carts cannot be made.

11. About 300 feet of the rocky sides of hills below Goagramoin on the above road were cut and the road improved: cost, Rs. 190-3.

12. About 1,450 yards of small roads were constructed at the station at a cost of Rs. 292-2, by cutting the sides of hills and removing 18,200 cubic feet of earth; and 700 yards of road from the police new hospital to the foot of the Deputy Commissioner's cutcherry at Rangamattee improved by cutting 5,000 cubic feet of earth: cost, Rs. 195.

13. Of the 89 temporary bridges constructed on the road from Rangamattee towards Chittagong, 64 were made of bamboos with light wooden logs and props, and 25 of thick logs of wood. Mules and cattle can pass over the former, and elephants over the latter bridges. The total length of these is about 2,000 feet, and the average breadth about 5½ feet: cost, Rs. 2,024-7-3.

14. A dam for keeping a reserve of water was constructed at Rangamattee at a cost of Rs. 471-10, and 11,800 cubic feet of earth were thrown and turfed at the junction of the beds of two hill streams. A waste drain was also cut to a length of 160 feet with a depth of 7 feet. It has stood the rains, and is in good order.

15. A masonry spring well for pure water was constructed at a cost of Rs. 425-6-6 below the new hospital at Rangamattee. The well and its water are in excellent condition.

16. A circuit bungalow was constructed at Rangamattee,—*vide* Bengal Government letter No. 3935, of 7th August 1875: cost, Rs. 712-9.

17. A village road to Linginullah from the bank of the river Kurnafoolee was constructed by cutting and removing jungle: cost, Rs. 28.

18. *Kurnafoolee River, one mile Class IV, No.* 9.—The channel at Uttanchuttra, between Rangamattee and Demagree, of the river Kurnafoolee, was improved by cutting and removing *débris* which had collected during the rains: cost, Rs. 492-15-1.

19. *Repairs and maintenance, Chunderconah, towards Rangamattee, three miles. Class II, No.* 2.—Repaired three miles of road from Chunderconah, towards Rangamattee, by cutting and removing jungle; also the wooden bridge on that road: cost, Rs. 21-13-8.

20. *Rangamattee, towards Chittagong. 24 miles. Class IV, No.* 5.—Repaired twenty miles of road from Rangamattee, towards Chittagong, twice in the year—once in December and again from August onwards, by cutting and removing jungle and sunn grass: cost, Rs. 568-0-9.

21. *Débris* and boulders which had fallen on the road towards Chittagong were removed: cost, Rs. 160-5-6. About 650 yards of road, at a cost of Rs. 96-10; the revetment of the road and two masonry wells, at a cost of Rs. 68-12-9, were repaired and white-washed at head-quarters.

22. Bricks were burnt and lime purchased for repairing the masonry ghât at Rangamattee at a cost of Rs. 145-2; but the repairs could not be executed owing to an outbreak of cholera towards the close of March and beginning of April last, and to the setting in of the rains earlier than usual. The repairs will be executed as early as they can conveniently be taken in hand during the present cold weather.

23. *Ruma to Rangamattee, 66 miles. Class IV, No.* 7.—About 24 miles of road from Ruma, towards Rangamattee, were repaired by cutting and removing jungle twice in the year—once in December, again in July and August last, and ten temporary bridges made on that road: cost, Rs. 560.

24. *Rangamattee, towards Chittagong, 24 miles. Class IV, No.* 5.—The survey of the road from Rangamattee towards Chittagong, which had been placed under the supervision and direction of the Executive Engineer of Chittagong about the commencement of the road cess year, was closed in July last; but that officer has re-opened the survey of a part of the road which passes through the foot of high hills and is intersected by several hill streams. The levels of the road have yet to be taken and the estimate framed.

25. The road from Rangamattee towards Chittagong, which is being surveyed, will undoubtedly be of great importance when completed in opening out the Kurnafoolee Valley. The road from that district towards Rangamattee is pushed on for that purpose with great energy and vigour (*see* annual report of that District Road Fund for 1874-75, published in *Calcutta Gazette* of 10th May 1876, Part I, page 469), but owing to want of funds the construction of the road from this district lags far behind. It will take years before it can be made fit for carts.

26. *Establishment, contribution to Public Works Department.*—Under Government Notification No. 364, of 20th July 1875, the grant-in-aid from the Provincial Reserve Funds for 1875-76 was Rs. 15,000. On its basis the budget estimate was framed and submitted with this office letter No. 151R., of 17th September 1875, and a sum of Rs. 8,385 was reserved for contribution to Public Works Department; but subsequently, by Government Proceedings No. 1725, of 8th April 1876, the grant was reduced to Rs. 7,500, and a revised

estimate was forwarded with this office No. 118, of 28th April last, fixing the amount of contribution for that Department at Rs. 2,531-3-3, as follows :—

	Rs.	A.	P.
For surveying the road from Rangamattee towards Chittagong by Public Works Department	2,031	3	3
Further contribution to Public Works Department ...	500	0	0
Total ...	2,531	3	3

The Government of Bengal has not sanctioned the above allotment, but has required (*vide* its Proceedings No. 3101A., of 29th August 1876, received with Commissioner's No. 372G.M., of 14th September 1876,) to be placed at the credit of the Department of Public Works the large sum of Rs. 3,385, and the Controller of Accounts has thrown the burden of the survey, to the extent of Rs. 1,077-10-8, on the local establishment. The two items make a total of Rs. 4,462-10-8, the payment of which, on account of establishment, is quite out of proportion for a small district like the Chittagong Hill Tracts, the only income of which is the grant-in-aid from the Provincial Reserve Fund, not amounting to more than Rs. 7,000 to Rs. 10,000 annually. If the above payment be made, the funds of this district will greatly be crippled. Moreover, the services rendered to this district by the Public Works Department is the veriest trifle in comparison with those rendered to the regulation district of Chittagong, in which the contribution is about 4½ per cent.,—*see* Bengal Government Proceedings No. 4002, of 11th August 1875, paragraph 8, received with Commissioner's endorsement No. 328G.M., of 1st September 1875.

27. The expenditure on account of local establishment—special allowance of Mr. A. DeRozarie, Inspector of Police, Rs. 600; salary of a mohurir and two Overseers, Rs. 259-7-8; new tools and repairs, Rs. 34-0-3—needs no explanation.

28. *Communications, original works, Road and Bridges, South-Eastern Trunk Road, Looshai Branch, from Rangamattee towards Chittagong, 24 miles. Class IV, No.* 5.—The execution of the following works are proposed for the year 1876-77.

29. Constructing one and a half mile of road from Rangapaniabil towards Chittagong by raising the earth-work three feet in height and 18 feet broad on the top: cost, Rs. 1,500.

30. Cutting down the top of Manickcherry hill, at a cost of Rs. 2,000, so as to make it practicable for carts.

31. Constructing half a mile of road by cutting the sides of Manickcherry hill: cost, Rs. 400.

32. Constructing one and a half mile of road from the foot of Manickcherry hill towards Chittagong by raising the earth-work three feet high, and making the road 18 feet broad at the top: cost, Rs. 1,500.

33. Clearing jungle to construct three and a half miles of the above road: cost, Rs. 75.

34. Improving the roads at the head-quarters station of Rangamattee: cost, Rs. 400.

35. Constructing a road from the foot of the Police office hill towards the bazar at Rangamattee: cost, Rs. 100.

36. Improving the road from the hospital to the river: cost, Rs. 40.

37. Compensation for taking up land for the construction of three miles of road from Rowjaun thana, in Chittagong, towards Rangamattee: cost, Rs. 2,000.

38. Raising the dam at Rangamattee for a roadway 18 feet broad, six feet high, 150 feet long: cost, Rs. 450.

39. Constructing a road from Ruma to Polityc, one from Poree Rajah's village to Pyramid Hill and another road from Tega to Oipoom No. 1, the new frontier police posts, at Rs. 600 each, Rs. 1,800.

40. *Ruma to Rangamatee, 66 miles. Class IV, No.* 7.—Constructing a road at Ruma, the head-quarters of the Sungoo sub-division: cost, Rs. 250.

41. Constructing a village road from the bank of river Kurnafoolee to Singinullah, two miles in length, four feet in breadth, by cutting drains on both sides and throwing the earth on the road: cost, Rs. 80.

42. *Maintenance and repairs, Roads and Bridges, Rangamattee towards Chittagong, 24 miles. Class IV, No* 5.—The following repairs are entered in the budget estimate :—Repairing two and a half miles of road from Rangamatee to Rangapaniabil: cost, Rs 500; one mile of road at the head-quarters of Rangamatee: cost, Rs. 150; one and a half mile of road below Gogra Hill by cutting and removing *débris*: cost, Rs. 100; 89 temporary bridges: cost, Rs. 712; the wooden bridge at Rangamattee: cost, Rs. 25; repairing and keeping the road open from Rangamattee towards Chittagong by cutting and removing jungle and sunn grass twice in the year—once in December, and again in July and September: cost, Rs. 500; the masonry ghât, the revetment and three wells: cost, Rs. 325.

43. *Ruma to Rangamattee, 66 miles. Class IV, No.* 7.—Repairing 24 miles of road from Ruma towards Rangamattee by cutting and removing jungle and sunn grass twice in the year—once in December, again in August and September: cost, Rs. 600.

44. *Kurnafoolee River, 1 mile. Class IV, No.* 9.—Repairing 1 mile of channel at Uttaunchuttra Rapids, between Rangamattee and Demagree, in the river Kurnafoolee: cost, Rs. 150.

45. Repairing two and a half miles of road from Feskichera to Burkal: cost, Rs. 250.

46. *Chunderconah, towards Rangamattee, three miles. Class II, No.* 2.—Repairing three miles of road from Chunderconah towards Rangamattee, by cutting and clearing jungle and by surface repair of the road: cost, Rs. 30.

47. *Establishment.*—Cost of surveying the road from Rangamattee towards Chittagong, Rs. 680; and for the services of the Executive Engineer and his establishment, Rs. 200, total Rs. 880, are reserved for contribution to Public Works Department. For local establishment, Rs. 600, special allowance of Mr. A. DeRozario, Inspector of Police, and the salary of a mohurir Rs. 120.

48. A sum of Rs. 100 for new tools and repairs, and Rs. 463-10-7 for unforeseen contingencies, are entered in the budget estimates.

49. The following is the sum total of the proposed budget estimates for 1876-77 :—

	Rs.	A.	P.
Actual balance available on the 1st October 1876 ...	6,100	10	7
Grant-in-aid from Provincial Reserve Fund ...	10,000	0	0
Total ...	16,100	10	7
Expenditure proposed, original works, roads and bridges	10,595	0	0
Maintenance and repairs, roads and bridges ...	3,192	0	0
River and canal works	150	0	0
Contribution to Public Works Department... ...	880	0	0
Local establishments	720	0	0
New tools and repairs	100	0	0
Unforeseen contingencies	463	10	7
Total as above ...	16,100	10	7

50. During the cyclone on the morning of the 1st November some damage was caused to the temporary bridges, and a considerable number of big trees have fallen on the road from Rangamattee towards Chittagong, on which account the budget estimates of this district will hardly be affected.

51. The survey of the road from Ruma to Rangamattee, which was sanctioned by the Commissioner in his letter No. 309G.M., of 18th August 1875, at a cost of Rs. 1,500, could not be carried out, owing to a fit officer not being available to execute the work, hence the works on that road cannot be estimated for, and that sub-division has not the proper means of communication either with the men of the plains or the head-quarters of the district.

52. Finally, it is gratifying to state that the year 1876-77 has opened a field for competition for labour in the hill tracts. Hitherto, all works were executed by hill and Bengali coolies employed at a fixed salary, and very little work could be obtained from them, while the expenditure was exceedingly large. This year all earth-work has been made over to a contractor at Rs. 4-8 per every 1,000 cubic feet, and there is every likelihood that much work will be executed at a very much smaller expenditure. This being only the commencement, savings may be effected in subsequent years and changes made in the rates of contract.

53. Statement No. 6, Parts I and II, and memoranda are enclosed.

J. ANDERSON,
Officiating Deputy Commissioner.

No. 103G.M., dated Chittagong, the 5th April 1877.

From—E. E. LOWIS, Esq., Commissioner of the Chittagong Division,
To—The Secretary to the Government of Bengal, Public Works Dept.

I HAVE the honor to submit the following report on the operation of the District Road Fund in the district of the Chittagong Division during the cess year ending 30th September 1876, and to forward herewith the divisional accounts of the fund, together with copies of the district reports and accounts for the cess year in question.

2. The submission of this report has again been delayed this year owing to the non-receipt of a complete report from the Chairman of the District Road Committee, Noakholly, until the 3rd ultimo. The attention of the Chairman has been drawn to this delay.

3. An abstract of particulars regarding the meetings of the District Road Committees in the regulation districts of this division during the year also accompanies. There being no landed interest properly speaking in the Hill Tracts on which the road cess may be levied, Act X (B C.) of 1871 has not been extended to that district, nor has any committee been formed for the management of its road fund, which rests solely with the Deputy Commissioner.

4. During the year under review the Committee in Chittagong consisted of five official and ten non-official members, and they had seven meetings, the average attendance being 6·14.

5. Some of the non-official members were conspicuous by their non-attendance, and are reported to have evinced no interest whatever in the duties entrusted to them. The Vice-Chairman suggests that their names should be removed from the list of members, and their places filled up by men who are likely to take interest in a work of this nature. The Chairman has accordingly been asked to revise the list and, if necessary, to submit fresh nominations. The rest of the members seem to have shown fair activity and interest in discussing matters that were laid before them.

6. In Noakholly the Committee comprised four official and 14 non-official members. They had only three meetings, with an average attendance of eight, in two of which no quorum could be formed. This is most unsatisfactory. The Chairman has not only been, as he admits, transacting the business of the meetings himself in the absence of a quorum, which is irregular, but it is a matter for surprise how virtually in one meeting the business of a whole year could have been satisfactorily disposed of. As, however, the Chairman

expects no such difficulty in forming a quorum after the late revision of the list of members, I have taken no further notice of the matter than to intimate that I expect there will be a marked improvement in this respect during the current year.

7. The non-official members are reported to have taken no interest in matters connected with the district road works, nor to have lent any assistance in the execution of them.

8. The receipts of this division during the year under review on account of the District Road Fund amounted to Rs. 44,377, against Rs. 56,054-3-5 of the preceding year, viz.—

	Cess year. 1875-76. Rs. A. P.	Cess year. 1874-75. Rs. A. P.

9. The total receipts (Rs. 44,377) during the year, with the unexpended balance (Rs. 25,736-0-3) of the preceding year, aggregating Rs. 70,113-0-3, was available for expenditure during the year.

10. The actual expenditure was, however, Rs. 79,641-10-4 during the year under review, against Rs. 82,303-3-9 of the preceding year, viz.—

	Cess year. 1875-76. Rs. A. P.	Cess year. 1874-75. Rs. A. P.

On establishment	7,314 5 6	4,932 4 10
On tools and plant	429 15 5	2,490 0 7
Total ...	79,641 10 4	82,303 3 9

11. The total expenditure (Rs. 79,641-10-4) of the year under review, with the unexpended balance (Rs. 14,174-1-11) on the 30th September 1876, amounted to Rs. 93,815-12-3, out of which Rs. 20,102-12 were deficit overdrawn from the treasury by the Chairman of the Chittagong District Road Committee in excess of the actual receipts, the fund at his disposal having been inadequate to meet the annual requirements; while Rs. 3,600 remained as a balance at credit of deposits not included in the fund at the disposal of the Deputy Commissioner as unadjusted balance.

12. As the valuations under the District Road Cess Act X (B.C.) of 1871 were not completed in Chittagong and Noakholly, where the Act has been introduced, the cess on land, &c., could not be realized during the year. This, combined with the withdrawal (*vide* Government orders No. 1725, of 8th April 1876,) of half the grant-in-aid allowed by Government resolution No. 3710, of the 24th July 1875, precluded the execution of many urgent works in those districts as well as in the Hill Tracts, which latter district entirely depends on grant-in-aid, there being no local sources of income.

13. With the diminished resources at their disposal the Committee managed in a measure to maintain their roads, bridges, &c., doing slight repairs on many of them, at the same time executing the most urgent original works.

14. The cost of repairs and maintenance during the year in this division amounted to Rs. 21,274-3-3, and of original works to Rs. 27,291-8-6. Of the former, Rs. 2,361-0-7 were spent for the maintenance of Kumaria and Moishkhal ferries in Chittagong, and of the latter, Rs. 2,600 were paid as compensation for lands acquired during the year, the cost of original works and repairs having been curtailed to the utmost.

15. There was, however, a very large expenditure of Rs. 22,844-14-9 in Chittagong on establishment that had to be entertained to make assessment, under the District Road Cess Act, on the numerous petty estates which exist in that district. The maintenance of this establishment has told seriously on the Committee's resources, and, as will be seen from its annual accounts and reports, has almost reduced the fund to a state of bankruptcy; but the Committee, it is hoped, will shortly recover from this financial difficulty, as the cess is expected to be levied in Chittagong from the commencement of the ensuing cess year.

16. It is pleasing to note that in the district of Chittagong a sum of Rs. 600 was obtained from private contribution, offered by Sheik Abdool Maloom and Kali Kumar De, towards the construction of roads in the neighbourhood of their respective villages.

17. The following is a statement showing the proposed works and the amounts estimated to be spent on them during the current year :—

18. In Chittagong the estimates originally drawn up had to be curtailed, owing to there being no fund at the disposal of the Committee; and pending the orders of Government, solicited in this office memorandum, No. 17G.M., dated the 18th January last, the works in this district have been entirely kept in abeyance, as the greater part of the sum, made up of the advances sanctioned by Government and the grant-in-aid, contributions, receipts from ferries, &c., and overdrawals, has already been absorbed in the maintenance of the road cess establishment.

19. The cyclone of the 31st October last did much damage to many of the district roads in Noakholly, and the estimates that were originally drawn up by the Committee had therefore to be revised, the repairs to the damaged roads being first provided for.

11. The production and inspection of all deeds, evidences, and muniments of title which are not in the possession or power of the party having the conduct of the proceedings, and the procuring and making of all certificates attested, or other copies or extracts of or from any registers, deeds, wills, or other documents, and of all declarations or other evidences as to identity, whether required for the verification of the abstract or for any other purpose, shall be at the expense of the purchaser requiring the same.

12. If any error or misstatement shall appear to have been made in the particulars or description of the property, such error or misstatement [if capable of compensation] shall not annul the sale, nor entitle the purchaser to be discharged from his purchase, but a compensation shall be made to or by the purchaser, as the case may be, and the amount of such compensation shall be settled by a Judge in chambers.

13. If the purchaser shall not pay his purchase-money at the time above specified, or at any other time which may be named in any order for that purpose, and in all other respects perform these conditions, an order may be made by a Judge in chambers for the re-sale of the property and for payment by the purchaser of the amount of the deficiency, if any, in the price which may be obtained upon such re-sale, and of all attorney and client's costs and expenses occasioned by such default.

14. When a re-sale is directed, if for want of bidders the property cannot be re-sold, the purchaser at the former sale shall pay the whole amount of his purchase-money into court; but if the property be re-sold, and if the price obtained at the re-sale be less than the purchase-money payable by the original purchaser, he shall pay the amount of the deficiency. The costs occasioned by the default of the original purchase shall also be paid by him. An order containing these directions may also be obtained from a Judge in chambers.

Note.—Special conditions will be required when the title is bad or doubtful.

It is desirable that the attention of intending purchasers should be called to the reason for imposing special conditions when the title is bad or doubtful.

The following orders, issued by the Government of India in the Department of Revenue, Agriculture, and Commerce, are republished for general information :—

No. 246.—*Simla, the 6th July* 1877.—*Notifications.*—*Commerce and Trade.*—The following translation of a letter, dated the 26th April 1877, addressed to Her Majesty's Consul-General at Cairo by the Egyptian Minister for Foreign Affairs, relative to the establishment of a new light at the port of Berberah and the dues that will be charged to vessels entering that port, is published for general information :—

"With the object of affording easy and safe access to the port of Berberah, the Egyptian Government has caused a light-house to be constructed there which will be established and in working order from the 1st June 1877.

"According to the description of the Controller-General of Ports and Light-houses, it will consist of a fixed dioptric white light of the fourth order, 76 feet above high-water, and visible at a distance of 14 miles.

"It is situated in latitude 10°-23'-0" North, and longitude 45°-7'-0" East of Greenwich.

"The light is on the mainland, and by keeping it open to the Eastward of South (magnetic) the Spit of Ras Tamar will be avoided.

"The construction, maintenance, and service of this light-house, established in the interests of navigation and commerce, are a source of considerable expenditure to the Egyptian Government.

"In accordance with the usual practice for diminishing charges in analogous cases by means of a contribution from those for whose benefit they have been incurred, it has been decided that every sailing ship (*Sambouk*) entering the port of Berberah shall pay the low port due of 15 piastres 16 paras (equal to 4 francs), whatever may be its tonnage, and every steam-ship a port due of 1 piastre (about 25 centimes) per ton.

"I have the honor to inform you of this decision, and to beg you to be good enough to communicate it to those of your Administration whom it may concern."

No. 1844*G.*—*Simla, the 6th July* 1877.—*Notifications.*—*General.*—The following extract from the *London Gazette*, dated 18th May 1877, is published for general information :—

Foreign Office, May 17th, 1877.

The Earl of Derby, Her Majesty's Principal Secretary of State for Foreign Affairs, has received the following despatches from Her Majesty's Consul-General at Odessa and Her Majesty's Consul at Taganrog, forwarding translations of regulations issued by the Russian authorities at the Ports in the Black Sea and Sea of Azof :—

Her Majesty's Consulate-General,
Odessa, May 7th, 1877.

MY LORD,

I HAVE the honor to transmit herewith a Declaration issued by the Commander-in-Chief of the Military District of Odessa, containing regulations for the departure of neutral vessels from Odessa at the present time, and specifying on what conditions they will be allowed to leave should the enemy's fleet appear before the port.

I have, &c.,

(Sd.) G. E. STANLEY.

The Right Honorable the Earl of Derby, Her Majesty's Principal Secretary of State for Foreign Affairs.

(TRANSLATION.)

Declaration.—The Commander of the Troops of the Military District of Odessa, Chief of the Coast Defences of the District, General Aide-de-Camp Séméka, has the honor of notifying that, in consequence of the laying of torpedoes, ships of neutral States requested to withdraw in view of a bombardment cannot do so except on condition of being piloted by Russian officers through the passages left between the torpedoes; but as this operation carried out in the face of the enemy might point out to them the position of these passages and enable them to make use of them, thereby depriving the town of its most important line of defence, General Aide-de-Camp Séméka, in view of a state of affairs new in maritime warfare, and consequently not foreseen by International law, has the honor to request the enemy's ships of war to withdraw out of sight for the time necessary for the removal of neutral ships (namely, for hours), warning them that if they do not agree to this demand, neutral ships will not be allowed out, and the Imperial Russian Government declines all responsibility for the consequences.

Her Britannic Majesty's Consulate,
Taganrog, May 4th, 1877.

MY LORD,

I HAVE the honor to hand herewith a notice sent to me by His Excellency the Governor of Taganrog, who at the same time has given assurance that every assistance will be afforded to foreign vessels of friendly neutral powers on their passage at the respective ports, in order that trade may not be impeded..

I have, &c.,

(Sd.) H. CARRUTHERS.

The Right Honorable the Earl of Derby, Her Majesty's Principal Secretary of State for Foreign Affairs, &c., Foreign Office, London.

(TRANSLATION.)

Approved by the Commander of the Odessa, Military Department, April 12th, 1877.

NOTICE.

From the time of the declaration of war ($\frac{14}{26}$th April 1877) the entrance of, and the departure of vessels from the Port of Odessa, from Liman of the Dnieper, and from the Boug, the Straits of Kertch, and the Bay of Sebastopol, is only permitted subject to the following conditions, which are not provided for by Maritime International law, but which must necessarily arise now that harbours are protected by barring them with mines, the passage through which is kept absolutely secret:—

1. Every vessel on arriving must stop outside the line of mines. Russian officers with a crew will go and meet her; they will assume command of the said vessel and navigate her into the harbour, after having satisfied themselves that the ship's papers are in regular order.

2. The Captain of the said vessel shall engage in writing on behalf of himself and his crew and passengers that, while passing through the line of torpedoes, no person shall remain on the bridge, or watch through portholes or other openings the course followed by the ship.

3. The same rule shall be enforced when merchantmen quit the harbour; that is to say, a Russian officer and crew shall, in conformity with Articles I and II, take command of the said vessels.

4. If a man-of-war should make its appearance at a spot whence it would be possible to watch the entry and departure of vessels, the Russian authorities will insist upon its retiring to a certain distance during a period of time sufficient to navigate a vessel in or out. Until this formality is complied with, no vessel will be allowed to enter or leave.

No. 1845*G.*—The following extract from the *London Gazette*, dated the 29th of May 1877, is published for general information:—

(TRANSLATION.)

Imperial Ottoman Embassy,
London, May 25th, 1877.

MY LORD,

IN continuation of my note of the 12th instant, I have the honor to transmit herewith the Proclamation published by His Excellency the Serdar Ekrem relating to the measures he has taken on the Danube in view of the military operations.

I have, &c.,
(Sd.) MUSURUS.

Sublime Porte.

Proclamation of His Excellency the Serdar Ekrem concerning the measures taken on the Danube.

The Commander of the Forces, making use of the right and power belonging to him, proclaims as follows:—

War having broken out between the Ottoman Empire and Russia, the part of the Danube surrounded by Ottoman soil is considered a line of defence. The rules followed elsewhere with regard to the navigation and commerce of neutral ships shall not be applicable here. Consequently all vessels are prohibited from passing up and down and carrying on commercial operations in this part of the Danube.

The rules relating to spies shall be applied from the 21st of April (old style), in the case of captains and masters of all steam or other ships, large or small, who infringe this prohibition, or do not apply to the authority.

The ships as well as their cargoes shall be seized and confiscated.

Nevertheless, the cargo of ships detained up to the 21st of April on the points of the Danube referred to shall not be liable to seizure if it does not consist of contraband of war.

The present decision is to have a general application. The Civil and Military authorities will attend to its being strictly carried out.

All officers appointed to Her Mejesty's Indian Marine will be considered on probation, subject to confirmation on passing certain professional and lingual tests, which, together with the qualifications to be required for the higher grades, and the periodical examinations to be passed prior to promotion, will be duly notified hereafter.

7. All Marine establishments, dockyards, and vessels on the eastern and western sides of India will respectively be placed under two "Superintendents of Marine," one of whom will reside at Calcutta, and the other at Bombay. These officers will have the rank of captain in Her Majesty's Indian Marine, and will be immediately under the orders of, and responsible to, the Government of India for the discipline, interior economy and efficiency of the establishments, dockyards, and vessels within their respective limits, and over which they will exercise a general control. They will also be the advisers of the local Governments in all subjects connected with marine matters and the establishments in their charge, as well as the channel of communication between local Governments and the vessels at the disposal of those Governments.

8. The Superintendents of Marine will be assisted in the discharge of the duties of their office by such officers and establishments as may be considered necessary.

9. The present titles of Master Attendant, Harbour Master, &c., connected with duties appertaining to the Mercantile Marine and the Board of Trade, or other Local Marine Service, will be abolished, and in lieu such officers will be styled "Port Officers." These appointments will be hereafter clearly enumerated and classified, and, under regulations to be laid down, will be held for fixed periods by selected officers of the Indian Marine, who will, whilst holding such appointments, retain their rank and position in the general list of the service, and be otherwise eligible for promotion, advancement, transfer, &c.

10. The *personnel* of the Marine Service in all classes and grades, wherever employed, will remain under the general control of the Government of India; and such portion as may be placed at the disposal of local Governments and authorities will not be liable to transfer or removal without the previous sanction of the Government of India, except in cases of emergency which are to be immediately reported.

11. Officers and others now holding Marine appointments in India, whether under the orders of the Supreme or local Governments, &c., shall at once become subject to the provisions of the foregoing paragraph, but will in other respects retain their present designations, position, appointments and allowances until it may be otherwise ordered. Those officers now serving who may be selected for Her Majesty's Indian Marine will hereafter be gazetted to the grades and ranks for which the Right Honorable the Governor-General in Council may consider them suitable, and in accordance with their several claims.

12. Pilot establishments, local lights and light-vessels, conservancy of rivers and ports, shipping duties, &c., will not hereafter form part of the Indian Marine Service; such will be placed as far as practicable under local authorities or port or Harbour Commissioners, excepting in regard to the selection of officers for the superior appointments as provided for in the following paragraph.

13. Establishments for services of a permanently local nature, whether on shore or in vessels, on rivers or in harbours, will be recruited as regards the superior appointments from the Indian Marine Service under the conditions of paragraph 9, and all such appointments will be made by the Supreme Government on receipt of a report of the vacancy from the local Government or authority.

14. The native and other subordinate establishments for such local services (within the limits of the amount of charge to be prescribed from time to time by the Government of India) will be appointed or promoted by the local Governments under regulations to be laid down by the Government of India; such subordinate establishments will not, as a rule, be liable to transfer for service in other provinces.

15. For administrative purposes the Indian Marine will, as at present, be under the Military (Marine) Department of the Government of India, and an officer of nautical and local experience will be appointed an Assistant Secretary to the Government of India in the Military (Marine) Department.

16. An Act to provide for the maintenance of discipline in Her Majesty's Indian Marine will be laid before Parliament, and detailed instructions will hereafter be issued in regard to the organization of the Indian Marine and Dockyards, the uniform of officers and men, and the pay, pension, and leave to which they will be entitled. Pending the issue of such instructions all existing orders not hereby altered will remain in full force.

(No. 12.)

HINDOSTAN—WEST COAST.

Position of Cochin Light-house, etc.

NOTICE is hereby given that the light exhibited at Cochin is incorrectly placed on the present Admiralty Charts.

The light-house is situated on a raised mound which formed a bastion of the old fort, and bears south-west from the Flagstaff and Cochin Church, distant 5·4 cables from the former and 2·8 cables from the latter.

The shallow water at the entrance to this river has shifted about a cable to the E.S.E.; the mark now for leading vessels over the bar is the central or largest of the three churches at Ernakolum in line with Builder's (Vypeen) Point.

The buoys marking the shoal water have been moved—the north buoy 2 cables and the south buoy nearly 3 cables in the same direction.

Note.—During the south-west monsoon these buoys are removed, as vessels anchor at Narrakel, about 5 miles to the northward of Cochin, at which place a small light is exhibited from the Flagstaff.

Position of light-house—lat. 9° 57′ 47″ N., long. 76° 13′ 45″ E.

The 10th July 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF CEYLON.

NOTICE TO MARINERS.

Ceylon—South Coast.

BUOY MARKING GINDURAH ROCK.

NOTICE is hereby given that an Iron Buoy, painted red, is laid in 11 fathoms water about two cables length south of the Gindurah Rock. It is laid at this distance from the rock on account of the foul ground in its more immediate vicinity.

As the light-house at Point-de-Galle can be seen before the buoy which marks this rock, and its position can always be depended on, commanders of vessels should take it as the best mark to determine their position in making this port.

Vessels making the port from the westward or northward will, by keeping the light-house on the bearing of E. by N. ½ N., pass about two miles south of the Gindurah Rock, and clear the whales. All is clear and open to the southward of this bearing, which will also give vessels a good fair-way to the pilot grounds.

Vessels wanting a pilot should heave-to with the light-house about N. E. to N. N. E. distant about one mile, which will keep them well clear of the Cadda Rocks, off the entrance to the port.

By direction of the Government of Ceylon,

DAN. BLYTH,
Master Attendant, Galle.

MASTER ATTENDANT'S OFFICE,
GALLE,

2. When a light-vessel is driven from her proper position to one where she is of no use as a guide to shipping, the following signals will be made, viz.

3. The usual lights will not be exhibited, but a fixed red light will be exhibited at each end of the vessel, and a red flare light shown every quarter of an hour. By day the balls or other distinguishing masthead marks will be struck.

CIVIL APPELLATE JURISDICTION

Rules for the Preparation of Paper-books in Regular Appeals.

1 In all regular appeals the Deputy Registrar shall, forthwith upon the receipt of the record, make and print a complete and accurate list of all the papers contained therein in the form given below:—

1	2	3	4	5
Number on the record.	Mark, if any, in the Court below	Description and date of paper on the record	Whether the whole, or portion thereof, is to be inserted in the paper-book	Page in the paper-book.

In these lists columns 4 and 5 will be left blank. Column 4 will be filled in by the parties as hereinafter directed, and column 5 by the officer of the Court. The papers are to be arranged in the order directed by Rule X of the rules of 30th July 1870 as to Privy Council appeals.

2. As soon as this list shall have been prepared, the Deputy Registrar shall deliver one copy thereof to each appellant or set of appellants appearing separately, or to his or their vakeels respectively, free of charge. Further copies shall be supplied to any of the parties to the appeal at the rate of 4 annas a copy.

3. Within fourteen days after receipt of the list above mentioned the appellant or appellants shall deliver to the Deputy Registrar a copy of such list signed by such appellant or appellants or his or their advocate or vakeel shewing, by filling up column 4 of the list, what papers or portions of papers in the record it will be necessary to read at the hearing of the appeal.

4. In such list shall be specified not only the papers forming that portion of the record which is relied upon by the appellant or appellants, but all the papers in the record so far as may be necessary to enable the Court to dispose of the appeal.

5. Notice of such list having been filed shall be forthwith given by the Deputy Registrar to the respondents who have appeared or their vakeels respectively.

6. Any party respondent or his vakeel may without fee inspect, and at his own expense take, a copy of the list filed under Rule 3.

7. Each party respondent shall, within fourteen days after service on him of the notice under Rule 5, deliver to the Deputy Registrar a copy of the list mentioned in Rule 2 shewing, by filling up column 4 of the list, what papers or portions of papers, if any, not marked as necessary in the list furnished by the appellants, he considers it will be necessary to have read at the hearing of the appeal

8. If any respondent considers that any portion of the record marked in the appellant's list is unnecessary, he shall so state by writing in column 4 the word "unnecessary."

9. If any respondent considers that any portion of the record has not been marked as necessary by the appellants, which under Rules 3 and 4 ought to have been so marked, he may, within three days after filing his own list under Rule 7, and on notice to the appellants, apply to the Court to compel the appellants to add that portion to their own list; and if such application be granted, the portion so added shall be struck out of the respondent's list.

10. If no list be filed by any respondent within the time specified, the paper-book will be made up according to the appellant's list.

11. Where several appellants or respondents appear by one advocate or vakeel, one list only shall be filed by each set of parties so appearing.

12. If all or a considerable portion of the necessary papers have already been printed in any former paper-books, the appellant or appellants shall so state in his or their petition of appeal and in the list furnished under Rule 3. Nothing printed in such former paper-book shall, except by special order of Court, be again printed, if sufficient copies of that paper-book be procurable. But copies of the former book shall be annexed to the new book, and a reference shall be made to the page in the former book in which each particular document or deposition is to be found.

13. Immediately upon the receipt of any list filed under Rule 3 or 7, the Deputy Registrar shall make and deliver to the party furnishing it an estimate of the costs of transcribing, translating, printing, and preparing the portions of the record marked in such list as necessary to be read, or added thereto by order of the Court, including the cost of the list prepared under Rule 1. Each party furnishing a list must, within two weeks after the delivery to him or them of such estimate, deposit with the accountant of the Court the whole amount thereof.

14. If it shall be ascertained at any time that the sum deposited by any party will not cover the costs payable in respect of the papers marked as necessary in the list furnished by him, or added thereto by the order of the Court, the difference shall be estimated by the proper officer, and shall be paid within two weeks after demand by such party.

15. In case of any party failing to file the necessary list under Rule 3, or to make the necessary deposit under Rules 13 and 14, in due time, the Deputy Registrar shall at once cause the appeal to be set down before the Division Court to which it belongs; and if the party in default does not satisfy the Court as to his delay, the appeal may be dismissed for want of prosecution, or the Court may pass such other order as it may deem proper

16. If the sum deposited by any party shall exceed the costs for which he is liable under the above rules, the difference shall be refunded as soon as the actual costs incurred are ascertained.

17. The Court may at any time, upon sufficient cause shewn, enlarge the time for furnishing any list or making any deposit required by these rules. Such application for enlargement must be made before the time expires, except in special cases; and it must be supported by an affidavit stating the circumstances under which the delay took place. It must also be accompanied by a certificate of the Deputy Registrar shewing the dates on which the several directions herein contained have been complied with, which certificate the Deputy Registrar shall grant upon payment of a fee of Rs. 2.

18. A separate account shall be kept of the costs of the list prepared under Rule 1, and of transcribing, translating, and printing the papers contained in each list.

19. The Deputy Registrar shall cause the portions of the record in respect of which the proper deposit has been made to be (where necessary) translated into English, and shall cause the same to be printed; and this, together with such lists as aforesaid, shall form the paper-book to be used by the Court at the hearing of the appeal.

20. If there be separate appeals against the same judgment, complete lists shall be filed by the parties in each appeal; and the Deputy Registrar shall, subject to the order of the Court, determine in what proportions the deposits are to be made. Nothing shall be printed twice over; but references shall be inserted in the proper places showing where the several portions elsewhere printed are to be found.

21. No portion of the record which is not contained in the paper-book shall be read at the hearing of the appeal without the special leave of the Court. If such special leave be granted, it shall be competent to the Court to order such portion to be translated and transcribed, or printed at the cost of the party requiring the same to be read.

22. The costs of transcribing, translating, printing, and preparing the paper-book, including the cost of the list prepared under Rule 1, shall be costs in the appeal, unless the Court hearing the appeal shall otherwise direct.

23. The Court may, upon the application of any party, and upon good and sufficient cause shewn, give such special directions as to any of the matters to which these rules relate as may seem fit, and may by special order exempt any party from the operation of any portion of these rules: provided always that the list, as directed by Rules 3 and 7, must be filed in all cases, unless the party can satisfy the Court that he is unable to prepare the list himself, and that he is without any professional assistance in the litigation.

24. It shall be open to any party, at any time before the translations are completed to deposit the amount necessary for defraying the expenses of examination of the translations before the same are printed, such amount being fixed by the Deputy Registrar; and, upon such deposit being made, the translations will be examined in the same way that the translations in cases appealed to the Privy Council are examined, by one of the Examiners of the Court appointed for the purpose and certified accordingly. The amount so deposited will be allowed as cost to the party making the deposit, if the Court shall so order.

25. Upon special application and deposit of the extra costs, the record will be printed in the form directed by the Privy Council.

26. In ordinary cases 25 copies of the paper-book will be printed, but the Deputy Registrar may at his discretion increase the number. Two copies of the paper-book may be obtained by each party appellant appearing separately free of charge.

27. As soon as the paper-book is ready for delivery to the parties, the case shall be inserted by the Deputy Registrar in a list to be hung up in the usual places; and the case shall not be inserted in the peremptory daily list of cases until four days after its insertion in the first of the above-mentioned lists.

28. Appeals against admissions of or refusals to admit a will to probate shall be considered as regular appeals within the meaning of these rules.

29. Every paper-book shall have printed on the cover a statement of the amount of costs incurred by each party in respect thereof.

30. These rules shall apply to all regular appeals filed on and after the 1st day of August 1877, from which date the rules of the 15th September 1875 shall be superseded.

(*a*).—*The Plaint.*

Note.—Lengthy schedules and descriptions of boundaries appended to plaints may be omitted.

(*b*).—*The Plaintiff's written Statement, if any.*

(*c*).—*The Defendant's written Statement.*

Note.—When there are several sets of defendants in a suit, the written statements of defendants not parties to the special appeal either as appellants or respondents may be omitted.

(*d*).—*The Judgment of the First Court.*

(*e*).—*The Judgment of the Lower Appellate Court.*

(*f*).—*Any Judgments or Orders of Remand passed in the case either by the Lower Appellate Court on appeal or by the High Court on special appeal.*

(*g*).—*The Memorandum of Special Appeal.*

(*h*).—*A front leaf* containing the number of the cause, names of the Judges of the two Courts below, names of the parties and of their vakeels, date of the institution of the suit, date of the judgment of the First Court, date of the judgment of the Lower

Appellate Court, date on which the special appeal was filed, date of service of notice upon the respondents, and date on which the cause was ready for hearing.

II. In each case of special appeal the Deputy Registrar will cause to be printed 12 copies of the paper-book as aforesaid.

III. The appellant, at the time of filing the Memorandum of Special Appeal, and the respondent, at the time of entering appearance through a vakeel or attorney of the High Court, shall each of them deposit with the Accountant the sum of Rs. 7-8, and shall each of them be entitled to one copy of the paper-book free of charge.

IV. If it shall be ascertained at any time that the sum deposited in any case will not cover the actual costs incurred, the difference shall be deposited by the appellant within two weeks after demand.

V. In case of any party failing to make the necessary deposit under Rule IV, the Deputy Registrar shall at once cause the appeal to be set down before the Division Court to which it belongs; and if the party does not satisfy the Court as to his delay, his appeal may be dismissed for want of prosecution, or the Court may pass such other order as it may deem proper.

VI. When the cause is ready for hearing, the Deputy Registrar will furnish the vakeels or attorneys engaged on either side with copies of the paper-book, for which deposit shall have been made as aforesaid. The issue of paper-books to the vakeels or attorneys will be notice to them that the case is ready for hearing.

VII. No Memorandum of special appeal filed through a vakeel or attorney of the High Court, nor a *first* vakalutnamah or power-of-attorney for the appearance of the respondents, will be admitted or received, unless, at the time of presentation, the deposit has been made with the Accountant under Rule III.

Provided that any second or other vakalutnamah or power-of-attorney for the appointment of new vakeels or attorneys, or reappointment of former vakeels or attorneys by representatives of deceased parties, may be filed without such deposit.

VIII. An account shall be kept of so much of the actual cost of preparing and printing the paper-book in each special appeal as is chargeable to the parties, and the appellant and respondent shall be each of them entitled to a refund in equal shares of the excess of the sum paid by them jointly over the said actual costs.

IX. Additional paper-books supplied at the request of the parties shall be charged for.

X. In analogous cases governed by one judgment, the Court on application will make a special order.

XI. The Court may, upon the application of any party, and upon good and sufficient reason shewn, give such special directions as to any of the matters to which these rules relate as may seem fit; and may by special order exempt any party from the operation of any portion of these rules.

XII. These rules shall apply to all special appeals filed on and after the 1st day of August 1877, from which date the rules of the 12th March 1874 shall be superseded.

For Regulating the Time and Mode of Collecting Taxes.

1. Every officer authorized to collect taxes of any kind and grant receipts shall be provided with a certificate of such authority bearing the seal of the Municipality and signature of the Chairman. Every collecting officer at the time of demanding or receiving payment shall be bound to show this certificate, if required. On the suspension or dismissal of a collecting officer, the Vice-Chairman shall take back his certificate, and so destroy it that no future use can be made of it by any one.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in section 367 of the Act. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20: provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer at his discretion to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

PART II.

LIMITATION OF SUITS, APPEALS, AND APPLICATIONS.

Dismissal of suits, &c., instituted, &c., after period of limitation.

4. Subject to the provisions contained in sections 5 to 25 (inclusive), every suit instituted, appeal presented, and application made after the period of limitation prescribed therefor by the second schedule hereto annexed shall be dismissed, although limitation has not been set up as a defence.

Explanation.—A suit is instituted in ordinary cases when the plaint is presented to the proper officer; in the case of a pauper, when his application for leave to sue as a pauper is filed; and in the case of a claim against a company which is being wound up by the Court, when the claimant first sends in his claim to the official liquidator.

Illustrations.

(*a*) A suit is instituted after the prescribed period of limitation. Limitation is not set up as a defence and judgment is given for the plaintiff. The defendant appeals. The appellate court must dismiss the suit.

(*b*.) An appeal presented after the prescribed period is admitted and registered. The appeal shall, nevertheless, be dismissed.

Proviso where Court is closed when period expires.

5. If the period of limitation prescribed for any suit, appeal, or application expires on a day when the Court is closed, the suit, appeal, or application may be instituted, presented or made on the day that the Court re-opens:

Proviso as to appeals and applications for review.

Any appeal or application for a review of judgment may be admitted after the period of limitation prescribed therefor, when the appellant or applicant satisfies the Court that he had sufficient cause for not presenting the appeal or making the application within such period.

Special and local laws of limitation.

6. When, by any special or local law now or hereafter in force in British India, a period of limitation is specially prescribed for any suit, appeal, or application, nothing herein contained shall affect or alter the period so prescribed.

Legal disability.

7. If a person entitled to institute a suit or make an application be, at the time from which the period of limitation is to be reckoned, a minor, or insane, or an idiot, he may institute the suit or make the application within the same period, after the disability has ceased, as would otherwise have been allowed from the time prescribed therefor in the third column of the second schedule hereto annexed.

Double and successive disabilities.

When he is, at the time from which the period of limitation is to be reckoned, affected by two such disabilities, or when before his disability has ceased he is affected by another disability, he may institute the suit or make the application within the same period after both disabilities have ceased as would otherwise have been allowed from the time so prescribed.

When his disability continues up to his death, his legal representative may institute the suit or make the application within the same period after the death as would otherwise have been allowed from the time so prescribed.

Disability of representative.

When such representative is at the date of the death affected by any such disability, the rules contained in the first two paragraphs of this section shall apply.

Nothing in this section applies to suits to enforce rights of pre-emption, or shall be deemed to extend, for more than three years from the cessation of the disability or the death of the person affected thereby, the period within which any suit must be instituted or application made.

Illustrations.

(*a*.) The right to sue for the hire of a boat accrues to A during his minority. He attains majority four years after such accruer. He may institute his suit at any time within three years from the date of his attaining majority.

(*b*.) A, to whom a right to sue for a legacy has accrued during his minority, attains majority eleven years after such accruer. A has, under the ordinary law, only one year remaining within which to sue. But under this section an extension of two years will be allowed him, making in all a period of three years from the date of his attaining majority, within which he may bring his suit.

(*c*.) A right to sue accrues to Z during his majority. After the accruer, but while Z is still a minor, he becomes insane. Time runs against Z from the date when his insanity and minority cease.

(*d*.) A right to sue accrues to X during his minority. X dies before attaining majority and is succeeded by Y, his minor son. Time runs against Y from the date of his attaining majority.

(*e*.) A right to sue for an hereditary office accrues to A, who at the time is insane. Six years after the accruer A recovers his reason. A has six years, under the ordinary law, from the date when his insanity ceased within which to institute a suit. No extension of time will be given him under this section.

(*f*.) A right to sue as landlord to recover possession from a tenant accrues to A, who is an idiot. A dies three years after the accruer, his idiocy continuing up to the date of his death. A's representative in interest has, under the ordinary law, nine years from the date of A's death within which to bring a suit. This section does not extend that time, except where the representative is himself under disability when the representation devolves upon him.

Disability of one joint creditor.

8. When one of several joint creditors or claimants is under any such disability, and when a discharge can be given without the concurrence of such person, time will run against

them all: but where no such discharge can be given, time will not run as against any of them until one of them becomes capable of giving such discharge without the concurrence of the others.

Illustrations.

(*a.*) A incurs a debt to a firm of which B, C, and D are partners. B is insane and C is a minor. D can give a discharge of the debt without the concurrence of B and C. Time runs against B, C, and D.

(*b.*) A incurs a debt to a firm of which E, F, and G are partners. E and F are insane and G is a minor. Time will not run against any of them until either E or F becomes sane or G attains majority.

Continuous running of time.

9. When once time has begun to run, no subsequent disability or inability to sue stops it:

Provided that where letters of administration to the estate of a creditor have been granted to his debtor, the running of the time prescribed for a suit to recover the debt shall be suspended while the administration continues.

Suits against express trustees and their representatives.

10. Notwithstanding anything hereinbefore contained, no suit against a person in whom property has become vested in trust for any specific purpose, or against his legal representatives or assigns (not being assigns for valuable consideration) for the purpose of following in his or their hands such property, shall be barred by any length of time.

Suits on foreign contracts.

11. Suits instituted in British India on contracts entered into in a foreign country are subject to the rules prescribed by this Act.

Foreign limitation law.

No foreign rule of limitation shall be a defence to a suit instituted in British India on a contract entered into in a foreign country, unless the rule has extinguished the contract, and the parties were domiciled in such country during the period prescribed by such rule.

PART III.

COMPUTATION OF PERIOD OF LIMITATION.

Exclusion of day on which right to sue accrues.

12. In computing the period of limitation prescribed for any suit, appeal or application, the day from which such period is to be reckoned shall be excluded.

Exclusion in case of appeals and certain applications.

In computing the period of limitation prescribed for an appeal, an application for leave to appeal as a pauper, and an application for a review of judgment, the day on which the judgment complained of was pronounced, and the time requisite for obtaining a copy of the decree, sentence, or order appealed against or sought to be reviewed, shall be excluded.

Where a decree is appealed against or sought to be reviewed, the time requisite for obtaining a copy of the judgment on which it is founded shall also be excluded.

In computing the period of limitation prescribed for an application to set aside an award, the time requisite for obtaining a copy of the award shall be excluded.

Exclusion of time of defendant's absence from British India.

13. In computing the period of limitation prescribed for any suit, the time during which the defendant has been absent from British India shall be excluded.

Exclusion of time of proceeding *bonâ fide* in Court without jurisdiction.

14. In computing the period of limitation prescribed for any suit, the time during which the plaintiff has been prosecuting with due diligence another civil proceeding, whether in a Court of first instance or in a Court of appeal, against the defendant shall be excluded, where the proceeding is founded upon the same cause of action, and is prosecuted in good faith in a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to entertain it.

Like exclusion in case of order under Civil Procedure Code, section 20.

In computing the period of limitation prescribed for a suit proceedings in which have been stayed by order under the Code of Civil Procedure, section 20, the interval between the institution of the suit and the date of so staying proceedings, and the time requisite for going from the Court in which proceedings are stayed to the Court in which the suit is re-instituted, shall be excluded.

Like exclusion in case of application.

In computing the period of limitation prescribed for any application, the time during which the applicant has been making another application for the same relief shall be excluded, where the last-mentioned application is made in good faith to a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to grant it.

Explanation 1.—In excluding the time during which a former suit or application was pending or being made, the day on which that suit or application was instituted or made, and the day on which the proceedings therein ended, shall both be counted.

Explanation 2.—A plaintiff resisting an appeal presented on the ground of want of jurisdiction shall be deemed to be prosecuting a suit within the meaning of this section.

Exclusion of time during which commencement of suit is stayed by injunction or order.

15. In computing the period of limitation prescribed for any suit, the institution of which has been stayed by injunction or order, the time of the continuance of the injunction or order, the day on which it was issued or made, and the day on which it was withdrawn, shall be excluded.

Exclusion of time during which judgment-debtor is attempting to set aside execution sale.

16. In computing the period of limitation prescribed for a suit for possession by a purchaser at a sale in execution of a decree, the time during which the judgment-debtor has been prosecuting a proceeding to set aside the sale shall be excluded.

17. When a person who would, if he were living, have a right to institute a suit or make an application, dies before the right accrues, the period of limitation shall be computed from the time when there is a legal representative of the deceased capable of instituting or making such suit or application.

Effect of death before right to sue accrues.

When a person against whom, if he were living, a right to institute a suit or make an application would have accrued dies before the right accrues, the period of limitation shall be computed from the time when there is a legal representative of the deceased against whom the plaintiff may institute or make such suit or application.

Nothing in the former part of this section applies to suits to enforce rights of pre-emption or to suits for the possession of immoveable property or of an hereditary office.

18. When any person having a right to institute a suit or make an application has, by means of fraud, been kept from the knowledge of such right or of the title on which it is founded,

Effect of fraud.

or where any document necessary to establish such right has been fraudulently concealed from him,

the time limited for instituting a suit or making an application

(*a*) against the person guilty of the fraud or accessory thereto, or,

(*b*) against any person claiming through him otherwise than in good faith and for a valuable consideration,

shall be computed from the time when the fraud first became known to the person injuriously affected thereby, or, in the case of the concealed document, when he first had the means of producing it or compelling its production.

19. If, before the expiration of the period prescribed for a suit or application in respect of any property or right, an acknowledgment of liability in respect of such property or right has been made in writing signed by the party against whom such property or right is claimed, or by some person through whom he derives title or liability, a new period of limitation, according to the nature of the original liability, shall be computed from the time when the acknowledgment was so signed.

Effect of acknowledgment in writing.

When the writing containing the acknowledgment is undated, oral evidence may be given of the time when it was signed; but oral evidence of its contents shall not be received.

Explanation 1.—For the purposes of this section an acknowledgment may be sufficient, though it omits to specify the exact nature of the property or right, or avers that the time for payment, delivery, performance, or enjoyment has not yet come, or is accompanied by a refusal to pay, deliver, perform, or permit to enjoy, or is coupled with a claim to a set-off, or is addressed to a person other than the person entitled to the property or right.

Explanation 2.—In this section "signed" means signed either personally or by an agent duly authorized in this behalf.

20. When interest on a debt or legacy is, before the expiration of the prescribed period, paid as such by the person liable to pay the debt or legacy, or by his agent duly authorized in this behalf,

Effect of payment of interest as such.

or when part of the principal of a debt is, before the expiration of the prescribed period, paid by the debtor or by his agent duly authorized in this behalf,

Effect of part-payment of principal.

a new period of limitation, according to the nature of the original liability, shall be computed from the time when the payment was made:

Provided that, in the case of part-payment of the principal of a debt, the fact of the payment appears in the hand-writing of the person making the same.

Where mortgaged land is in the possession of the mortgagee, the receipt of the produce of such land shall be deemed to be a payment for the purpose of this section.

Effect of receipt of produce of mortgaged land.

21. Nothing in sections 19 and 20 renders one of several joint contractors, partners, executors, or mortgagees chargeable by reason only of a written acknowledgment signed, or of a payment made by, or by the agent of, any other or others of them.

One of several joint contractors, &c., not chargeable by reason of acknowledgment or payment made by another of them.

22. When, after the institution of a suit, a new plaintiff or defendant is substituted or added, the suit shall, as regards him, be deemed to have been instituted when he was so made a party:

Effect of substituting or adding new plaintiff or defendant.

Provided that when a plaintiff dies, and the suit is continued by his legal representative, it shall, as regards him, be deemed to have been instituted when it was instituted by the deceased plaintiff:

Proviso where original plaintiff dies.

Provided also that when a defendant dies, and the suit is continued against his legal representative, it shall, as regards him, be deemed to have been instituted when it was instituted against the deceased defendant.

Proviso where original defendant dies.

23. In the case of a continuing breach of contract and in the case of a continuing wrong independent of contract, a fresh period of limitation begins to run at every moment of the time during which the breach or the wrong, as the case may be, continues.

Continuing breaches and wrongs.

24. In the case of a suit for compensation for an act which does not give rise to a cause of action unless some specific injury actually results therefrom, the period of limitation shall be computed from the time when the injury results.

Suit for compensation for act not actionable without special damage.

Illustrations.

(*a*.) A owns the surface of a field. B owns the subsoil. B digs coal thereout without causing any immediate apparent injury to the surface, but at last the surface subsides. The period of limitation in the case of a suit by A against B runs from the time of the subsidence.

(*b.*) A speaks and publishes of B slanderous words not actionable in themselves without special damage caused thereby. C in consequence refuses to employ B as his clerk. The period of limitation in the case of a suit by B against A for compensation for the slander does not commence till the refusal.

Computation of time mentioned in instruments.

25. All instruments shall, for the purposes of this Act, be deemed to be made with reference to the Gregorian calendar.

Illustrations.

(*a*) A Hindu makes a promissory note bearing a Native date only, and payable four months after date. The period of limitation applicable to a suit on the note runs from the expiry of four months after date computed according to the Gregorian calendar.

(*b.*) A Hindu makes a bond, bearing a Native date only, for the repayment of money within one year. The period of limitation applicable to a suit on the bond runs from the expiry of one year after date computed according to the Gregorian calendar.

PART IV.

ACQUISITION OF OWNERSHIP BY POSSESSION.

Acquisition of right to easements.

26. Where the access and use of light or air to and for any building have been peaceably enjoyed therewith, as an easement and as of right, without interruption, and for twenty years,

and where any way or watercourse, or the use of any water, of any other easement (whether affirmative or negative) has been peaceably and openly enjoyed by any person claiming title thereto as an easement and as of right, without interruption, and for twenty years,

the right to such access and use of light or air, way, watercourse, use of water or other easement, shall be absolute and indefeasible.

Each of the said periods of twenty years shall be taken to be a period ending within two years next before the institution of the suit wherein the claim to which such period relates is contested.

Explanation.—Nothing is an interruption within the meaning of this section, unless where there is an actual discontinuance of the possession or enjoyment by reason of an obstruction by the act of some person other than the claimant, and unless such obstruction is submitted to or acquiesced in for one year after the claimant has notice thereof and of the person making or authorizing the same to be made.

Illustrations.

(*a.*) A suit is brought in 1881 for obstructing a right of way. The defendant admits the obstruction, but denies the right of way. The plaintiff proves that the right was peaceably and openly enjoyed by him, claiming title thereto as an easement and as of right, without interruption, from 1st January 1860 to 1st January 1880. The plaintiff is entitled to judgment.

(*b.*) In a like suit also brought in 1881 the plaintiff merely proves that he enjoyed the right in manner aforesaid from 1858 to 1878. The suit shall be dismissed, as no exercise of the right by actual user has been proved to have taken place within two years next before the institution of the suit.

(*c.*) In a like suit the plaintiff shows that the right was peaceably and openly enjoyed by him for twenty years. The defendant proves that the plaintiff on one occasion during the twenty years had asked his leave to enjoy the right. The suit shall be dismissed.

Exclusion in favour of reversioner of servient tenement.

27. Provided that, when any land or water upon, over, or from which any easement has been enjoyed or derived has been held under or by virtue of any interest for life or any term of years exceeding three years from the granting thereof, the time of the enjoyment of such easement during the continuance of such interest or term shall be excluded in the computation of the said last-mentioned period of twenty years, in case the claim is, within three years next after the determination of such interest or term, resisted by the person entitled, on such determination, to the said land or water.

Illustration.

A sues for a declaration that he is entitled to a right of way over B's land. A proves that he has enjoyed the right for twenty-five years; but B shows that during ten of these years C, a Hindu widow, had a life interest in the land, that on C's death B became entitled to the land, and that within two years after C's death he contested A's claim to the right. The suit must be dismissed, as A, with reference to the provisions of this section, has only proved enjoyment for fifteen years.

Extinguishment of right to property.

28. At the determination of the period hereby limited to any person for instituting a suit for possession of any property, his right to such property shall be extinguished.

NOTIFICATION.

The 19th July 1877.—In supersession of the Notification published under the provisions of Section 69 of the Indian Registration Act (VIII, 1871,) in the *Calcutta Gazette* of the 24th December 1873, the following rules, which have been prepared under the provisions of Section 69 of Act III, 1877, and have been approved by the Lieutenant-Governor, are hereby published for general information.

2. These rules will have effect in the provinces under the Lieutenant-Governor of Bengal from and after the 1st January 1878.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

Rules framed under Section 69 of Act III of 1877 (the Indian Registration Act) and sanctioned by the Government of Bengal.

Leave and Appointments.

Changes of incumbency to be reported.

1. REGISTRARS and Sub-Registrars, on giving or receiving charge of their respective offices, shall report the fact to the Inspector-General in the form given in Rule 120 below. In the case of Sub-Registrars, such reports shall be made through the District Registrar.

Temporary appointments to be reported.

2. Whenever a District Registrar makes a temporary appointment under section 12, he shall at once report the fact to the Inspector-General.

3. When a Sub-divisional Officer goes on tour, it is usually undesirable that he should carry the sub-registry office about with him. He should ordinarily make over charge to his Sub-Deputy Collector or to the Mobnsif: in the latter case, the assent of the Registrar and of the District Judge must first be obtained.

4. The report referred to in section 13 shall be submitted to Government by the Inspector-General at the end of each month.

5. Head-quarter Sub-Registrars having been permanently placed in charge of district registry offices under section 7 of the Act, clause 2, temporary appointments under section 11 need only be reported when some person other than the Special Sub-Registrar is appointed to perform the duties of the Registrar during his absence.

Registrar may assume charge of the office of absent Sub-Registrar.

6. When a Sub-Registrar is absent, or his office is temporarily vacant, if the District Registrar is unable to appoint a suitable substitute, he may himself assume charge of the sub-registry office until the return of the Sub-Registrar or appointment of a successor; and in such cases the extra or additional fee chargeable for registration by a Registrar under section 30 (*a*) shall not be charged upon registrations effected during the absence of the Sub-Registrar.

Leave to rural Sub-Registrars.

7. Rural Sub-Registrars are not subject to the uncovenanted leave rules. It is a condition of their appointment that they should reside at the head-quarters of their jurisdiction; leave should therefore be seldom required, and should be given only in cases of urgent necessity. When the leave asked for does not exceed one month, the Registrar is competent to grant the application and appoint a substitute. All leave exceeding one month, and every extension of leave which will prolong the period of absence beyond one month, must receive the previous sanction of the Inspector-General.

All leave granted to rural Sub-Registrars shall be at once reported to the Inspector-General, and included by him in the monthly report submitted to Government under rule 4.

Seals.

Section 15.

8. The seals of District Registrars and Deputy Registrars made under section 12 of Act XVI of 1864 shall be taken to be seals of Registrars and Sub-Registrars under this Act. The seal shall always remain in the personal custody of the registering officer.

9. The following languages shall be considered to be commonly used in the districts named, viz.—

In the Orissa Division—English, Bengali, Hindustani, and Uriya.

Copies of Bengali, Uriya, or Hindi documents sent to other presidencies.

10. When a copy of a Bengali, Uriya, or Hindi document is forwarded, under section 65 of the Act, to a Registrar in another presidency, it shall be accompanied by information in English respecting the names and additions of all persons executing and claiming under it, and a description of the property situated in the Registrar's district sufficient for its identification.

11. A power-of-attorney intended for use in another presidency, if authenticated in Bengali, Uriya, or Hindi, by an officer unacquainted with English, may, if the parties desire it, be forwarded by him to the District Registrar for the endorsement on it of an English translation of the authentication.

12. A power-of-attorney authenticated in a language unknown to a registering officer to whom it may be presented may, if the parties desire it, be by him submitted to the Registrar or Inspector-General of Registration, Bengal, as the case may be, who will procure an English translation of the authentication.

Maps or Plans—(Section 21).

13. The territorial divisions to be recognized under section 21 (*b*) shall be registration districts, sub-districts, and thanas; also pergunnahs and mouzahs, where they are known, and collectorate districts, if different from registration districts.

20. It shall be competent to a registering officer to examine the commissioner personally in his office touching any of the circumstances connected with the discharge of his commission, especially with reference to the voluntary nature of the admission of execution.

21. All applications for visits under sections 31, 33, or 38, or for the issue of commissions under section 33 or 38, shall be accompanied by the amount of fees chargeable, as well as the amount of travelling allowance claimable by the registering officer or commissioner.

22. A separate commission fee shall be charged upon every signature which requires attestation, but travelling allowance shall only be charged for the actual distance travelled: Provided that where two or more persons who execute the same document (or documents *relating to the same transaction*) reside together, only one commission fee shall be charged, so far as those persons are concerned.

(7) That it has been presented by a person authorized to do so (section 32).

Certificate of admissibility.

48. The endorsement referred to in the preceding rule shall invariably be recorded in the handwriting of the registering officer.

49. When a person who cannot write signs his name by means of a mark, his name shall be recorded at length, and the writer of the name shall also sign his own name in attestation that the said mark was affixed in his presence.

50. Whenever a registering officer administers an oath, he shall record the evidence of the witness examined on a separate sheet of paper, and a note of the fact should be endorsed on the deed itself.

51. When a document is presented which has only been executed by some of the parties to it, the other executants may attend and execute the document and admit their execution without the payment of any further fee, so long as the certificate of registration under section 60 has not been endorsed thereon ; but if the registration of the document has been completed, it must be presented afresh for registration and a second fee shall be payable.

Document to be copied after admission.

52. When all the persons executing a document, or their representatives, assigns, or agents, have appeared and admitted its execution, the document shall be copied in the register.

53. When two or more copies of the same document are brought for registration at the same time, it shall not be necessary to enter the document more than once in the register, but all the endorsements shall be written upon each copy.

55. When there is not room on a document for the necessary endorsements, they shall be made on a separate quarter sheet of hand-laid medium paper, which should be supplied by the office, and attached to the document, a note being at the same time made on the document itself and signed by the registering officer. Every piece of paper so added must bear the seal of the registering officer and be signed and dated by him.

Final endorsement.

56. When a document has been copied and compared, the registering officer shall proceed to make, in the following form, the endorsement required by section 60 :—

"Registered in Book , volume , page , being No. for 187 ."

Register Books.

Copyist and comparer to sign their names.

57. The register copy of every document shall be compared with the original by some person other than the copyist, and both the copyist and the comparer shall append their signatures. The registering officer shall authenticate by his initials all corrections in the copy and all notes which may be necessary under section 20 of the Act. He shall also affix his initials to each page, and shall certify with his full signature each copy to be a true one, and shall date such certificate with his own hand. The copier in his signature should use the word "copied;" the comparer will use the word "compared."

58. No erasures shall be made with a knife in any register-book, but mistakes shall be corrected when necessary with the pen, and shall invariably be attested by the registering officer. All interlineations and corrections in the register books shall be made in red ink when the entries are in black ink, and in black ink when the entries are made in red ink.

59. The register books shall have two margins. On the left-hand margin shall be copied in red ink the value of the stamp, the certificate of admissibility under rule 43, and all the endorsements made in the office; in the centre shall be copied the deed itself in black ink, and the right-hand margin shall be left vacant for notes under

section 20 and rule 136. The stamp-vendor's endorsement on each document shall be copied in red ink in the registers in the centre of the page below the copy of the document itself.

60. Several volumes of Register Books I and IV may, if necessary, be kept in use simultaneously, when the documents registered are so numerous as to make this course necessary. Register Books II, III, and V shall be continued from year to year until they are full, and in small offices where the number of documents registered is inconsiderable, the same volume of Register Books I and IV may also be used for two or more years.

Certificate of closure.

61. When a book is closed, a certificate to that effect shall be appended at the close of the written portion, and a certificate showing the number of pages written upon shall be entered on the first page.

62. When, owing to omission or error in any document which has been registered, a supplementary document rectifying such mistake or omission is presented for registration, a note of such rectification shall be made in the margin of the register in which the original document is registered.

63. When a document occupies more than one sheet of paper, the seal and the signature of the registering officer shall be attached to every sheet.

Refusal of Registration.

Documents inadmissible on presentation.

64. If [rule 42 (1)] the deed has not been presented in the proper office, it shall be simply returned to the presenting party. In this case no entry need be made in Book II.

65. If [rule 42 (2)] the stamp is incorrect, the deed shall be impounded and forwarded to the Collector (section 23 of the General Stamp Act).

Note.—If the executant of a deed who is in doubt about the proper stamp consults a registering officer on the subject before formal presentation, the required information may be given to him without impounding the deed. But any deed formally presented with an insufficient stamp must be impounded.

66. If rules 42 (3) to (7) have not been complied with, or if the presenting party refuses to pay the proper fee, the deed must be returned at once to the presenting party with the endorsement—

"Registration refused,"

an entry being made at the same time in Book II.

Note.—Orders under this rule may be deferred at the request of the parties in order to enable them to comply with the requirements of the law, or for a reference to the Registrar under section 24. But in such cases an order of refusal shall be passed if the requirements of the law have not been complied with within eight months from the date of execution.

67. A Sub-Registrar is not authorized by law to refuse to register a document because he is directly or indirectly interested in the transaction to which it relates; but he will always advise the parties to present such a document at some other office. If the document relate to moveable property only, such other office may be the office of any Sub-Registrar under the same local Government at which all the parties may desire the document to be registered. If the document relate to immoveable property, such other office will (unless the parties prefer to resort to the Registrar of Calcutta) be the office of the Registrar of the district. The latter officer will (as by the note of Article K of the Table of Fees already provided) register such document without charging the usual extra fee. If the parties, thus advised, insist on the Sub-Registrar registering a document in which he is interested, he must do so. In this case he will report the fact for the information of the District Registrar to whom he is subordinate.

Refusal of duly presented documents.

68. The circumstances under which a document should at once be refused *on presentation* are given in rules 64-66. A document *duly presented and accepted* for the purpose of inquiry will not be admitted to registration under the following circumstances: –

(1) If one or more of the executing parties deny execution. (Section 35.)

(2) If one or more of the executing parties fail to appear and to admit execution. (Section 35.)

(3) If a person by whom the document purports to be executed be dead, and his representative or assign deny execution. (Section 35.)

(4) If a person purporting to have executed the document appear to be a minor, an idiot, or a lunatic. (Section 35.)

(5) If the registering officer be not satisfied of the identity of any person appearing before him and alleging that he executed the document. (Section 35.)

(6) If the registering officer be not satisfied as to the truth of the allegation that a person who executed the document is dead. (Section 35.)

(7) If the admitting agent's power-of-attorney has not been made in accordance with the Act, or if an alleged representative or assign has failed to prove his *status*. (Section 35.)

69. In cases (1) and (4) registration must be at once refused. In cases (2), (3), (5), (6), (7) the order of refusal should ordinarily be deferred till eight months have elapsed from the date of execution. But if the parties declare their inability to comply with the requirements of the law, or for any other reason wish that the document should at once be refused and returned to them, this may be done.

Reasons of refusal to be clearly stated.

70. The reasons of refusal must be recorded by the registering officer with his own hand in Book II, and the particulars should be fully and clearly stated in each case. When one out of several executants declines to comply with the requirements of the law, his name should be given; when the registering officer is doubtful as to the identity of a party admitting execution, the grounds of his suspicion should be stated.

Copies and Memoranda.

71. In addition to the bound volumes of Register Book I, every Sub-Registrar shall keep a file-book, in which he will file the memoranda of registered documents which have been forwarded to his office under sections 64, 65, and 66 of the Act.

Similarly, Registrars shall keep *two* separate file-books—one for memoranda and one for copies under sections 65, 66, and 67 of the Act. These papers shall be bound into a volume, or volumes, of convenient size at the end of the year. They shall be numbered consecutively, but in a series distinct from that of original registrations in Register Book I.

72. Copies shall be made on paper of the same size and description as that of the bound books. Memoranda shall be drawn up in the prescribed form.

73. Memoranda for sub-districts in another district shall be enclosed to the Registrar of that district, together with the copy required for his own office; but no memorandum need make mention of any property other than that which is situated in the sub-district to which the memorandum is to be sent.

74. When a copy of a document is sent to the Registrar of another district under sections 65-67 of the Act, a memorandum need not be sent to any Sub-Registrar whose office has been amalgamated with that of the Registrar of such district.

75. The date on which copies and memoranda are despatched under the last rule shall be entered in the right-hand margin of the book in which the document has been copied.

Receipts for copies and memoranda.

76. When a memorandum or copy under sections 64-67 is transmitted from one office to another, it shall be accompanied by a receipt in the prescribed printed form, which shall at once be signed and returned by the receiving officer. If delay occurs in the return of the receipt, the despatching officer should takeed for it. All such receipts, when returned, should be filed separately.

Copies and translations of documents in foreign language.

77. The copies and translations of documents required to be filed under sections 19 and 62 shall be made upon hand-laid medium paper. They shall be kept in a separate file, a reference being made to this in the right-hand margin of the page on which the translation is copied in the register book. The file shall be bound from time to time, when it contains a sufficient number of copies and translations to form a volume. For the purposes of this rule the requisite paper may be sold to the public at one anna per sheet.

83. English indexes shall be kept according to the letters of the alphabet, the entries under each letter being arranged according to the vowel of the first syllable if the word begins with a consonant, or according to the second vowel in the word if it begins with a vowel.

Transliteration

84. If the documents to be indexed are written or executed in English, the names of the persons and places shall be spelt in the same way in which they are written in the documents. If the documents are written or executed in a vernacular language, the spelling shall be regulated according to Professor H. H. Wilson's system of transliteration, as modified by the Syndicate of the Calcutta University.

Family name.

85. In the case of Europeans the surname shall be taken as the index word. All native names shall be indexed according to their first letters as they stand in the deed.

They will be transliterated in the same form in which they are written in the document. Thus in Bengali the same affix may be written, either Bánirjya or Bandopadhyây, and whichever of these forms is used in the document will be retained and transliterated.

86. When a document is executed on behalf or in favour of Government, the index entry shall be made under *G, Government*, the name of the officer executing the document being entered in the column headed *Addition;* if on behalf or in favour of the Court of Wards, under *W, Wards, Court of;* and in the case of any other Court, under *C.* The names of companies shall be entered as they stand, the article only being omitted; thus *Land Mortgage Bank of India, Limited*, under *L; Ganges Steam Navigation Company, Limited*, under *G.*

87. The name of the depositor of a sealed cover shall be entered in Index III, in black ink. The name and addition of persons claiming under

a will or authority to adopt, *which will be indexed after the death of the testator or donor*, should be entered in red ink.

Two or more names in one document to be entered separately.

88. When there are two or more executants or claimants, their names shall be separately entered in Index I, III, or IV. Similarly, when two or more properties are conveyed by a single document, they shall be separately entered in Index II. But no Sub-Registrar need enter in his Index II any property which does not lie in his own sub-district.

89. Copies and memoranda of documents shall be indexed in the same way as original documents, but the entries relating to them shall be made in red ink.

90. In rural offices in the charge of Sub-Registrars unacquainted with English, the indexes shall be kept in the vernacular. The rules given above apply to indexes in the vernacular. In all rural offices one copy of Indexes I, II, III, and IV shall be made for office use in a bound volume, and a duplicate of the entries made each month in Indexes I and II shall be submitted at its close to the Sub-Registrar at sub-divisional head-quarters. In the head-quarters sub-division, and wherever the sub-divisional system has not yet been introduced, the duplicate will be sent direct to the Registrar for record.

91. The Sub-Registrar, on receiving vernacular Indexes I and II from rural Sub-Registrars, shall translate the same and incorporate them in his own indexes, noting the place of registration of each document; English indexes he shall directly incorporate in his own. He shall also at the end of each year, or at such shorter intervals as the Registrar shall direct, prepare on hand-laid medium paper a copy of the incorporated index for all offices in his sub-division, and submit it to the Registrar.

Duplicate indexes of amalgamated offices.

92. Where the office of a Registrar has been amalgamated with that of a Sub-Registrar, the duplicate copy of the incorporated indexes of the sudder executive sub-division shall be sent for safe custody to the office of the Registrar of Calcutta.

. .

Fees and Fee-Book.

Table of fees.

93. A printed table of fees in English and the vernacular of the district shall be suspended in some conspicuous place in every registry office.

95. Fees levied on documents presented for registration (whether registration has been deferred or not) shall not be retained in the personal custody of any registering officer for any time longer than may be absolutely necessary. They shall be dealt with in the same way as other public money, and be paid into the nearest treasury. From district and sub-divisional offices the fees shall be remitted to the treasury daily; from rural offices they shall be sent to the treasury at such intervals as the Registrar shall direct. In all cases remittances to the treasury should be accompanied by the chalan book, duly filled up in duplicate. One copy of each chalan will be then kept by the treasury officer and the other returned with his signature.

96. The receipts entered in the fee book need not be entered in detail in the cash book: their daily totals will be sufficient; but all other receipts, and all payments whatsoever, must be entered in full detail in the cash book. All cash received must at once be entered either in the fee book or in the cash book. No money should under any circumstances be kept out of account. The cash book should be balanced every day, and signed after careful examination by the registering officer.

109. The register books and indexes of the general registry offices under Act XVI of 1864 and Act XX of 1866 shall be preserved in the Calcutta registry office.

Applications for Search or Copies.

110. All applications for search or for copies should be made to the registering officer himself. If an application is made in writing, the registering officer should initial it at once, giving the date. If an application is made *vivâ voce*, the registering officer should write on a slip of paper, "Give copy," or some such brief order, adding his initials and date. All such applications and orders should be preserved on a separate file, the date on which a search has been made or copy completed being noted. Applications made through Sub-Registrars for copies from registers deposited in the district office must be in writing, and should be at once transmitted to the Registrar for compliance. No stamp is required on applications for searches or copies.

111. Registrars shall permit search and grant copies of entries in the registers kept up previous to the enactment of Act III of 1877 at the same rate of fees and to the same extent as in the case of registers under that Act.

112. A call for information from any court or revenue authority shall, if it necessitates search in the registers, be accompanied by the necessary fee for search. Officers of Government shall be permitted to inspect the registers without fee; but if the production of a register book in any court is required, it shall be produced by an officer of the registration establishment deputed for that purpose, who will be entitled to claim payment of his expenses like any other witness.

Indents.

113. Before the 1st of September of each year every Sub-Registrar shall submit to the Registrar to whom he is subordinate an indent in the prescribed form for all register books and other registration forms which will be required in his office during the following calendar year.

114. Every Registrar shall submit to the Inspector-General before the 15th September of each year an indent in triplicate in the prescribed form for all register books and other registration forms which will be required for his own office and those of the Sub-Registrars subordinate to him during the following calendar year. When it is desired that the supply of register books, &c., should be forwarded to any sub-registry office direct instead of being sent through the office of the Registrar to whom he is subordinate, an intimation to that effect should accompany the Registrar's indent, and the indents of such Sub-Registrars should be submitted separately in triplicate with the Registrar's endorsement, instead of being embodied in the Registrar's indent.

115. When delay occurs in supplying register books and other registration forms, reminders should be addressed, not to the Inspector-General of Registration, but to the Superintendent of Stationery, the number of this office order being quoted. Reminders are useless without it.

The cost of sending the registers, &c., from the Stationery Office to the offices of rural Sub-Registrars which are situated at a distance from Calcutta is borne by Government, and the charge met from the provision made in the budget for the Registrar's office contingencies.

118. Before the several dates noted below all District Registrars should send to the Superintendent of Stationery an indent in duplicate in the prescribed form for the stationery (including registration ink) which will be required for the registry offices in their districts during the next twelve months; indents from Sub-Registrars should be submitted to the district office at least fifteen days before these dates. Permanent Advance.

119. A permanent advance, not exceeding Rs. 200, will be allowed for each District Registrar on account of (1) contingencies, (2) service postage, and (3) refund of registration fees; but he need not draw the full advance of Rs. 200 where his ordinary expenses fall much below that amount. The Registrar will apportion the amount drawn according to the requirements of each subordinate office, care being taken that a sum is allowed sufficient to meet charges for refunds only; because in the case of rural offices contingent charges will be defrayed by the rural Sub-Registrars, and in other sub-registry offices they should be met from the advance for general purposes received from the Accountant-General. In cases of the dismissal or death of rural Sub-Registrars, the District Registrars will be held responsible for the amount of the advances made by him. At the close of each official year the District Registrar will send an acknowledgment of the entire advance to the Accountant-General, Bengal, in A. G. B. form No. 151, of which a supply should be kept at hand.

120. The advance received by a Sub-Registrar will never be repaid into the treasury, but recouped from time to time, when necessary, by the submission to the Registrar of an abstract bill or bills supported by needful vouchers. On the first office day after the 25th March in each year the officer receiving the advance will forward an acknowledgment of its receipt to the District Registrar. Whenever there is a change of incumbency, the relieving officer shall also address to the Registrar an acknowledgment in the following form:—

"To the Registrar of

122. Sub-Registrars who are wholly or partly remunerated by a percentage on the fees will draw their commission at the end of each month, in Accountant-General's form No. 116, at such rate as may have been sanctioned by Government, but upon such fees only as shall have been actually paid into the treasury. In calculating commission, the fees levied on documents which are still pending at the close of the month shall be excluded; but if the documents be eventually registered, the fees previously credited in respect of them will be brought into the commission account for the month in which they are registered. No commission is payable on fines, or on the extra fees for registration by a Registrar, or on the receipts for the sale of paper. Commission bills require the Registrar's countersignature before payment.

123. When an officer is temporarily placed in charge of the office of a Special Sub-Registrar during his absence on inspection duty in the interior of his district, he is not entitled to draw

commission, which the Special Sub-Registrar retains.

Establishment Bills.

124. Salary bills for permanent establishments will be drawn in Accountant-General's form No. 118 by the head of the office. They do not require the countersignature of higher authority.

125. Bills for extra establishments paid by salary may be drawn in the same way as those for fixed establishments, the orders sanctioning their entertainment being always quoted in the bill.

126. Bills for wages of extra writers paid at contract rates require the countersignature of the Inspector-General before payment. Whenever special establishments are entertained, whether they are paid by salary or at contract rates, a weekly progress statement must be submitted to the Inspector-General in printed form No. 34A.

Contingent Bills.

127. A register of contingent expenditure shall be kept in each office, and the initials of the head of the office shall be entered against the date of the payment of each item.

128. The disbursing officer, that is the officer who draws a bill for contingent charges and is responsible for the due disbursement of the amount, may be left to deal with vouchers for items not exceeding ten rupees, attaching to his contingent bill a certificate in the following form :—

"I certify that the expenditure charged in this bill could not, with due regard to the interests of the public service, be avoided I have satisfied myself that the charges entered in this bill have been really paid. Vouchers of all sums above Rs 10 in amount are attached to the bill. I have, as far as possible, obtained vouchers for smaller sums, and am personally responsible that they have been so destroyed that they cannot be used again, except the vouchers for service postage labels, which are herewith sent."

129. When the bill of a disbursing officer is countersigned, vouchers for sums above Rs. 10 and not exceeding Rs. 100 shall be examined, cancelled, and retained in the office of the countersigning officer.

The following certificate is prescribed for the countersigning officer :—

"I certify that in support of every charge of more than Rs. 10 made in this bill a receipt or other voucher in proper form has been given to me and is now in my possession. The receipts and vouchers for items in excess of Rs. 100 are attached to the bill, and I am personally responsible that the receipts and vouchers for all other items of more than Rs. 10 are in proper form and order, and that they have been so cancelled that they cannot again be used to support claims against the Government, except the vouchers for service postage labels, which are herewith sent"

130. The salary of sweepers cannot be charged to contingencies. The wages of punkah-pullers may be so charged when their employment has been sanctioned

131. No charges for printing may be incurred without the special sanction of the Inspector-General. Such printed forms as are necessary will be printed at the Alipore Jail Press under the authority of the Inspector-General.

132. English stationery procurable from the Stationery Office may not be purchased in the local market, but charges for petty articles, such as sealing-ink, paste, thread, country paper, &c., may be included in the monthly contingent bill.

133. Sub-Registrars' contingent bills should be presented for payment at the end of each month, and if the total charge does not exceed Rs. 10, the Registrar's countersignature is sufficient for audit. All charges for service postage labels, however small, must be supported by vouchers, and require the countersignature of the Inspector-General.

134. Registrars' contingent bills not exceeding Rs. 10 in amount do not require countersignature

135. When the expenditure during any month on account of contingencies, service postage, and refunds in any Registrar's office exceed the amount of the permanent advance, the amount expended may be drawn by an abstract bill or bills (*see* Accountant-General's form No. 119) submitted during the month under the Registrar's signature. But in such cases a detailed bill (*see* Accountant-General's form No. 138), accompanied by vouchers, must also be submitted to the Inspector-General at the end of the month.

Miscellaneous.

136. When the executant of any document appears personally, he shall be required to attest all interlineations, &c. When he appears by agent, &c., the attestation of such agent, &c., shall be accepted, unless the interlineations, &c., are of an important character. A registering officer shall also be at liberty, on due cause being shown, to accept the attestation of an agent, &c., in case of important interlineations, &c.

Interlineations, &c.,—section 20.

137. When a document is presented or admitted more than four months after execution, the Registrar may either register it himself, in which case an extra fee under heading K as well as the penalty under heading O shall be levied, or he may direct its registration (on payment of the penalty under heading O) by any Sub-Registrar in whose office it could have been registered if presented within four months. In such cases the date on which the application was made to the Registrar shall be regarded as the date of presentation.

Documents presented or admitted after four months,—sections 24 and 34.

138. Every Sub-Registrar shall sit daily during certain hours which shall be approved by the Registrar and made known to the public by a notice in some conspicuous place outside the office. The holidays to be observed in registration offices shall be the days on which the Bank of Bengal is closed by notification in the *Calcutta Gazette*.

Daily sittings; holidays,—section 69.

139. Applications for the remission of fines under section 70 may be filed with the registering officer, but no such application shall be received until the fine has been paid. The application shall be forwarded to the Inspector-General with

Section 70.

any remarks which the registering officer may wish to make.

140. Registering officers shall take care that their clerks have no dealings with the public, except in their presence. They shall themselves receive documents which are tendered for registration, and when they are registered shall return them with their own hands.

141. The serial number of the last document completed and ready for return shall be daily exhibited in the prescribed printed form in some conspicuous place outside every office.

142. A catalogue in the prescribed form shall be kept up and permanently preserved in every registry office. On the occasion of every permanent change in the incumbency, the officer receiving charge should compare his books with the catalogue, and certify therein that he has found them correct.

Catalogue.

143. All official letters and covers sent by post from any sub-registry or district registry office must be prepaid by service labels. These labels will be supplied to Sub-Registrars (on application) by District Registrars, who will disallow unreasonable and excessive demands. A monthly statement of the distribution of service labels should be submitted by each District Registrar for the information of the Inspector-General. The cost of these labels will be met from the consolidated advance mentioned in rule 119. Service labels will be purchased by District Registrars as they require them, the expenditure being included in their monthly contingent bill, supported by the Treasury Officer's receipts as vouchers.

146. Travelling allowances of registering officers and their clerks will be drawn in Accountant-General's forms Nos. 120 and 121 respectively; and in both cases they must invariably be submitted to the Inspector-General for countersignature before payment, whatever may be the amount of the bill.

147. When ministerial officers of the department are deputed to give evidence or to produce records before any court, application for the payment of their travelling expenses should be made to the court.

148. House and office rent sanctioned by Government may be drawn by the head of the office without the countersignature of higher authority, the number and date of the Government order being always quoted on the bill.

149. Office furniture must not be purchased without the sanction of the Inspector-General. An estimate of the probable cost should accompany all applications for such sanction.

[13*th May* 1869.]

Be it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

Preliminary.

Short title.

I. This Act may be cited as "The Merchant Shipping (Colonial) Act, 1869."

Definition of terms.

II. In this Act, unless the context otherwise requires—

"British possession."

The term "British possession" means any territory or place situate within Her Majesty's dominions, and not forming part of the United Kingdom, or of the Channel Islands, or Isle of Man; and all territories and places under one legislature as hereinafter defined are deemed to be one British possession for the purposes of this Act.

"Legislature."

The term "Legislature" includes any person or persons who exercise legislative authority in the British possession, and, where there are local legislatures as well as a central legislature, means the central legislature only.

Commencement of Act.

III. This Act shall be proclaimed in every British possession by the Governor thereof as soon as may be after he receives notice of this Act, and shall come into operation in that British possession on the day of such proclamation, which day is hereinafter referred to as the commencement of this Act

Coasting Trade.

Regulation of coasting trade by Colonial legislature.

IV. After the commencement of this Act the legislature of a British possession, by any Act or Ordinance, from time to time, may regulate the coasting trade of that British possession, subject in every case to the following conditions:—

(1) The Act or Ordinance shall contain a suspending clause, providing that such Act or Ordinance shall not come into operation until Her Majesty's pleasure thereon has been publicly signified in the British possession in which it has been passed.

(2) The Act or Ordinance shall treat all British ships (including the ships of any British possession) in exactly the same manner as ships of the British possession in which it is made.

(3) Where, by treaty made before the passing of this Act, Her Majesty has agreed to grant to any ships of any Foreign State any rights or privileges in respect of the coasting trade of any British possession, such rights and privileges shall be enjoyed by such ships for so long as Her Majesty has already agreed or may hereafter agree to grant the same, anything in the Act or Ordinance to the contrary notwithstanding.

Sections 328 & 163 of 16 & 17 Vic., c. 107, repealed.

V. The following sections of the Customs Consolidation Act, 1853, are hereby repealed; namely—

Section three hundred and twenty-eight as from the commencement of this Act.

Section one hundred and sixty-three as from the date, in the case of each British possession, at which either an Act or Ordinance with respect to the coasting trade made within two years after the commencement of this Act in such British possession comes into operation; or, if there is no such Act or Ordinance, at which the said two years expire.

Merchant Shipping.

Registrars of British ships in British possessions.

VI. It shall be lawful for Her Majesty by Order in Council, from time to time to declare, with respect to the British possession mentioned in the order, the description of persons who are to be Registrars of British ships in that British possession, and to revoke any order so made. After the date specified in the order, or, if no date is specified, after the date of the proclamation of the order in the British possession, the order shall have effect as if it were contained in section thirty of the Merchant Shipping Act, 1854.

Application of Merchant Shipping Acts to Canada.

VII. In the construction of the Merchant Shipping Act, 1854, and of the Acts amending the same, Canada shall be deemed to be one British possession.

VIII. Where the legislature of any British possession provides for the examination of, and grant of certificates of competency to, persons intending to act as Masters, Mates, or Engineers on board British ships and the Board of Trade reports to Her Majesty that they are satisfied that the examinations are so conducted as to be equally efficient as the examinations for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping, and that the certificates are granted on such principles as to show the like qualifications and competency as those granted under the said Acts, and are liable to be forfeited for the like reasons and in the like manner, it shall be lawful for Her Majesty, by Order in Council—

(1) To declare that the said certificates shall be of the same force as if they had been granted under the said Acts:

AT THE COURT AT BALMORAL.

The 30th day of September 1873.

PRESENT :

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862." it is enacted that whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships, for the time being in force under the principal Act, have been adopted by the Government of any foreign country, and are in force in that country, it shall be lawful for Her Majesty by order in Council to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificate of registry or other national papers, and thereupon it shall no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's dominions, but such ships shall be deemed to be of the tonnage denoted in their certificate of registry or other papers, in the same manner, to the same extent, and for the same purposes in, to, and for which the tonnage denoted in the certificate of registry of British ships is to be deemed the tonnage of such ships.

And whereas it has been made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships now in force under "The Merchant Shipping Act, 1854," have been adopted by the Government of His Majesty the King of Italy, and such rules are now in force in that country, having come into operation on the first day of July one thousand eight hundred and seventy-three.

Her Majesty is hereby pleased, by and with the advice of Her Privy Council, to direct as follows :—

1. *As regards sailing ships.*—That merchant sailing ships of the said Kingdom of Italy the measurement whereof, after the said first day of July one thousand eight hundred and seventy-three, has been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, shall be deemed to be of the tonnage denoted in such registers and other national papers, in the same manner, and to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the certificate of registry of British sailing ships is deemed to be the tonnage of such ships.

2. *As regards steam ships.*—That merchant ships belonging to the said Kingdom of Italy which are propelled by steam or any other power requiring engine-room, the measurement whereof shall, after the said first day of July one thousand eight hundred and seventy-three, have been ascertained, and denoted in the registers and other national papers of such steam-ships, testified by the dates thereof, shall be deemed to be of the tonnage denoted in such registers or other national papers, in the same manner, and to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificate of registry of British ships is deemed to be the tonnage of such ships; provided, nevertheless, that if the owner or master of any such Italian steam-ship desires the deduction for engine-room in his ships to be estimated under the rules for engine-room measurement and deduction applicable to British ships, instead of under the Italian rule, the engine-room shall be measured, and the deduction calculated according to the British rules.

No. 129.—*The 21st July* 1877.—*Emigration.*—Under the provisions of Section 56 of the Indian Emigration Act (VII of 1871), the Governor-General in Council is pleased to direct the substitution of the following for rules 23 and 29 of the rules relating to emigration from the port of Calcutta, which were published in the *Gazette of India* of the 22nd February 1873 :—

RULE 23. The proportion of female emigrants to be embarked on each ship during the months of August to October, both inclusive, shall be, as nearly as practicable, 25 adult females to every hundred adult males.

23A. During the period from 1st November to the close of each season, the proportion shall be such number between 40 and 80 adult females to every 100 adult males as the Protector of Emigrants may fix for each ship.

In exercising the discretion given him by this rule, the Protector of Emigrants shall, if practicable, so fix the proportion for the several ships despatched during the period last mentioned, that the average proportion embarked during each season shall be not less than 40 adult females to every 100 adult males.

23B. If in any such season the average falls below this, the Protector of Emigrants shall, in exercising the discretion given him by the first clause of Rule 23A, so fix the proportion for the several ships despatched during the period commencing with the 1st

November of the following season up to its close as to bring up the average proportion for the two seasons, if practicable, to not less than 40 adult females to every 100 adult males.

RULE 29. The Emigration Agent shall appoint to each ship about to be despatched by him the staff of attendants specified in scale No. 11 of Schedule E, and shall ensure their punctual attendance at the time of embarkation.

When emigrants volunteer to act as topazes or cooks, and the Superintending Surgeons are willing to accept their services in this capacity, they may be employed as such.

The compounder-interpreter and the nurses, cooks, sirdars, and topazes, whether emigrants or not, shall, whenever practicable, be selected from among those who have been accustomed to a sea life, and have been trained either in an emigration depôt or elsewhere to the kind of work they will be required to perform on board.

One of the nurses appointed shall be a person who possesses the necessary qualifications for the work of supervising and directing under nurses, and she shall be appointed head-nurse.

29A. The Agent shall provide all persons appointed by him with separate written agreements wherein their respective engagements, including for natives of India a free return passage to India, and in the case of West Indian or African topazes a free passage to their homes shall be clearly provided for, but when such persons are emigrants under engagement to serve in the colony to which they are proceeding, it will not be necessary to provide that a return passage to India should be secured to them by agreement, otherwise than on the same terms provided for other emigrants.

To meet caste prejudices, it shall be arranged so that Brahmins shall cook for Hindus, and Mussulmans for Mahomedans.

29B. It shall be further provided by such written agreement that all the attendants shall be under the immediate control of the Surgeon Superintendent, and that he shall have the power of disrating or dismissing any of them for misconduct or neglect of duty.

The following orders, issued by the Government of India in the Foreign Department, are republished for general information :—

No. 1803*P.*—*Simla, the 26th July* 1877.—*Notifications.*—*Political.*—With reference to Notification No. 642P., dated 22nd March 1877, Mr. P. F. Eisenlohr, Consul for the German Empire at Calcutta, assumed charge of his office on the 9th July 1877.

No. 2060*G.*—*Simla, the 27th July* 1877.—*General.*—The following extract from the *London Gazette,* dated Friday, the 15th June 1877, is published for general information :—

Foreign Office, June 13, 1877.

The Earl of Deby, Her Majesty's Principal Secretary of Stats for Foreign Affairs, has received from Her Majesty's Consul-General at Odessa the following amended notice of the regulations for the entrance and departure from Russian ports in the Black Sea of neutral vessels, which was communicated to the Foreign Consuls by the Governor-General of Odessa on the 6th June. The notice is the same as that published in the *London Gazette* of May 18th, with the addition of the last paragraph :—

Approved by the Commander of the Odessa Military District.

NOTICE.

From the time of the declaration of war (14th April 1877) the entrance of, and the departure of vessels from, the port of Odessa, from the Liman of the Dnieper, and from the Boug, the Straits of Kertch, and the Bay of Sebastopol is only permitted subject to the following conditions, which are not provided for by Maritime International Law, but which must necessarily arise now that harbours are protected by barring them with mines the passage through which is kept absolutely secret :—

1. Every vessel on arriving must stop outside the line of mines. Russian officers with a crew will go and meet her; they will assume command of the said vessel, navigate her into the harbour, after having satisfied themselves that the ship's papers are in regular order.

2. The Captain of the said vessel shall engage in writing, on behalf of himself and his crew and passengers, that, while passing the line of torpedoes, no person shall remain on the deck, or watch through portholes or other openings the course followed by the ship.

3. The same rule shall be enforced when merchantmen quit the harbour; that is to say, a Russian officer and crew shall, in conformity with Articles 1 and 2, take command of the said vessels.

4. If a man-of-war should make its appearance at a spot whence it would be possible to watch the entry and departure of vessels, the Russian authorities will insist upon its retiring to a certain distance, during a period of time sufficient to navigate a vessel in or out. Until this formality is complied with no vessel will be allowed to enter or leave.

But at the same time Captains are informed that it may happen that the enemy's war cruisers will refuse to pay attention to the above request, and commence hostilities at once. In that case vessels already in the port will be deprived of the possibility of leaving, and be inevitably exposed to all the consequences that may result from the enemy's fire.

Short title.

1. This Act may be called "The Indian Limitation Act, 1877:"

Interpretation clause.

3. In this Act, unless there be something repugnant in the subject or context—

'plaintiff' includes also any person from or through whom a plaintiff derives his right to sue; 'applicant' includes also any person from or through whom an applicant derives his right to apply; and 'defendant' includes also any person from or through whom a defendant derives his liability to be sued:

'easement' includes also a right, not arising from contract, by which one person is entitled to remove and appropriate for his own profit any part of the soil belonging to another, or any thing growing in, or attached to, or subsisting upon, the land of another:

'bill of exchange' includes also a hundi and a cheque:

'bond' includes any instrument whereby a person obliges himself to pay money to another, on condition that the obligation shall be void if a specified act is performed, or is not performed, as the case may be:

'promissory note' means any instrument whereby the maker engages absolutely to pay a specified sum of money to another at a time therein limited, or on demand, or at sight:

'trustee' does not include a benamidar, a mortgagee remaining in possession after the mortgage has been satisfied, or a wrong-doer in possession without title:

'suit' does not include an appeal or an application:

'registered' means duly registered in British India under the law for the registration of documents in force at the time and place of executing the document, or signing the decree or order, referred to in the context:

'foreign country' means any country other than British India;

and nothing shall be deemed to be done in 'good faith' which is not done with due care and attention.

PART II.

LIMITATION OF SUITS, APPEALS, AND APPLICATIONS.

Dismissal of suits, &c., instituted, &c., after period of limitation.

4. Subject to the provisions contained in sections 5 to 25 (inclusive), every suit instituted, appeal presented, and application made after the period of limitation prescribed therefor by the second schedule hereto annexed, shall be dismissed, although limitation has not been set up as a defence.

Explanation.—A suit is instituted in ordinary cases when the plaint is presented to the proper officer; in the case of a pauper, when his application for leave to sue as a pauper is filed; and in the case of a claim against a company which is being wound up by the Court, when the claimant first sends in his claim to the official liquidator.

Illustrations.

(*a.*) A suit is instituted after the prescribed period of limitation. Limitation is not set up as a defence and judgment is given for the plaintiff. The defendant appeals. The appellate court must dismiss the suit.

(*b.*) An appeal presented after the prescribed period is admitted and registered. The appeal shall nevertheless be dismissed.

Proviso where Court is closed when period expires.

5. If the period of limitation prescribed for any suit, appeal, or application expires on a day when the Court is closed, the suit, appeal, or application may be instituted, presented, or made on the day that the Court re-opens:

Proviso as to appeals and applications for review.

Any appeal or application for a review of judgment may be admitted after the period of limitation prescribed therefor, when the appellant or applicant satisfies the Court that he had sufficient cause for not presenting the appeal or making the application within such period.

Special and local laws of limitation.

6. When, by any special or local law now or hereafter in force in British India, a period of limitation is specially prescribed for any suit, appeal, or application, nothing herein contained shall affect or alter the period so prescribed.

Legal disability.

7. If a person entitled to institute a suit or make an application be, at the time from which the period of limitation is to be reckoned, a minor, or insane, or an idiot, he may institute the suit or make the application within the same period, after the disability has ceased, as would otherwise have been allowed from the time prescribed therefor in the third column of the second schedule hereto annexed.

Double and successive disabilities.

When he is, at the time from which the period of limitation is to be reckoned, affected by two such disabilities, or when before his disability has ceased he is affected by another disability, he may institute the suit or make the application within the same period after both disabilities have ceased as would otherwise have been allowed from the time so prescribed.

When his disability continues up to his death, his legal representative may institute the suit or make the application within the same period after the death as would otherwise have been allowed from the time so prescribed.

Disability of representative.

When such representative is at the date of the death affected by any such disability, the rules contained in the first two paragraphs of this section shall apply.

Nothing in this section applies to suits to enforce rights of pre-emption, or shall be deemed to extend, for more than three years from the cessation of the disability or the death of the person affected thereby, the period within which any suit must be instituted or application made.

Illustrations.

(*a.*) The right to sue for the hire of a boat accrues to A during his minority. He attains majority four years after such accruer. He may institute his suit at any time within three years from the date of his attaining majority.

(*b.*) A, to whom a right to sue for a legacy has accrued during his minority, attains majority eleven years after such accruer. A has, under the ordinary law, only one year remaining within which to sue. But under this section an extension of two years will be allowed him, making in all a period of three years from the date of his attaining majority, within which he may bring his suit.

(*c.*) A right to sue accrues to Z during his minority. After the accruer, but while Z is still a minor, he becomes insane. Time runs against Z from the date when his insanity and minority cease

(*d.*) A right to sue accrues to X during his minority. X dies before attaining majority and is succeeded by Y, his minor son. Time runs against Y from the date of his attaining majority.

(*e.*) A right to sue for an hereditary office accrues to A, who at the time is insane. Six years after the accruer A recovers his reason. A has six years, under the ordinary law, from the date when his insanity ceased within which to institute a suit. No extension of time will be given him under this section.

(*f.*) A right to sue as landlord to recover possession from a tenant accrues to A, who is an idiot. A dies three years after the accruer, his idiocy continuing up to the date of his death. A's representative in interest has, under the ordinary law, nine years from the date of A's death within which to bring a suit. This section does not extend that time, except where the representative is himself under disability when the representation devolves upon him.

Disability of one joint creditor.

8. When one of several joint creditors or claimants is under any such disability, and when a discharge can be given without the concurrence of such person, time will run against

them all: but where no such discharge can be given, time will not run as against any of them until one of them becomes capable of giving such discharge without the concurrence of the others.

Illustrations.

(*a.*) A incurs a debt to a firm of which B, C, and D, are partners. B is insane and C is a minor. D can give a discharge of the debt without the concurrence of B and C. Time runs against B, C, and D.

(*b.*) A incurs a debt to a firm of which E, F, and G, are partners. E and F are insane and G is a minor. Time will not run against any of them until either E or F becomes sane or G attains majority.

Continuous running of time.

9. When once time has begun to run, no subsequent disability or inability to sue stops it:

Provided that where letters of administration to the estate of a creditor have been granted to his debtor, the running of the time prescribed for a suit to recover the debt shall be suspended while the administration continues.

Suits against express trustees and their representatives.

10. Notwithstanding anything hereinbefore contained, no suit against a person in whom property has become vested in trust for any specific purpose, or against his legal representatives or assigns (not being assigns for valuable consideration) for the purpose of following in his or their hands such property, shall be barred by any length of time.

Suits on foreign contracts.

11. Suits instituted in British India on contracts entered into in a foreign country are subject to the rules prescribed by this Act.

Foreign limitation law.

No foreign rule of limitation shall be a defence to a suit instituted in British India on a contract entered into in a foreign country, unless the rule has extinguished the contract, and the parties were domiciled in such country during the period prescribed by such rule.

PART III.

COMPUTATION OF PERIOD OF LIMITATION.

Exclusion of day on which right to sue accrues.

12. In computing the period of limitation prescribed for any suit, appeal or application, the day from which such period is to be reckoned shall be excluded.

Exclusion in case of appeals and certain applications.

In computing the period of limitation prescribed for an appeal, an application for leave to appeal as a pauper, and an application for a review of judgment, the day on which the judgment complained of was pronounced, and the time requisite for obtaining a copy of the decree, sentence, or order appealed against or to be sought reviewed, shall be excluded.

Where a decree is appealed against or sought to be reviewed, the time requisite for obtaining a copy of the judgment on which it is founded shall also be excluded.

In computing the period of limitation prescribed for an application to set aside an award, the time requisite for obtaining a copy of the award shall be excluded.

Exclusion of time of defendant's absence from British India.

13. In computing the period of limitation prescribed for any suit, the time during which the defendant has been absent from British India shall be excluded.

Exclusion of time of proceeding *bond fide* in Court without jurisdiction.

14. In computing the period of limitation prescribed for any suit, the time during which the plaintiff has been prosecuting with due diligence another civil proceeding, whether in a Court of first instance or in a Court of appeal, against the defendant, shall be excluded, where the proceeding is founded upon the same cause of action, and is prosecuted in good faith in a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to entertain it.

Like exclusion in case of order under Civil Procedure Code, section 20.

In computing the period of limitation prescribed for a suit proceedings in which have been stayed by order under the Code of Civil Procedure, section 20, the interval between the institution of the suit and the date of so staying proceedings, and the time requisite for going from the Court in which proceedings are stayed to the Court in which the suit is re-instituted, shall be excluded.

Like exclusion in case of application.

In computing the period of limitation prescribed for any application, the time during which the applicant has been making another application for the same relief shall be excluded, where the last-mentioned application is made in good faith to a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to grant it.

Explanation 1.—In excluding the time during which a former suit or application was pending or being made, the day on which that suit or application was instituted or made, and the day on which the proceedings therein ended, shall both be counted.

Explanation 2.—A plaintiff resisting an appeal presented on the ground of want of jurisdiction shall be deemed to be prosecuting a suit within the meaning of this section.

Exclusion of time during which commencement of suit is stayed by injunction or order.

15. In computing the period of limitation prescribed for any suit, the institution of which has been stayed by injunction or order, the time of the continuance of the injunction or order, the day on which it was issued or made, and the day on which it was withdrawn, shall be excluded.

Exclusion of time during which judgment-debtor is attempting to set aside execution sale.

16. In computing the period of limitation prescribed for a suit for possession by a purchaser at a sale in execution of a decree, the time during which the judgment-debtor has been prosecuting a proceeding to set aside the sale shall be excluded.

17. When a person who would, if he were living, have a right to institute a suit or make an application, dies before the right accrues, the period of limitation shall be computed from the time when there is a legal representative of the deceased capable of instituting or making such suit or application.

Effect of death before right to sue accrues.

When a person against whom, if he were living, a right to institute a suit or make an application would have accrued dies before the right accrues, the period of limitation shall be computed from the time when there is a legal representative of the deceased against whom the plaintiff may institute or make such suit or application.

Nothing in the former part of this section applies to suits to enforce rights of pre-emption or to suits for the possession of immoveable property or of an hereditary office.

18. When any person having a right to institute a suit or make an application has, by means of fraud, been kept from the knowledge of such right or of the title on which it is founded,

Effect of fraud.

or where any document necessary to establish such right has been fraudulently concealed from him,

the time limited for instituting a suit or making an application

(*a*) against the person guilty of the fraud or accessory thereto, or,

(*b*) against any person claiming through him otherwise than in good faith and for a valuable consideration,

shall be computed from the time when the fraud first became known to the person injuriously affected thereby, or, in the case of the concealed document, when he first had the means of producing it or compelling its production.

19. If, before the expiration of the period prescribed for a suit or application in respect of any property or right, an acknowledgment of liability in respect of such property or right has been made in writing signed by the party against whom such property or right is claimed, or by some person through whom he derives title or liability, a new period of limitation, according to the nature of the original liability, shall be computed from the time when the acknowledgment was so signed.

Effect of acknowledgment in writing.

When the writing containing the acknowledgment is undated, oral evidence may be given of the time when it was signed; but oral evidence of its contents shall not be received.

Explanation 1.—For the purposes of this section an acknowledgment may be sufficient, though it omits to specify the exact nature of the property or right, or avers that the time for payment, delivery, performance, or enjoyment has not yet come, or is accompanied by a refusal to pay, deliver, perform, or permit to enjoy, or is coupled with a claim to a set-off, or is addressed to a person other than the person entitled to the property or right.

Explanation 2.—In this section "signed" means signed either personally or by an agent duly authorized in this behalf.

20. When interest on a debt or legacy is, before the expiration of the prescribed period, paid as such by the person liable to pay the debt or legacy, or by his agent duly authorized in this behalf,

or when part of the principal of a debt is, before the expiration of the prescribed period, paid by the debtor or by his agent duly authorized in this behalf,

Effect of part-payment of principal.

a new period of limitation, according to the nature of the original liability, shall be computed from the time when the payment was made:

Provided that, in the case of part-payment of the principal of a debt, the fact of the payment appears in the hand-writing of the person making the same.

Where mortgaged land is in the possession of the mortgagee, the receipt of the produce of such land shall be deemed to be a payment for the purpose of this section.

Effect of receipt of produce of mortgaged land.

21. Nothing in sections 19 and 20 renders one of several joint contractors, partners, executors, or mortgagees chargeable by reason only of a written acknowledgment signed, or of a payment made by, or by the agent of, any other or others of them.

One of several joint contractors, &c., not chargeable by reason of acknowledgment or payment made by another of them.

22. When, after the institution of a suit, a new plaintiff or defendant is substituted or added, the suit shall, as regards him, be deemed to have been instituted when he was so made a party:

Effect of substituting or adding new plaintiff or defendant.

Provided that when a plaintiff dies, and the suit is continued by his legal representative, it shall, as regards him, be deemed to have been instituted when it was instituted by the deceased plaintiff:

Proviso where original plaintiff dies.

Provided also that when a defendant dies, and the suit is continued against his legal representative, it shall, as regards him, be deemed to have been instituted when it was instituted against the deceased defendant.

Proviso where original defendant dies.

23. In the case of a continuing breach of contract and in the case of a continuing wrong independent of contract, a fresh period of limitation begins to run at every moment of the time during which the breach or the wrong, as the case may be, continues.

Continuing breaches and wrongs.

24. In the case of a suit for compensation for an act which does not give rise to a cause of action unless some specific injury actually results therefrom, the period of limitation shall be computed from the time when the injury results.

Suit for compensation for act not actionable without special damage.

Illustrations.

(*a*.) A owns the surface of a field. B owns the subsoil. B digs coal thereout without causing any immediate apparent injury to the surface, but at last the surface subsides. The period of limitation in the case of a suit by A against B runs from the time of the subsidence.

(*b.*) A speaks and publishes of B slanderous words not actionable in themselves without special damage caused thereby. C in consequence refuses to employ B as his clerk. The period of limitation in the case of a suit by B against A for compensation for the slander does not commence till the refusal.

Computation of time mentioned in instruments.

25. All instruments shall, for the purposes of this Act, be deemed to be made with reference to the Gregorian calendar.

Illustrations.

(*a.*) A Hindu makes a promissory note bearing a Native date only, and payable four months after date. The period of limitation applicable to a suit on the note runs from the expiry of four months after date computed according to the Gregorian calendar.

(*b.*) A Hindu makes a bond, bearing a Native date only, for the repayment of money within one year. The period of limitation applicable to a suit on the bond runs from the expiry of one year after date computed according to the Gregorian calendar.

PART IV.

ACQUISITION OF OWNERSHIP BY POSSESSION.

Acquisition of right to easements.

26. Where the access and use of light or air to and for any building have been peaceably enjoyed therewith, as an easement and as of right, without interruption, and for twenty years,

and where any way or watercourse, or the use of any water, or any other easement (whether affirmative or negative) has been peaceably and openly enjoyed by any person claiming title thereto as an easement and as of right, without interruption, and for twenty years,

the right to such access and use of light or air, way, watercourse, use of water or other easement, shall be absolute and indefeasible.

Each of the said periods of twenty years shall be taken to be a period ending within two years next before the institution of the suit wherein the claim to which such period relates is contested.

Explanation.—Nothing is an interruption within the meaning of this section, unless where there is an actual discontinuance of the possession or enjoyment by reason of an obstruction by the act of some person other than the claimant, and unless such obstruction is submitted to or acquiesced in for one year after the claimant has notice thereof and of the person making or authorizing the same to be made.

Illustrations.

(*a.*) A suit is brought in 1881 for obstructing a right of way. The defendant admits the obstruction, but denies the right of way. The plaintiff proves that the right was peaceably and openly enjoyed by him, claiming title thereto as an easement and as of right, without interruption, from 1st January 1860 to 1st January 1880. The plaintiff is entitled to judgment.

(*b.*) In a like suit also brought in 1881 the plaintiff merely proves that he enjoyed the right in manner aforesaid from 1858 to 1878. The suit shall be dismissed, as no exercise of the right by actual user has been proved to have taken place within two years next before the institution of the suit.

(*c.*) In a like suit the plaintiff shows that the right was peaceably and openly enjoyed by him for twenty years. The defendant proves that the plaintiff on one occasion during the twenty years had asked his leave to enjoy the right. The suit shall be dismissed.

Exclusion in favour of reversioner of servient tenement.

27. Provided that, when any land or water upon, over, or from which any easement has been enjoyed or derived has been held under or by virtue of any interest for life or any term of years exceeding three years from the granting thereof, the time of the enjoyment of such easement during the continuance of such interest or term shall be excluded in the computation of the said last-mentioned period of twenty years, in case the claim is, within three years next after the determination of such interest or term, resisted by the person entitled, on such determination, to the said land or water.

Illustration.

A sues for a declaration that he is entitled to a right of way over B's land. A proves that he has enjoyed the right for twenty-five years; but B shows that during ten of these years C, a Hindu widow, had a life interest in the land, that on C's death B became entitled to the land, and that within two years after C's death he contested A's claim to the right. The suit must be dismissed, as A, with reference to the provisions of this section, has only proved enjoyment for fifteen years.

Extinguishment of right to property.

28. At the determination of the period hereby limited to any person for instituting a suit for possession of any property, his right to such property shall be extinguished.

NOTIFICATION.

Rules for the Zemindari Dák under Act VIII (B.C.) of 1862.

The 11th August 1877.—The primary object of the zemindari dák is the conveyance of letters between police officers and police-stations and the magisterial officers of the district. Where, however, zemindari dák establishments exist, there can be no objection to making further use of them for the conveyance and delivery of private correspondence, so long as no extra charge is thrown thereby upon the zemindars or Government farmers. Throughout Bengal, moreover, it has been found convenient to entrust to the Postal authorities the general control and direction of the district dák lines, to ensure their proper working in connection with the lines of the imperial post. The following rules have been framed by the Lieutenant-Governor of Bengal under Section 11, Act VIII (B.C.) of 1862, for the purpose of defining the duties and relations of the Magistrates and the Postal authorities, and for giving proper effect to the provisions of the Act.

Preamble.

1. It is the duty of the Magistrate of the district to determine the stations between which communication is required for police purposes.

2. The Post-Master-General will then, in communication with the Magistrate, arrange all questions connected with routes, stages, timing, strength and cost of establishment and the like, any difference of opinion between them being referred for the orders of the Commissioner, which shall be final.

3. No charges on account of delivery peons or rural messengers can be included in the zemindari dâk budget; but the cost of all establishments necessary for the collection and proper keeping of the accounts of the zemindari dâk cess, as well as for the punctual conveyance of the district mails, and all reasonable charges for contingencies, including boats, huts, common post-office furniture, stationery and the like, must be defrayed from the funds raised under the provisions of the Act.

4. The Sub-Inspector of Post-Offices will annually, on or before the 15th of November, prepare, under the instructions of the Magistrate, an estimate of the total cost of the establishments and contingencies required for the year commencing on the 1st April following. No. 129.

Simla, the 21st July 1877.—Under the provisions of Section 56 of the Indian Emigration Act (VII of 1871), the Governor-General in Council is pleased to direct the substitution of the following for Rules 23 and 29 of the Rules relating to emigration from the port of Calcutta, which were published in the *Gazette of India* of the 22nd February 1873 :—

RULE 23.—The proportion of female emigrants to be embarked on each ship during the months of August to October, both inclusive, shall be, as nearly as practicable, 25 adult females to every 100 adult males.

In exercising the discretion given him by this rule, the Protector of Emigrants shall, if practicable, so fix the proportion for the several ships despatched during the period last mentioned that the average proportion embarked during each season shall be not less than 40 adult females to every 100 adult males.

NOTIFICATION.

The 19th July 1877.—In supersession of the Notification published under the provisions of Section 69 of the Indian Registration Act (VIII, 1871,) in the *Calcutta Gazette* of the 24th December 1873, the following rules, which have been prepared under the provisions of Section 69 of Act III, 1877, and have been approved by the Lieutenant-Governor, are hereby published for general information.

2. These rules will have effect in the provinces under the Lieutenant-Governor of Bengal from and after the 1st January 1878.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

Rules framed under Section 69 of Act III of 1877 (the Indian Registration Act) and sanctioned by the Government of Bengal.

Leave and Appointments.

1. REGISTRARS and Sub-Registrars, on giving or receiving charge of their respective offices, shall report the fact to the Inspector-General in the form given in Rule 120 below.

Changes of incumbency to be reported.

In the case of Sub-Registrars, such reports shall be made through the District Registrar.

2. Whenever a District Registrar makes a temporary appointment under section 12, he shall at once report the fact to the Inspector-General.

Temporary appointments to be reported.

3. When a Sub-divisional Officer goes on tour, it is usually undesirable that he should carry the sub-registry office about with him. He should ordinarily make over charge to his Sub-Deputy Collector or to the Moonsif: in the latter case, the assent of the Registrar and of the District Judge must first be obtained.

4. The report referred to in section 13 shall be submitted to Government by the Inspector-General at the end of each month.

5. Head-quarter Sub-Registrars having been permanently placed in charge of district registry offices under section 7 of the Act, clause 2, temporary appointments under section 11 need only be reported when some person other than the Special Sub-Registrar is appointed to perform the duties of the Registrar during his absence.

6. When a Sub-Registrar is absent, or his office is temporarily vacant, if the District Registrar is unable to appoint a suitable substitute, he may himself assume charge of the sub-registry office until the return of the Sub-Registrar or appointment of a successor; and in such cases the extra or additional fee chargeable for registration by a Registrar under section 30 (*a*) shall not be charged upon registrations effected during the absence of the Sub-Registrar.

Registrar may assume charge of the office of absent Sub-Registrar.

7. Rural Sub-Registrars are not subject to the uncovenanted leave rules. It is a condition of their appointment that they should reside at the head-quarters of their jurisdiction; leave should therefore be seldom required, and should be given only in cases of urgent necessity. When the leave asked for does not exceed one month, the Registrar is competent to grant the application and appoint a substitute. All leave exceeding one month, and every extension of leave which will prolong the period of absence beyond one month, must receive the previous sanction of the Inspector-General.

Leave to rural Sub-Registrars.

All leave granted to rural Sub-Registrars shall be at once reported to the Inspector-General, and included by him in the monthly report submitted to Government under rule 4.

Seals.

8. The seals of District Registrars and Deputy Registrars made under section 12 of Act XVI of 1864 shall be taken to be seals of Registrars and Sub-Registrars under this Act. The seal shall always remain in the personal custody of the registering officer.

A power-of-attorney authenticated in a language unknown to a registering officer to whom it may be presented may, if the parties desire it, be by him submitted to the Registrar or Inspector-General of Registration, Bengal, as the case may be, who will procure an English translation of the authentication.

13. The territorial divisions to be recognized under section 21 (*b*) shall be registration districts, sub-districts, and thanas; also pergunnahs and mouzahs, where they are known, and collectorate districts, if different from registration districts.

All interlineations and corrections in the register books shall be made in red ink when the entries are in black ink, and in black ink when the entries are made in red ink.

59. The register books shall have two margins. On the left-hand margin shall be copied in red ink the value of the stamp, the certificate of admissibility under rule 43, and all the endorsements made in the office; in the centre shall be copied the deed itself in black ink, and the right-hand margin shall be left vacant for notes under

section 20 and rule 136. The stamp-vendor's endorsement on each document shall be copied in red ink in the registers in the centre of the page below the copy of the document itself.

60. Several volumes of Register Books I and IV may, if necessary, be kept in use simultaneously, when the documents registered are so numerous as to make this course necessary. Register Books II, III, and V shall be continued from year to year until they are full, and in small offices where the number of documents registered is inconsiderable, the same volume of Register Books I and IV may also be used for two or more years.

Certificate of closure.

61. When a book is closed, a certificate to that effect shall be appended at the close of the written portion, and a certificate showing the number of pages written upon shall be entered on the first page.

62. When, owing to omission or error in any document which has been registered, a supplementary document rectifying such mistake or omission is presented for registration, a note of such rectification shall be made in the margin of the register in which the original document is registered.

63. When a document occupies more than one sheet of paper, the seal and the signature of the registering officer shall be attached to every sheet

Refusal of Registration.

Documents inadmissible on presentation.

64. If [rule 42 (1)] the deed has not been presented in the proper office, it shall be simply returned to the presenting party. In this case no entry need be made in Book II.

65. If [rule 42 (2)] the stamp is incorrect, the deed shall be impounded and forwarded to the Collector (section 23 of the General Stamp Act).

Note.—If the executant of a deed who is in doubt about the proper stamp consults a registering officer on the subject before formal presentation, the required information may be given to him without impounding the deed. But any deed formally presented with an insufficient stamp must be impounded.

66. If rules 42 (3) to (7) have not been complied with, or if the presenting party refuses to pay the proper fee, the deed must be returned at once to the presenting party with the endorsement—

"Registration refused,"

an entry being made at the same time in Book II.

Note.—Orders under this rule may be deferred at the request of the parties in order to enable them to comply with the requirements of the law, or for a reference to the Registrar under section 24. But in such cases an order of refusal shall be passed if the requirements of the law have not been complied with within eight months from the date of execution.

67. A Sub-Registrar is not authorized by law to refuse to register a document because he is directly or indirectly interested in the transaction to which it relates; but he will always advise the parties to present such a document at some other office. If the document relate to moveable property only, such other office may be the office of any Sub-Registrar under the same local Government at which all the parties may desire the document to be registered. If the document relate to immoveable property, such other office will (unless the parties prefer to resort to the Registrar of Calcutta) be the office of the Registrar of the district. The latter officer will (as by the note of Article K of the Table of Fees already provided) register such document without charging the usual extra fee. If the parties, thus advised, insist on the Sub-Registrar registering a document in which he is interested, he must do so. In this case he will report the fact for the information of the District Registrar to whom he is subordinate.

Refusal of duly presented documents.

68. The circumstances under which a document should at once be refused *on presentation* are given in rules 64-66. A document *duly presented and accepted* for the purpose of inquiry will not be admitted to registration under the following circumstances:—

(1) If one or more of the executing parties deny execution. (Section 35.)

(2) If one or more of the executing parties fail to appear and to admit execution. (Section 35.)

(3) If a person by whom the document purports to be executed be dead, and his representative or assign deny execution. (Section 35.)

(4) If a person purporting to have executed the document appear to be a minor, an idiot, or a lunatic. (Section 35.)

(5) If the registering officer be not satisfied of the identity of any person appearing before him and alleging that he executed the document. (Section 35.)

(6) If the registering officer be not satisfied as to the truth of the allegation that a person who executed the document is dead. (Section 35.)

(7) If the admitting agent's power-of-attorney has not been made in accordance with the Act, or if an alleged representative or assign has failed to prove his *status*. (Section 35.)

69. In cases (1) and (4) registration must be at once refused. In cases (2), (3), (5), (6), (7) the order of refusal should ordinarily be deferred till eight months have elapsed from the date of execution. But if the parties declare their inability to comply with the requirements of the law, or for any other reason wish that the document should at once be refused and returned to them, this may be done.

Reasons of refusal to be clearly stated.

70. The reasons of refusal must be recorded by the registering officer with his own hand in Book II, and the particulars should be fully and clearly stated in each case. When one out of several executants declines to comply with the requirements of the law, his name should be given; when the registering officer is doubtful as to the identity of a party admitting execution, the grounds of his suspicion should be stated.

Copies and Memoranda.

71. In addition to the bound volumes of Register Book I, every Sub-Registrar shall keep a file-book, in which he will file the memoranda of registered documents which have been forwarded to his office under sections 64, 65, and 66 of the Act.

Similarly, Registrars shall keep *two* separate file-books—one for memoranda and one for copies under sections 65, 66, and 67 of the Act. These papers shall be bound into a volume, or volumes, of convenient size at the end of the year. They shall be numbered consecutively, but in a series distinct from that of original registrations in Register Book I.

72. Copies shall be made on paper of the same size and description as that of the bound books. Memoranda shall be drawn up in the prescribed form.

73. Memoranda for sub-districts in another district shall be enclosed to the Registrar of that district, together with the copy required for his own office; but no memorandum need make mention of any property other than that which is situated in the sub-district to which the memorandum is to be sent.

74. When a copy of a document is sent to the Registrar of another district under sections 65-67 of the Act, a memorandum need not be sent to any Sub-Registrar whose office has been amalgamated with that of the Registrar of such district.

75. The date on which copies and memoranda are despatched under the last rule shall be entered in the right-hand margin of the book in which the document has been copied.

Receipts for copies and memoranda.

76. When a memorandum or copy under sections 64-67 is transmitted from one office to another, it shall be accompanied by a receipt in the prescribed printed form, which shall at once be signed and returned by the receiving officer. If delay occurs in the return of the receipt, the despatching officer should takeed for it. All such receipts, when returned, should be filed separately.

Copies and translations of documents in foreign language.

77. The copies and translations of documents required to be filed under sections 19 and 62 shall be made upon hand-laid medium paper. They shall be kept in a separate file, a reference being made to this in the right-hand margin of the page on which the translation is copied in the register book. The file shall be bound from time to time, when it contains a sufficient number of copies and translations to form a volume. For the purposes of this rule the requisite paper may be sold to the public at one anna per sheet.

Indexes.

Index of persons.

78. The personal index, No. I, shall contain the following headings:—

Arrangement of entries.

83. English indexes shall be kept according to the letters of the alphabet, the entries under each letter being arranged according to the vowel of the first syllable if the word begins with a consonant, or according to the second vowel in the word if it begins with a vowel.

Transliteration.

84. If the documents to be indexed are written or executed in English, the names of the persons and places shall be spelt in the same way in which they are written in the documents. If the documents are written or executed in a vernacular language, the spelling shall be regulated according to Professor H. H. Wilson's system of transliteration, as modified by the Syndicate of the Calcutta University.

Family name.

85. In the case of Europeans the surname shall be taken as the index word. All native names shall be indexed according to their first letters as they stand in the deed.

They will be transliterated in the same form in which they are written in the document. Thus in Bengali the same affix may be written, either Bánirjya or Bandopadhyáy, and whichever of these forms is used in the document will be retained and transliterated.

86. When a document is executed on behalf or in favour of Government, the index entry shall be made under *G, Government*, the name of the officer executing the document being entered in the column headed *Addition;* if on behalf or in favour of the Court of Wards, under *W, Wards, Court of;* and in the case of any other Court, under *C.* The names of companies shall be entered as they stand, the article only being omitted; thus *Land Mortgage Bank of India, Limited*, under *L; Ganges Steam Navigation Company, Limited*, under *G.*

a will or authority to adopt, *which will be indexed after the death of the testator or donor*, should be entered in red ink.

Two or more names in one document to be entered separately.

88. When there are two or more executants or claimants, their names shall be separately entered in Index I, III, or IV. Similarly, when two or more properties are conveyed by a single document, they shall be separately entered in Index II. But no Sub-Registrar need enter in his Index II any property which does not lie in his own sub-district.

89. Copies and memoranda of documents shall be indexed in the same way as original documents, but the entries relating to them shall be made in red ink.

90. In rural offices in the charge of Sub-Registrars unacquainted with English, the indexes shall be kept in the vernacular. The rules given above apply to indexes in the vernacular. In all rural offices one copy of Indexes I, II, III, and IV shall be made for office use in a bound volume, and a duplicate of the entries made each month in Indexes I and II shall be submitted at its close to the Sub-Registrar at sub-divisional head-quarters. In the head-quarters sub-division, and wherever the sub-divisional system has not yet been introduced, the duplicate will be sent direct to the Registrar for record.

91. The Sub-Registrar, on receiving vernacular Indexes I and II from rural Sub-Registrars, shall translate the same and incorporate them in his own indexes, noting the place of registration of each document; English indexes he shall directly incorporate in his own. He shall also at the end of each year, or at such shorter intervals as the Registrar shall direct, prepare on hand-laid medium paper a copy of the incorporated index for all offices in his sub-division, and submit it to the Registrar.

Duplicate indexes of amalgamated offices.

92. Where the office of a Registrar has been amalgamated with that of a Sub-Registrar, the duplicate copy of the incorporated indexes of the sudder executive sub-division shall be sent for safe custody to the office of the Registrar of Calcutta.

Fees and Fee-Book.

Table of fees.

93. A printed table of fees in English and the vernacular of the district shall be suspended in some conspicuous place in every registry office.

Fee Book.

94. Columns 1 to 7 and 13 in the fee book should be filled up as soon as any document is presented, except in the case of documents presented at the wrong office and returned immediately under rule 64; columns 8 and 9 should be filled up as soon as a document is admitted or refused; columns 10 and 11, as soon as registration has been completed; column 12, as soon as the document has been delivered; and column 14, as soon as the required copies and memoranda have been despatched.

95. Fees levied on documents presented for registration (whether registration has been deferred or not) shall not be retained in the personal custody of any registering officer for any time longer than may be absolutely necessary. They shall be dealt with in the same way as other public money, and be paid into the nearest treasury. From district and sub-divisional offices the fees shall be remitted to the treasury daily; from rural offices they shall be sent to the treasury at such intervals as the Registrar shall direct In all cases remittances to the treasury should be accompanied by the chalan book, duly filled up in duplicate. One copy of each chalan will be then kept by the treasury officer and the other returned with his signature.

96. The receipts entered in the fee book need not be entered in detail in the cash book: their daily totals will be sufficient; but all other receipts, and all payments whatsoever, must be entered in full detail in the cash book. All cash received must at once be entered either in the fee book or in the cash book. No money should under any circumstances be kept out of account. The cash book should be balanced every day, and signed after careful examination by the registering officer.

The receipts referred to in section 52.

Receipts referred to in rule 76.

All correspondence, whether in English or in the vernacular, which is of an ordinary routine character, and which the Registrar considers may be destroyed.

Monthly returns, petitions, and other records and papers not otherwise specified.

108. No documents, books or papers whatever shall be destroyed at a sub-registry office, without the previous sanction of the Inspector-General; and before documents are destroyed an endeavour must always be made to induce the presentants to take them back.

109. The register books and indexes of the general registry offices under Act XVI of 1864 and Act XX of 1866 shall be preserved in the Calcutta registry office.

Applications for Search or Copies.

110. All applications for search or for copies should be made to the registering officer himself. If an application is made in writing, the registering officer should initial it at once, giving the date. If an application is made *viva voce*, the registering officer should write on a slip of paper, "Give copy," or some such brief order, adding his initials and date. All such applications and orders should be preserved on a separate file, the date on which a search has been made or copy completed being noted. Applications made through Sub Registrars for copies from registers deposited in the district office must be in writing, and should be at once transmitted to the Registrar for compliance. No stamp is required on applications for searches or copies.

111. Registrars shall permit search and grant copies of entries in the registers kept up previous to the enactment of Act III of 1877 at the same rate of fees and to the same extent as in the case of registers under that Act.

112. A call for information from any court or revenue authority shall, if it necessitates search in the registers, be accompanied by the necessary fee for search. Officers of Government shall be permitted to inspect the registers without fee; but if the production of a register book in any court is required, it shall be produced by an officer of the registration establishment deputed for that purpose, who will be entitled to claim payment of his expenses like any other witness.

Indents.

113. Before the 1st of September of each year every Sub-Registrar shall submit to the Registrar to whom he is subordinate an indent in the prescribed form for all register books and other registration forms which will be required in his office during the following calendar year

114. Every Registrar shall submit to the Inspector-General before the 15th September of each year an indent in triplicate in the prescribed form for all register books and other registration forms which will be required for his own office and those of the Sub-Registrars subordinate to him during the following calendar year. When it is desired that the supply of register books, &c., should be forwarded to any sub-registry office direct instead of being sent through the office of the Registrar to whom he is subordinate, an intimation to that effect should accompany the Registrar's indent, and the indents of such Sub-Registrars should be submitted separately in triplicate with the Registrar's endorsement, instead of being embodied in the Registrar's indent.

115. When delay occurs in supplying register books and other registration forms, reminders should be addressed, not to the Inspector-General of Registration, but to the Superintendent of Stationery, the number of this office order being quoted. Reminders are useless without it.

116. Indents for the forms enumerated below, which have been prescribed by the Accountant-General, should be submitted in duplicate in March of each year direct to the Superintendent of Stationery.

1A.—Accountant-General's form of indent form.
116.—Commission list of Sub-Registrars.
117.—Salary list of gazetted officers of the Registration Department.

183.—Cash book of registration.
184.—Acquittance roll of establishment.

117. Rural Sub-Registrars may be supplied with registration ink and other stationery from the district office at cost price, which should be ascertained from the Superintendent of Stationery. The hand-laid medium paper required for copies under sections 64 and 65 will be supplied to them gratis. They are also supplied with registers, index books, and printed forms free of charge.

The cost of sending the registers, &c., from the Stationery Office to the offices of rural Sub-Registrars which are situated at a distance from Calcutta is borne by Government, and the charge met from the provision made in the budget for the Registrar's office contingencies.

118. Before the several dates noted below all District Registrars should send to the Superintendent of Stationery an indent in duplicate in the prescribed form for the stationery (including registration ink) which will be required for the registry offices in their districts during the next twelve months; indents from Sub-Registrars should be submitted to the district office at least fifteen days before these dates. The Registrar's indent should include all ink and other stationery likely to be required by rural Sub-Registrars under rule 117, above.

Permanent Advance.

119. A permanent advance, not exceeding Rs. 200, will be allowed for each District Registrar on account of (1) contingencies, (2) service postage, and (3) refund of registration fees; but he need not draw the full advance of Rs. 200 where his ordinary expenses fall much below that amount. The Registrar will apportion the amount drawn according to the requirements of each subordinate office, care being taken that a sum is allowed sufficient to meet charges for refunds only; because in the case of rural offices contingent charges will be defrayed by the rural Sub-Registrars, and in other sub-registry offices they should be met from the advance for general purposes received from the Accountant General In cases of the dismissal or death of rural Sub-Registrars, the District Registrars will be held responsible for the amount of the advances made by him. At the close of each official year the District Registrar will send an acknowledgment of the entire advance to the Accountant-General, Bengal, in A. G. B form No. 151, of which a supply should be kept at hand.

120. The advance received by a Sub-Registrar will never be repaid into the treasury, but recouped from time to time, when necessary, by the submission to the Registrar of an abstract bill or bills supported by needful vouchers. On the first office day after the 25th March in each year the officer receiving the advance will forward an acknowledgment of its receipt to the District Registrar. Whenever there is a change of incumbency, the relieving officer shall also address to the Registrar an acknowledgment in the following form:—

"To the Registrar of

"And I, the Relieving Officer, acknowledge to have received Rupees of the permanent advance of Rupees , and that the full amount of such advance is due from and to be accounted for by me.

"*Dated the* 18 .

"*Relieving Officer.*"

Salary Bills.

121. Registrars and Sub-Registrars who are paid by fixed salaries will draw their pay in Accountant-General's form No. 117, and the bill may be paid without the countersignature of superior authority.

122. Sub-Registrars who are wholly or partly remunerated by a percentage on the fees will draw their commission at the end of each month, in Accountant-General's form No. 116, at such rate as may have been sanctioned by Government, but upon such fees only as shall have been actually paid into the treasury. In calculating commission, the fees levied on documents which are still pending at the close of the month shall be excluded; but if the documents be eventually registered, the fees previously credited in respect of them will be brought into the commission account for the month in which they are registered. No commission is payable on fines, or on the extra fees for registration by a Registrar, or on the receipts for the sale of paper. Commission bills require the Registrar's countersignature before payment.

123. When an officer is temporarily placed in charge of the office of a Special Sub-Registrar during his absence on inspection duty in the interior of his district, he is not entitled to draw

commission, which the Special Sub-Registrar retains.

Establishment Bills.

124. Salary bills for permanent establishments will be drawn in Accountant-General's form No. 118 by the head of the office. They do not require the countersignature of higher authority.

125. Bills for extra establishments paid by salary may be drawn in the same way as those for fixed establishments, the orders sanctioning their entertainment being always quoted in the bill.

126. Bills for wages of extra writers paid at contract rates require the countersignature of the Inspector-General before payment. Whenever special establishments are entertained, whether they are paid by salary or at contract rates, a weekly progress statement must be submitted to the Inspector-General in printed form No. 34A.

Contingent Bills.

127. A register of contingent expenditure shall be kept in each office, and the initials of the head of the office shall be entered against the date of the payment of each item.

128. The disbursing officer, that is the officer who draws a bill for contingent charges and is responsible for the due disbursement of the amount, may be left to deal with vouchers for items not exceeding ten rupees, attaching to his contingent bill a certificate in the following form :—

"I certify that the expenditure charged in this bill could not, with due regard to the interests of the public service, be avoided I have satisfied myself that the charges entered in this bill have been really paid. Vouchers of all sums above Rs 10 in amount are attached to the bill. I have, as far as possible, obtained vouchers for smaller sums, and am personally responsible that they have been so destroyed that they cannot be used again, except the vouchers for service postage labels, which are herewith sent."

129. When the bill of a disbursing officer is countersigned, vouchers for sums above Rs. 10 and not exceeding Rs. 100 shall be examined, cancelled, and retained in the office of the countersigning officer.

The following certificate is prescribed for the countersigning officer:—

"I certify that in support of every charge of more than Rs. 10 made in this bill a receipt or other voucher in proper form has been given to me and is now in my possession. The receipts and vouchers for items in excess of Rs. 100 are attached to the bill, and I am personally responsible that the receipts and vouchers for all other items of more than Rs. 10 are in proper form and order, and that they have been so cancelled that they cannot again be used to support claims against the Government, except the vouchers for service postage labels, which are herewith sent."

130. The salary of sweepers cannot be charged to contingencies. The wages of punkah-pullers may be so charged when their employment has been sanctioned

131. No charges for printing may be incurred without the special sanction of the Inspector-General. Such printed forms as are necessary will be printed at the Alipore Jail Press under the authority of the Inspector General.

132. English stationery procurable from the Stationery Office may not be purchased in the local market, but charges for petty articles, such as sealing-ink, paste, thread, country paper, &c, may be included in the monthly contingent bill.

133. Sub-Registrars' contingent bills should be presented for payment at the end of each month, and if the total charge does not exceed Rs 10, the Registrar's countersignature is sufficient for audit. All charges for service postage labels, however small, must be supported by vouchers, and require the countersignature of the Inspector-General.

134. Registrars' contingent bills not exceeding Rs. 10 in amount do not require countersignature

135. When the expenditure during any month on account of contingencies, service postage, and refunds in any Registrar's office exceed the amount of the permanent advance, the amount expended may be drawn by an abstract bill or bills (*see* Accountant-General's form No. 119) submitted during the month under the Registrar's signature But in such cases a detailed bill (*see* Accountant-General's form No. 138), accompanied by vouchers, must also be submitted to the Inspector-General at the end of the month.

Miscellaneous.

136. When the executant of any document appears personally, he shall be required to attest all interlineations, &c. When he appears by agent, &c., the attestation of such agent, &c, shall be accepted, unless the interlineations, &c., are of an important character. A registering officer shall also be at liberty, on due cause being shown, to accept the attestation of an agent, &c., in case of important interlineations, &c.

Interlineations, &c.,—section 20
